

THORNE BAY SUBDIVISION

Thorne Bay Subdivision is located on the east coast of Prince of Wales Island approximately 38 miles northwest of Ketchikan and about 45 miles by road east of Craig. The subdivision lies within the corporate boundaries of the City of Thorne Bay and all lots are subject to applicable local ordinances and property assessments. A public K-12 school, post office, small boat harbor, seaplane float, stores and other services are available in the community of Thorne Bay which is located across the bay from the subdivision. The subdivision is served by a public dock and fire hall. The subdivision is accessible by boat, float plane, and the Prince of Wales Island road system. Parcel 29 and Parcel 32 are currently accessible only by trail easements and by boat; all other parcels are on existing, gravel-surfaced roads. Alaska Marine Highway ferry service is available from the Clark Bay Ferry Terminal at Hollis, about a 2-hour drive southwest of Thorne Bay.

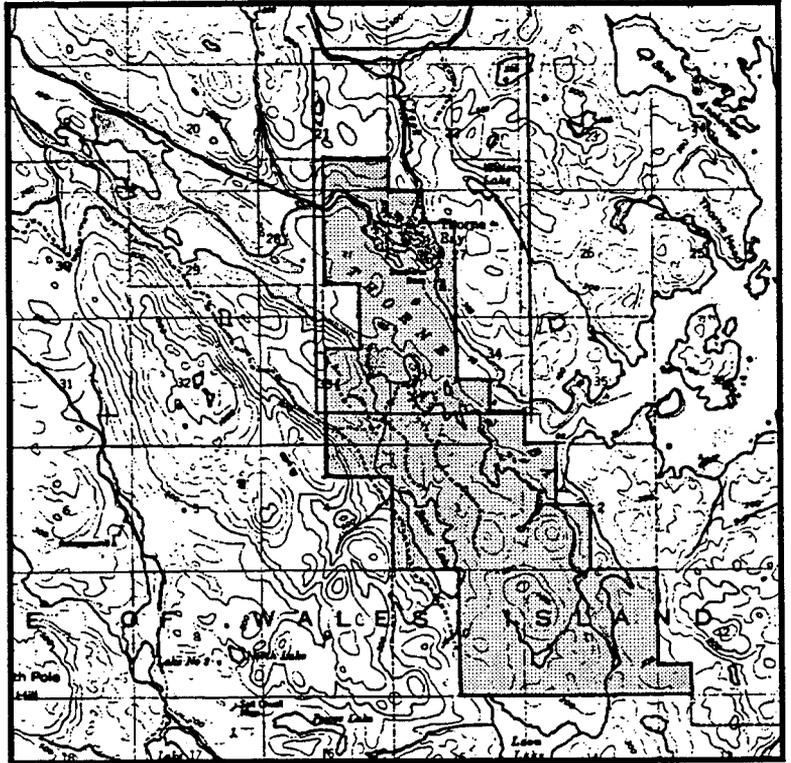

No public utilities are available in the subdivision. A project is underway to construct a hydroelectric powerline to the subdivision. There is no public water or sewage system available to the subdivision; for sewage and grey water disposal, lot owners must construct individual sewage disposal systems. All parcels have been approved for sealed systems with no discharge to the lands or waters of the state and conventional on lot wastewater disposal with individual review and approval by ADEC prior to construction. Parcels 29-32 have also been approved for marine discharge of secondary effluent to a -4' tide. Water for domestic use may be obtained from streams or by rainwater catchment/storage systems.

The vegetation consists of a hemlock/sitka spruce/cedar forest with dense undergrowth. About half of the subdivision was clear-cut over thirty years ago and regrowth in those areas is dense. Generally, the terrain is moderately hilly and slopes vary from slight to steep. Soil cover bedrock is usually less than five feet. The area is dominated by a cool, mist maritime climate. Annual precipitation in the Thorne Bay area is around 120 inches, including 40 inches of snow. Average summer temperatures range from 49°F to 63°F; average winter temperatures range from 32°F to 42°F.

