

# Local Food Hero

"The more alive your food, the fresher, the better it is for you."  
-Jimmie Hendricks, Denali Organic Growers

The crew at Denali Organic Growers, in Healy, does all their planting, gardening, and harvesting by hand!

The farm is 20 acres with intense cultivation between 2-3 acres.

Jimmie & Laura Hendricks of Denali Organic enjoy having students from the local school out at the farm.

Last year Denali Organic sold 400 lbs of potatoes to Healy School – for the student's lunch meals.

Healy School holds a food buffet event with all local food, the first of which was supplemented with all Denali Organic Produce.
