

**List of Approved Revisions
to the
Public Review Draft
Determination of Reclassification and Plan Amendment**

| Item | Subject/Unit | Issue Response Summary Reference | Revision |
|-------------|---|---|---|
| 1. | 2005 BBAP: Habitat Data | Table 1, Item 7 | Add caribou calving and rutting and moose calving, wintering and rutting to Management Guideline B in the Fish and Wildlife section of Chapter 2 in the 2005 BBAP. |
| 2. | 2013 BBAP Plan Amendment: Subsistence | Table 1, Item 18 | <p>Add the following to Harvest section of the Management Summary of the 2005 BBAP starting at p.3-24: “It is the policy of DNR that the Bristol Bay area fisheries, wildlife and their associated habitats be maintained throughout the planning period. These areas are essential to the commercial fishery, maintenance of the traditional subsistence lifestyle, public recreation and the commercial recreation industry. DNR decisions are to carefully consider the effects of a proposed use upon these uses and resources, and all authorizations are to ensure that adverse impacts are avoided, minimized, or mitigated consistent with the requirements in Chapter 2.”</p> <p>Also add the following to the Fish and Wildlife section of Chapter 2 under Management Guideline: Habitat Areas: “The underlying integrity of the ecological system and traditional way of life in this region is to be maintained to the maximum extent practicable.”</p> |
| 3. | Development and Resource Protection | Table 1, Item 30 | Add the following to the Fish and Wildlife section of Chapter 2 under Management Guideline: Habitat Areas: “The underlying integrity of the ecological system and traditional way of life in this region is to be maintained to the maximum extent practicable.” |
| 4. | Development: General Approach | Table 1, Item 32 | Add the following to Harvest section of the Management Summary of the 2005 BBAP starting at p.3-24: “It is the policy of DNR that the Bristol Bay area fisheries, wildlife and their associated habitats be maintained throughout the planning period. These areas are essential to the commercial fishery, maintenance of the traditional subsistence lifestyle, public recreation and the commercial recreation industry. DNR decisions are to carefully consider the effects of a proposed use upon these uses and resources, and all authorizations are to |

| | | | <p>ensure that adverse impacts are avoided, minimized, or mitigated consistent with the requirements in Chapter 2.” Also add the following to the Fish and Wildlife section of Chapter 2 under Management Guideline: Habitat Areas: “The underlying integrity of the ecological system and traditional way of life in this region is to be maintained to the maximum extent practicable.”</p> |
| 5. | Habitat and Harvest Designation | Table 1, Item 37 | <p>Add the following after the first paragraph on p. 3-6 of the 2005 BBAP: “The maintenance of the fishery resource and important habitat areas for subsistence and for the maintenance of the ecological and physical systems that occurs throughout the planning area is an overarching aspect of this plan. The people and economy of the BBAP are largely dependent un these resources and habitats, and it is vital that DNR ensure in its decision making that these systems are not unduly compromised.</p> <p>DNR decisions are to carefully consider the effects of a proposed use upon these uses and resources, and all authorizations are to ensure that adverse impacts are avoided, minimized, or mitigated consistent with the requirements of Chapter 2.”</p> <p>Also add the following to the Fish and Wildlife section of Chapter 2 under Management Guideline: Habitat Areas: “The underlying integrity of the ecological system and traditional way of life in this region is to be maintained to the maximum extent practicable.”</p> |
| 6. | Habitat: Moose and Caribou Calving Areas | Table 1, Item 44 & 47 | <p>Unit R21-04 has been re-designated as Habitat.</p> <p>Add the following units:</p> <p>R14-02A; co-designations: Habitat and Water Resources R15-01A; co-designations: Habitat and Water Resources R15-01B; designation: Habitat R18-01A; designation: Habitat R21-01A; co-designations: Habitat and Water Resources</p> <p>See Map 3A and the recommendations in this document for specific unit changes.</p> |

