ADDITIONAL INFORMATION

This is only an index map to the public land record. Detailed maps (state status plats) portraying the precise location of the boundaries of the Legislatively Designated Areas (LDA's) are available from the Department of Natural Resources, Public Information Office. On this index map, the LDA's are depicted to section level accuracy. If one acre in a section contains an LDA, then the entire section is shown within the LDA. If the boundary between two LDA's falls within a section, the one with the most acreage is displayed. If the boundaries between LDA's are overlapping or of equal acreage within a section, the more restrictive LDA is displayed.
