NOTES

1. The approximate mean high water line of Kvichak Bay was determined by tidal observations during this survey.
2. The line of mean low water is greater than 1000 feet from the 18 foot tide line.
3. Each tract is subject to a 50 foot public access easement below the line of mean high water.
4. All bearings and distances shown are true mean.
5. The UTM and metric data shown hereon is for information purposes only.
6. SPECIAL NOTE
   It is neither expressed nor implied that the State of Alaska will be responsible for the accuracy of the geodetic location, technical survey corrections, or accuracy of the relation to the original basis of bearing.
7. RM No. 1 was recovered in good condition. RM No. 2 and TRI-STA "ROB" have been destroyed by erosion, although evidence of them remain. Coordinates for RM No. 1 were computed from USC & GS record reference data.
8. This survey was completed in accordance with GN-80-35