| Item | Subject/Unit | Issue Response Summary Reference | Revision |
|------|---|---|---|
| 7. | Habitat: Moose and Caribou Calving Areas: Change in Description | Table 1, Item 46 | Revise Management Guideline K in the Fish and Wildlife section of Chapter 2 to include the following: “Caribou wintering areas show no particular concentration and, in fact, there is a fairly widespread distribution of these habitats throughout the planning areas. The location of caribou wintering varies throughout this range from year to year and within years and does not exhibit the same concentrated pattern that is characteristic of moose wintering areas.” |
| 8. | Inaccurate descriptions in the Determination of Reclassification | Table 1, Item 78A | <p>Page 22 of the Determination of Reclassification will be corrected to eliminate the following statement: “Development projects would be precluded for this same reason.”</p> <p>Add to the end of the first paragraph on page 24 of the Determination of Reclassification: “except for municipal selections and only when the adjudication of the entitlement decision determines that conveyance to the municipality is warranted.”</p> <p>Additionally, the statement on page 28 of the Determination of Reclassification will be corrected to the following: “The <u>decrease</u> in the acreage assigned”</p> |
| 9. | Water Resources Designation: Watershed, Chulitna River drainage, R07-19 | Table 1, Item 90, 92, 95 & 96 Table 2, Item 44 | Create two new units, R07-19A and R07-19B, from the original unit R07-19. Unit R07-19A is designation as Water Resources. Unit R07-19B is designated at Habitat and Public Recreation and Tourism-Dispersed Use. See Map 3A for their depiction. |
| 10. | Water Resources Designation: Watershed | Table 1, Item 91 Table 2, Item 64 | Unit R10-03 is re-designated as Water Resources, Habitat & Public Recreation & Tourism-Dispersed Use. Units R10-04 and R10-05 are re-designated as Habitat and Public Recreation and Tourism-Public Use Site. See Map 3A for their depiction. |
| 11. | Chulitna River and Pedro Bay, R09-01 | Table 1, Item 94 Table 2, Item 52 | Create new units, R09-01A, R07-19A, and R07-19B, from the original units R09-01 and R07-19. See Map 3A for their depiction. |
| 12. | Goodnews River | Table 1, Item 98 | Update Table 3.1 to include the Middle and South Forks of the Goodnews River, and Barnum, Granite, Cascade, Wattamuse and Slate Creeks. They will be co-designated Habitat and Public Recreation and Tourism-Dispersed Use. |

| Item | Subject/Unit | Issue Response Summary Reference | Revision |
|-------------|--|---|---|
| 13. | Kaskanak Creek and Peck's Creek | Table 1, Item 99 | Units R10-03 and R10-07 are re-designated as Water Resources Habitat, and Public Recreation and Tourism-Dispersed Use. See Map 3A for their depiction. |
| 14. | Kisaralik Lake and Upper Kisaralik / R02-02 | Table 1, Item 100 | Unit R02-02 will be re-designated to Habitat and Public Recreation and Tourism-Dispersed Use. See Map 3A for the depiction. |
| 15. | Lake Iliamna, Six Mile River and Kvichak River, Levelock | Table 1, Item 101 & 102 | A new unit, Unit R10-07A, is created from the original and is designated as Habitat, Water Resources. The remainder of R10-07 is re-designated as Habitat, Water Resources, and Public Recreation and Tourism-Dispersed Use. See Map 3A for their depiction. |
| 16. | Nushagak and Kvichak river drainages | Table 1, Item 103 | Unit R10-07 is co-designated as Habitat, Water Resources and Public Recreation and Tourism-Dispersed. Unit R06-42 is co-designated as Habitat and Public Recreation and Tourism-Dispersed Use. See Map 3A for their depiction. |
| 17. | R03-05 | Table 1, Item 106 | Change the designation of Unit R03-05 from Settlement to a co-designation of Habitat and Public Recreation and Tourism-Dispersed Use. |
| 18. | R05-01 | Table 2, Item 1 | Change unit to co-designation of Habitat and Public Recreation-Dispersed Use. |
| 19. | R05-11a | Table 2, Item 8 | Revise Management Intent language from "should be considered" for disposal to "may be considered". |
| 20. | R05-15 & R05-16 | Table 2, Item 11 & 12 | Revise the Resources and Uses section to recognize the presence of moose wintering within portions of both parcels. Revise Management Intent to add requirement to conform to Management Guideline K for moose and caribou habitats found in Chapter 2 under Fish and Wildlife component. |
| 21. | R05-20 | Table 2, Item 14 | Change designation to Water Resources and Public Recreation and Tourism-Dispersed Use. Revise Resources and Uses section to recognize the presence of large wetland complex covering the majority of the unit and the presence of dispersed recreation. Revise Management Intent to remove "General Use" and add "Water Resources" to the list of uses in the first sentence. |

