

# Staking Map: PORCUPINE BUTTE WEST

Remote Recreational Cabin Site Area No. 1104205

This staking map is for graphic representation only and is not intended to be all-inclusive. It is intended to be used as a guide only, and may not show the exact location of existing surveyed parcels or show all easements and reservations. Source documents remain the official record and should be reviewed prior to staking. Monuments found in the field take precedence over the graphic record. All Alaska State Land Surveys (ASLS) have survey monuments at each Parcel corner, which can be used as reference points when staking. See the survey plats for information on corner numbers, bearings and distances.

**Notes:**  
Maximum parcel size 20 acres.  
Minimum parcel size 10 acres.  
Staking authorizations: 30  
Staking period: August 27, 2004 to January 24, 2005  
All parcels staked on lands owned by the State of Alaska that contain land within 50 feet of a surveyed or protracted (un-surveyed) section line, are subject to a 50-foot wide easement on each side of the section line, which is reserved to the State of Alaska for public highways under AS 19.10.010. Parcels may not be staked over a surveyed section line. Note: All section lines are surveyed within the Cannery Creek staking area.  
Parcels may not be staked across any public or navigable water body. Parcels are subject to a 50-foot public access easement along the ordinary high water mark.  
Parcels are subject to a 100-foot building setback from the ordinary high water line of all water bodies. Some water bodies may also have staking setbacks or water frontage limitations.  
A staking setback is required around unauthorized improvements. A staking setback is required around airstrips used by the public.  
Most surveys (ASLS, USS) have survey monuments at each corner, which can be used as reference points when staking. See the survey plats for information on corner numbers, bearings, and distances. Monuments found in the field take precedence over the graphic record.  
There are public access easements along most ASLS boundaries. Check the survey plats for additional information.
