

# Trail Conditions Report

## KACHEMAK BAY STATE PARK

Updated: June 23, 2016

**Overall Conditions:** Snow level is at 1500 ft. and above. Trail locations obscured in alpine areas. Majority of trails are/will be very brushy/overgrown. When in doubt, look for chainsaw cuts on trees and logs.

**Advisory:** Trails in KBSP are rough, with steep grades in places, and in some cases only marked routes. It is advisable to add 1/3 to your average hiking time.

**Grewingk Creek Tram** is open and upgraded. It is difficult to use. We suggest a minimum of two people in party, one assisting by remaining on the platforms to pull on the rope, reversing process when first person across completes trip. Gloves are recommended.

Please practice LEAVE NO TRACE etiquette. **PACK OUT WHAT YOU PACK IN!**

Report any problems, complaints to the Park Ranger @ 235-7024 or 262-5581, thank you.

**Announcement: Please look at the additional pages. Expect ALL trails to be VERY BRUSHY and at times hard to follow**

China Poot Lake Trail:	Cleared of deadfall
Estuary Trail:	Cleared of deadfall
Poot Peak Trail: North Route:	<b>Unmaintained.</b> Possible fallen trees across the trail and is very brushy
Poot Peak Trail: South Route:	<b>Not Cleared.</b>
Poot Peak Trail: Summit Route:	<b>Caution climbing up to the summit.</b> Route climbs up scree slope and there is a short climb to the actual summit. Rock is unstable near the summit.
Coalition Trail:	Cleared of deadfall btw. Hal. Cove Lagoon and China Poot Bay. <b>Unmaintained btw. China Poot Bay and China Poot Lake. NOT RECOMMENDED TO HIKE OR TO FALLS.</b>
Moose Valley Trail:	Hike-able to Moose Valley PUC <b>Btw. Moose Valley PUC (mile 1) and Poot Peak Trail jct., many trees down and heavily overgrown. Also, the bridge is out at mile 2.5, crossing Moose Valley Cr. Not recommended to hike beyond Moose Valley PUC. Trail crew to be working on upper Moose Valley for the season.</b>
Lagoon Trail:	<b>Unmaintained. Not recommended to hike.</b>
Goat Rope Trail:	<b>Unmaintained. Not recommended to hike.</b>
Alpine Ridge:	<b>Not Cleared. Brushy to overgrown conditions.</b>
Saddle Trail:	Cleared of deadfall. <b>Please see additional announcements for Saddle Re-Route Construction Updates.</b>
Glacier Lake Trail	Cleared of Deadfall.
Grewingk Tram Spur Trail:	Cleared of Deadfall.
Blue Ice Trail:	Hike-able.
Emerald Lake Loop Trail:	<b>Not Cleared. Snow between Portlock Plateau and Emerald Lake. Hard to follow trail.</b> Trail is overgrown between Humpy Cr. and Emerald Lk. AND between Grewingk Lk. and Emerald Lk. Humpy Cr. to Grewingk Lk. via the tram is hike-able and brushy over Foen Ridge.
Mallard/Emerald Conn. Trail:	<b>Unmaintained. Not recommended to hike</b>
Mallard Bay Trail:	<b>Unmaintained. Not recommended to hike</b>
Woznesenski River Trail:	<b>Not Cleared. Very brushy btw. China Poot Lake and Poot Peak South Jct. and beyond. An overflow channel has made the Wosensenki River Trail impassable 3 miles from Haystack Rock. A main channel has moved along the north side of the river and is partially being diverted. Not Cleared and extremely brushy beyond mile 3.</b>
Sadie Knob Trail:	Hike-able. Expect brushy conditions as summer progresses.
Grace Ridge Trail:	<b>Hike-able. Large snow patches on North end up to ridge line. May obscure trail.</b> Reports of a few trees down on the north end. South end clear of trees and very brushy
Tutka Lake Trail:	Hike-able. Few trees down.
Tutka – Jakolof Trail:	<b>Not Cleared</b>

**ADDITIONAL ANNOUNCEMENTS**

Updated: June 23, 2016

**SADDLE RE-ROUTE TRAIL CONSTRUCTION PROJECT**

Starting late May through the end of August, a trail construction crew will be working on the new trail alignment for the Saddle Trail between the Lagoon Trail Junction and the Glacier Lake Trail junction. During this time the existing trail will be open for public use. We anticipate no delays for the public during this time. We will update with information of trail delays if they should arise. The crew will be using the Glacier Lake Trail May 18-22 with ATV's to bring in tools and equipment for the summer and late August to bring gear and equipment out.
