Mining Claims
Both State and Federal Claims are Located Within a Section
Federal Mining Claims (7,569 Approx.)
State Mining Claims (45,878 Approx.)
Mineral Resources
Known Metalliferous Lode Deposits
Ag - Silver
As - Arsenic
Au - Gold
Ba - Barium
Be - Beryllium
Bi - Bismuth
Co - Cobalt
Cr - Chromium
Cu - Copper
F - Fluorine
Fe - Iron
Hg - Mercury
Mo - Molybdenum
Nb - Neodymium
Ni - Nickel
Pb - Lead
Sb - Antimony
Sn - Tin
Ta - Tantalum
Th - Thorium
U - Uranium
W - Tungsten
Zn - Zinc
Coalfields
Placer Districts
Historic Transportation Routes
Qualified RS2477 Rights-of-Way identified and included in the January 2001 Report to the Legislature
The Division of Land RS2477 staff researched the historical use and land ownership of these routes and found that they meet criteria for RS2477 rights-of-way; the original casefiles containing the historical documentation and land ownership research are located at the Department of Natural Resources, Division of Mining, Land and Water.
Note: This map does not show 1190 other routes researched by DNR, Division of Land, as part of the RS2477 Project. These include:
16 Rejected Routes (route does not meet criteria for an RS2477)
20 Pending Routes (researched, but more information needed)
124 R-O-W Routes (researched, found route already had right-of-way or closely parallels an existing r-o-w)
212 Duplicate Routes (route already in database under a different name)
451 Deferred Routes (route crosses early federal withdrawal and evidence of construction prior to withdrawal unlikely)
367 Hold Routes (historical information lacking or trail importance unclear)