THORNE BAY AUCTION SALE - STATE PARCELS

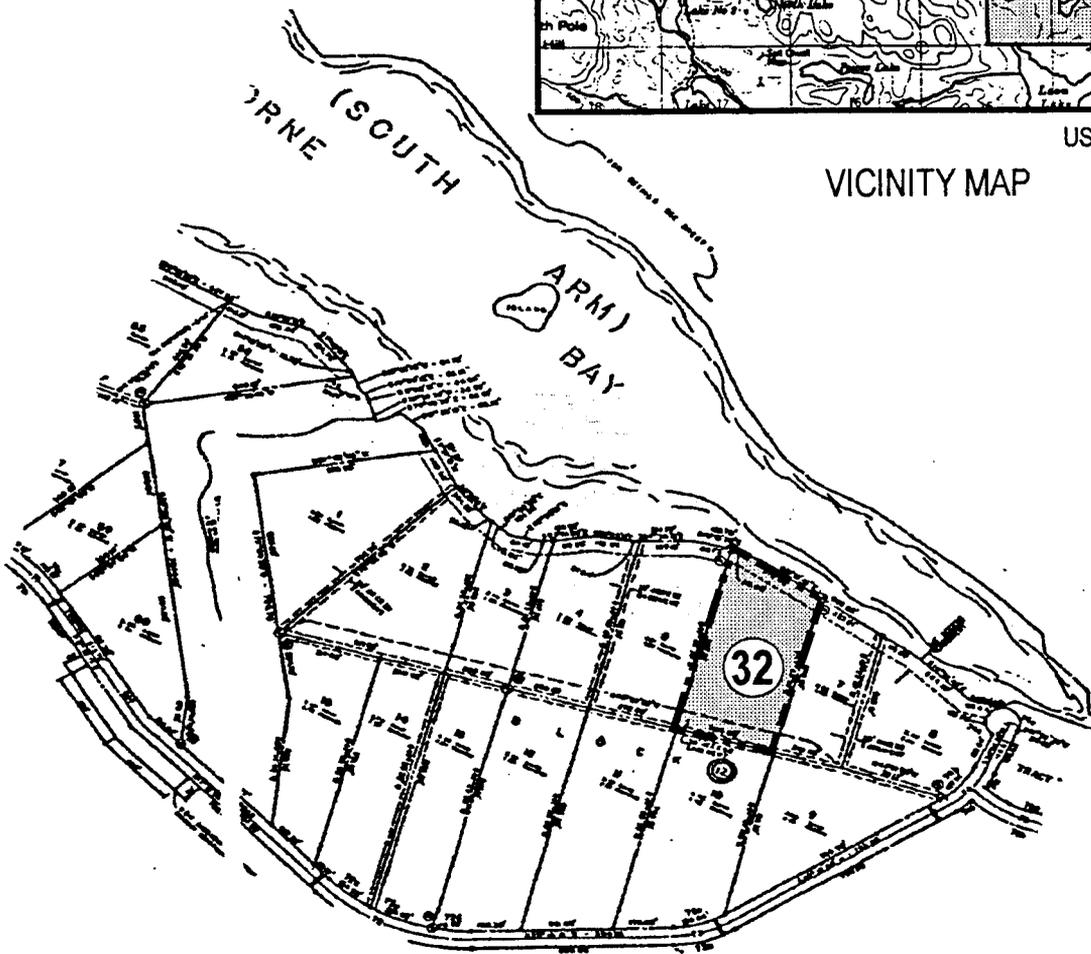

PARCEL	ADL	MTRS	DESCRIPTION	SURVEY	ACRES	RESERVATION CODE	MINIMUM BID	COMMENT

RESERVATION CODES LIST

The following is a list of some of the restrictions and easements recorded on the plat of survey or reserved by the state through the department decisions. This list is not all inclusive and only serves to inform the applicant of reservations immediately important to make a more informed decision. **THE SUBDIVISION PLAT MAY IMPOSE ADDITIONAL RESTRICTIONS NOT LISTED IN THE BROCHURE.** For more detailed information, applicants may review the subdivision plat at any of the three DNR Information Offices listed on pages 4-5.

- A. Subject to a 10-foot wide public utility easement.
- B. Subject to a 50-foot wide public access and utility easement on both side of section line.
- C. Subject to a 50-foot wide public access easement and building setback along mean or ordinary high water mark.
- D. Subject to a 30-foot wide utility easement.
- E. Subject to a 20-foot wide public utility easement adjacent to the dedicated road right-of-way.
- F. Subject to a 15-foot wide public utility easement.
- G. Subject to a 20-foot wide public utility easement.
- H. Subject to a 30-foot wide public utility easement within all lots and tracts adjacent to the R/W.
- I. Subject to a 15-foot wide utility easement on common interior lot lines.
- J. Subject to a 30-foot wide utility easement on lot lines not common with other lots.
- K. Subject to a 50-foot wide section line easement on either side of the section line. This is reserved under AS 19.10.010 to the State of Alaska for public highways.
- L. Subject to a 50-foot wide public access easement up from the ordinary or mean high water mark, pursuant to AS 30.04.055 and AS 38.05.127.
- M. A 30-foot wide public access easement along either side of the centerline of all traditional, existing roads and trails that have been and are in use at the time of the staking.