| Item | Subject/Unit | Issue Response Summary Reference | Revision |
|-------------|---------------------|--|---|
| 22. | R05-21 | Table 2, Item 15 | Change designation to Habitat and Public Recreation-Dispersed Use. Revise Management Intent to delete references to settlement. Revise Resources and Use section to recognize the presence of moose wintering and calving areas. |
| 23. | R05-23 | Table 2, Item 17 | Add wetlands as one of the resources to manage for under the Management Intent section and identify this feature under Resources and Uses section. |
| 24. | R05-24 | Table 2, Item 18 | Add wetlands as one of the resources to manage for under the Management Intent section and identify this feature under Resources and Uses section. A portion of this unit has been absorbed into unit R10-06A. See Map 3A for depiction. |
| 25. | R05-25 | Table 2, Item 19 | Delete unit from plan. |
| 26. | R05-34 | Table 2, Item 21 | Change designation to Water Resources and Public Recreation-Dispersed Use. Revise Management Intent to delete references to settlement. Revise Resources and Uses section to recognize the presence of lakes and subsistence use. |
| 27. | R06-03 | Table 1, Item 111 & 58, Table 2, Item 24 | Add the Habitat designation to Unit R06-03 so that it is co-designated Habitat and Minerals. Revise the Management Intent statement for Unit R06-03 to include the following: "Any mineral development must consider effects on brown bear denning and shall follow the requirements of Management Guidelines A and B in the Fish and Wildlife section of Chapter 2." |
| 28. | R06-05 | Table 2, Item 25 | Reconfigure unit to annex portion of R06-23 and create new unit R06-05A to be designated Water Resources. See Map 3A for depiction. Unit R06-05A should have Management Intent text that indicates these areas are to be managed for their habitat, dispersed recreation, and water resources. |
| 29. | R06-09 | Table 2, Item 27 | Expand the size of this unit along the middle of the Koktuli to include upland moose wintering range. See Map 3A for depiction. |
| 30. | R06-13 | Table 2, Item 37 & 38 | Reconfigure unit. See Map 3A for depiction. |
| 31. | R06-16 | Table 1, Item 104 Table 2, Item 29 | Revise Management Intent and the Resources and Uses section to recognize the presence of wetlands and delete the references to caribou calving areas. |

| Item | Subject/Unit | Issue Response Summary Reference | Revision |
|------|--------------|--|--|
| 32. | R06-18 | Table 1, Item 112 Table 2, Item 30 | The unit is reconfigured to coincide with the new geophysical data. See Map 3A for a depiction of the reconfiguration. |
| 33. | R06-23 | Table 1, Item 113 Table 2, Item 31 | <p>Reconfigure Unit R06-23 to coincide with the new geophysical data. Revise the Management Intent for the unit with the following: “The general management intent for the Pebble Copper area is to <u>consider</u> mineral exploration and development and to allow DNR the discretion to make specific decisions as to how the development may occur, through the authorization process.”</p> <p>Unit R06-05 is reconfigured to absorb portions of R06-23 that were designated Minerals. See Map 3A for a depiction of the reconfigurations.</p> |
| 34. | R06-24 | Table 1, Item 39 Table 2, Item 32 | <p>Reconfigure the unit as indicated on Plan Map 3A. Revise Management Intent to replace the word ‘accommodate’ in first paragraph to ‘consider’. Amend the Management Intent to include the protection of the streams affected by MCO 393 and their associated riverine areas, which include upland areas within 100’ of OHW.</p> <p>Note moose wintering habitat along the western edge of the unit in the Resources and Uses section of the unit description and revise the management intent to identify that this habitat is to be taken into consideration during mine plan review.</p> <p>Unit R06-24 has been reconfigured and previous portions that had been designated Minerals are now included in Unit R06-30 and are now designated Habitat and Public Recreation and Tourism-Dispersed.</p> |
| 35. | R06-30 | Table 2, Item 35 | Reconfigure unit. See Map 3A for depiction. |
| 36. | R06-35 | Table 2, Item 36 | Reconfigure unit and create unit R06-35A designated Habitat, Water Resources, and Public Recreation & Tourism-Dispersed Use. Add text to the Resources and Uses section and Management Intent to recognize the moose and caribou habitat and wetlands present. |
| 37. | R06-36 | Table 1, Item 114 & 58 Table 2, Item 37 | Reconfigure Unit R06-36 to coincide with the newly available geophysical data. See Map 3A for a depiction of the reconfiguration. Add the Habitat designation so |

