ATTENTION MAP USERS
The information displayed on these maps is excerpted from the Alaska Resource Data Files as historical mine sites where it is believed hazardous conditions to users or water resources could potentially exist. The sites shown are in no way to be considered as a definitive or complete set of hazardous sites. All abandoned mine sites are best avoided – the "Stay Out and Stay Alive" slogan is much more than mere words. As agencies get the opportunity to evaluate individual mine sites they will be added to, or removed from, these maps. Updates are most likely taking place on an annual basis.

Note: This map shows general land ownership information. When reviewing this map, please remember that federal, ANCSA, and state land ownership is depicted, hierarchically, by entire section. For example, any portion of a section (640 acres) falling within State Patented or Tentatively Approved land causes the whole section to be depicted as state land, even if the State Patented or Tentatively Approved land is only a fraction of the section, and federal land and/or ANCSA land also occurs in the section.
The land ownership hierarchy is as follows:
1. State Municipal Entitlements or Land Exchanges or Other Land Disposals.
2. Patented Disposed Federal Lands (Native Allotments or Private Parcels).
3. State Patented or Tentatively Approved or Other State Acquired Lands (includes snowhopper 910-114, 116-117, 128-129).
4. Alaska Native Claims Settlement Act (ANCSA) Patented or Interim Conveyed.
5. Major Military.
6. National Wildlife Refuges, National Park System Units.
7. National Wild & Scenic Rivers outside National Park System Units and National Wildlife Refuges.
8. National Forests and Monuments, National Petroleum Reserve-Alaska, National Recreation Areas and National Conservation Areas.
9. Bureau of Land Management Public Lands.
