A nine-member advisory group established by the Citizens’ Advisory Commission on Federal Areas, through its authority at AS 41.37.230, to study, understand, discuss and advise on the viability, advisability and potential for transferring the ownership and/or management of federal public lands in Alaska to the State.

Specific tasks include researching the legal, economic, jurisdictional, social and other issues associated with a transfer of federal land and/or authorities. The group will also work to identify, discuss and strategize the ability to more efficiently manage public lands in Alaska for sustained conservation, utilization, access and productivity, with an eye on federal or state obstacles and the existing and future needs of our communities.

The group has developed several fundamental platforms and focus areas to organize its efforts and identify issues and intersections, including:

- **Key Areas:** Litigation, Legislation, Negotiation/Administration, Sovereignty
- **Perspectives:** Economics, Native Community, Environment, Interstate/International

Meetings and work sessions (approximately six per year) are open to the public with opportunities for public testimony. The public is encouraged to submit relevant comments, reports, studies, media and academic articles, personal accounts and any other information for consideration by the group at any time.

Under its [Charter](#), a detailed report of the group’s findings and recommendations is to be issued no later than June 30, 2017. The group is strictly advisory and will not make policy decisions for the Citizens’ Advisory Commission on Federal Areas or the State of Alaska.