- N. Subject to a 30-foot wide public access easement.
- O. Subject to a 30-foot wide public access and utility easement.
- P. Subject to a 20-foot wide pedestrian and utility easement.
- Q. All lands encompassed by this survey are subject to a 50-foot wide access easement along the mean high water or ordinary high water line of any water frontage of any sort.
- R. Before an on-site sewage disposal system can be installed on a lot within this subdivision, approval must be obtained from the Alaska Department of Environmental Conservation.
- S. Water supply and sewage disposal: No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed and equipped in accordance with the requirements of the Alaska Department of Environmental Conservation.
- T. Subject to a 50-foot wide easement on boundary line adjacent to Tract B for access, utility, drainage, and conservation use.
- U. Subject to a 20-foot pedestrian access and drainage easement.
- V. Subject to a 40-foot road easement.
- W. Subject to a 60-foot public and utility easement.
- X. Subject to a 25-foot public access easement along all upland boundaries.
- Y. Subject to a 25-foot road easement.
- Z. Subject to a 50-foot easement on boundary line adjacent to Tract C for access, utility, drainage, and conservation use.
- AA. There is an easement of 30-foot radius at each pole location for guys or anchors.
- BB. There is a 20-foot access easement along trails defined by the Matanuska-Susitna Borough Platting Department. This easement will automatically be vacated when alternate physical access is provided.
- CC. Subject to a 35-foot wide public access and utility easement along all interior lot lines that are in common with other lots.
- DD. Subject to a 50-foot wide easement for a snow storage area.

EE. Subject to a 10-foot wide utility easement on common interior lot lines.

FF. Subject to a 20-foot wide utility easement on lot lines not common with other lots.

GG. Subject to a 15-foot wide easement for a non-motorized vehicular trail. This trail does not supersede any line access easement.

Veterans' Land Discount

Eligible veterans may receive a 25 percent (25%) discount on the purchase of State land (AS 38.05.940). **Veterans' discounts are not applicable to AMHT parcels.** The veterans' discount may only be used **once** in an applicant's lifetime. To be eligible, an individual must submit proof, acceptable to the department, that the purchaser:

- is 18 years of age or older at the date of sale;
- **has been a resident of the State of Alaska** for a period of not less than one year immediately preceding the date of sale (see Residency Requirement on page 7);
- has served on active duty in the U.S. armed forces for at least 90 days, unless tenure was shortened due to a service-connected disability or due to receiving an early separation after a tour of duty overseas (use Form DD 214); and
- has received an honorable discharge or general discharge under honorable conditions.

For the purposes of this program, armed forces are limited to the United States Army, Navy, Marines, Air Force, and Coast Guard. Service in State National Guard units, the Alaska Territorial Guard, as well as Army, Navy, Marine, and Air Force Reserve service may also be included, provided the applicant can document the accumulation of 90 days of active duty service. A Form DD 214, Report of Separation from Active Duty, or the equivalent, showing the character of the discharge and length of active duty must be submitted. **Interested veterans are encouraged to request their Form DD 214 well in advance of the auction.**

The veterans' discount may be applied only to acquisition of surface rights to the land. **It may not be applied to survey and platting costs, or other reimbursable costs to the state.** These costs will be subtracted from the purchase price before the discount is calculated. These costs for each subdivision are listed in the table on page 16.

Successful bidders who qualify for the veterans' discount must apply for the discount at the time of purchase. The amount of the discount will be deducted from the principal sum of the sales contract, or from the purchase price if the purchase price is paid in full.

Here is how a veterans' discount calculated for a 3.349 acre parcel with reimbursable costs of \$959 per acre, and a bid price of \$14,000.00:

\$14,000.00	bid price
<u>- 3,211.69</u>	reimbursable costs (\$959 per acre x 3.349 acres)
\$10,788.31	price eligible for discount
- 2,697.08	25% veteran's discount
\$14,000.00	bid price
- 2,697.08	discount amount
\$11,302.92	discounted purchase price
<u>- 700.00</u>	5% down payment of the full purchase price (do not submit a down payment based upon the discounted purchase price)
\$10,602.92	balance due

REIMBURSABLE COSTS FOR CALCULATING VETERANS DISCOUNT

Subdivision	Survey	Reimbursable Costs
Bear's Den	ASLS 82-125	\$431.00/Acre
Caribou Creek	ASLS 85-41 (RP Plat)	None
Chase (Paper Plat)	ASLS 93-123	None
