**Subject:** Fwd: Public comment for privatization of MMM&S

Hi Lora,

Can you please forward this on to the BAC BOD's.

Thank you

Todd

> The following comments are provided by Todd Pettit, Vice President of Denali Meat Company (DMC). DMC is pleased to provided public comment regarding the potential sale or leasing of MMM&S.

> DMC is in full support of the "Recommendations for MMM&S Lease Agreement" put forth by the Alaska Farm Bureau.

> DMC encourages the BAC to act swiftly and utilize minimum required timeframes (as opposed to maximums) such that transition of the plant operations can happen in a timely fashion. DMC feels that the current Alaska Legislature has been quite generous in their funding timeline and it is in the best interest of industry to move forward as quickly as possible.

> The Red Meat Committee of the Alaska Farm Bureau has been working on this subject for well over a year; people engaged in the red meat industry have been aware of the need for change for quite some time. Now is not the time to delay. Now is the time to move forward with an organization that is prepared and capable.

> DMC encourages the BAC to be generous in their negotiations, recognizing the overall impact of this facility on the industry as a whole.

> Thank you,

> Denali Meat Company
