Mr. Jim Morris
Study Team Leader
National Park Service
540 West Fifth Avenue
Anchorage, AK 99501

Dear Jim:

Per your request, we advanced to the State agencies the concept of providing a State position letter in the Draft EIS regarding designation of the Porcupine and lower Sheenjek Rivers within the Wild and Scenic Rivers system. Results of our request indicate that the agencies, although leaning toward no designation, prefer to consolidate a position after reviewing the Draft EIS. However, the agencies do appreciate the opportunity you provided for the State to have a position published in the document.

Thank you again for the opportunity to work cooperatively with the National Park Service and the study teams. We continue to appreciate the close coordination which you have developed with the State in these studies.

Sincerely,

Sterling Eide
State CSU Coordinator
