

2010 Staking Workshops

DNR is holding the following informational workshops for authorized stakers and their agents. Alternate lottery winners are also invited. The workshops will explain the Remote Recreational Cabin Sites program including the staking instructions, the lease-to-purchase process, and the survey and appraisal process. The workshop will also answer your questions regarding the use of GPS units and compasses for staking. We strongly encourage your attendance.

- No reservation necessary.
- All sites include free parking. In Anchorage, park in the Linny Pacillo Parking Garage on E Street between 6th and 7th Avenues. Bring your parking ticket with you into the Atwood Building. It will be validated by the security guard in the lobby when you leave. You will not need a parking ticket at Wasilla and Fairbanks locations.
- Please bring your staking packet, your compass, and your GPS unit if you are planning to use one.
