Dear Terry:

In previous conversations, representatives from your office and ours have discussed Resource Management Plans being prepared by your Superintendents. Since it is the State's desire to be actively involved in unit planning, we had requested permission to participate in these plans.

We are in receipt of Doug Warnock's 6 November 1981 letter which allows the State "internal review and comment" of the draft plans as soon as they are received by your office. We are very appreciative of this forthcoming opportunity to participate in the Resource Management Plans.

We recognize that your time frame after receiving the plans for review and finalization will be very short. If possible, would you please clarify the extent to which the National Park Service will consider any comments the State may make and will incorporate changes or additions that the State presents.

We continue to appreciate the cooperative working relationship between our organizations concerning the implementation of ANILCA and look forward to hearing from you on the above subject.

Sincerely,

Tina Cunning
