Alaska Resource Data Files
Alaska Resource Data Files may have multiple ownership types.

ATTENTION MAP USERS
The information displayed on these maps is excerpted from the Alaska Resource Data Files as historical sites where it is believed reasonable conditions to water or water resources could potentially exist. The sites shown are in no way to be considered as definitive or complete set of boundaries. All developed sites are best available - the "Buy Out and Buy Alone" program is much more than mere words. As resources and the opportunity to evaluate individual sites they will be added to, or removed from, these maps. Updates are more likely taking place on an annual basis.