| Item | Subject/Unit | Issue Response Summary Reference | Revision |
|------|--------------|---------------------------------------|---|
| | | | <p>that the unit is co-designated Habitat and Minerals. Revise the management intent statement with the following: “Any mineral development must consider effects upon caribou calving areas and shall follow the requirements of Management Guidelines A and B in the Fish and Wildlife section of Chapter 2.”</p> <p>Unit R06-42 is reconfigured to absorb portions of R06-36 that were designated Minerals. Unit R06-42 is now co-designated Habitat and Public Recreation and Tourism-Dispersed Use.</p> |
| 38. | R06-42 | Table 2, Item 38 | <p>Reconfigure unit and designate Habitat and Public Recreation & Tourism-Dispersed Use. Revise Resources and Uses section and Management Intent text to recognize the presence of caribou and moose habitat and that this unit will be managed for its habitat and dispersed recreation values. Add Management Intent text to indicate that mineral development, including mining support facilities, may be appropriate within this unit. Create unit R06-42A for remaining portion that retains General Use designation. See Map 3A for depiction.</p> |
| 39. | R07-01 | Table 1, Item 115 | <p>Revise the Resources and Uses section to recognize the presence of caribou calving areas.</p> |
| 40. | R07-02 | Table 2, Item 41 | <p>Create Unit R07-02A and designate Water Resources. Add Management Intent to manage for hydraulic and wetland values.</p> |
| 41. | R07-06 | Table 1, Item 4 Table 2, Item 42 | <p>Reconfigure unit. See Map 3A for depiction.</p> |
| 42. | R09-03 | Table 2, Item 54 | <p>Reconfigure unit and create a new unit R09-03A to be designated Habitat and Public Recreation and Tourism-Dispersed Use. Revise the Resources and Uses section and Management Intent to recognize the presence of moose wintering and calving habitat and the intent to manage for the habitat and recreation value. See Map 3A for depiction.</p> |
| 43. | R09-07 | Table 1, Item 116 Table 2, Item 55 | <p>Reconfigure this unit into two units, R09-07A designated Habitat and R09-07 designated General Use. See Map 3A for a depiction of this change. The Management Intent statement for R09-07A will be amended to add the following: “Avoid significant winter disturbances to moose calving and wintering habitats or to activities that</p> |

| Item | Subject/Unit | Issue Response Summary Reference | Revision |
|------|--------------|--|--|
| | | | would significantly reduce the utility of unit as moose habitat.” |
| 44. | R09-08 | Table 1, Item 117 Table 2, Item 56 | The Management Intent for this unit will be amended to include the following: “Avoid significant winter disturbances to moose calving and wintering habitats or to activities that would significantly reduce the utility of unit as moose habitat.” |
| 45. | R09-09 | Table 2, Item 57 | Change to a co-designation of Habitat and Water Resources. |
| 46. | R09-10 | Table 2, Item 58 | Delete unit from plan. |
| 47. | R09-13 | Table 2, Item 59 | Change to a co-designation of Public Recreation & Tourism-Dispersed Use. |
| 48. | R09-14 | Table 2, Item 60 | Change to a co-designation of Habitat and Water Resources. Revise Management Intent to focus on habitat and water resource management and on compatibility with the State Game Refuge. Development authorizations may be appropriate but consultation with the NPS and ADF&G should occur prior to any authorization that may be issued. |
| 49. | R10-01 | Table 2, Item 61 | Revise the Resources and Uses section to identify that the unit occupies uplands east and southeast of Groundhog Mountain, which is mineralized. Revise Management Intent to include the protection of Upper Talarik Creek and its riverine area and to recognize the need to maintain this stream for both its water resource and habitat values, but also for its recreation values. Revise Management Intent to recognize the need to evaluate the effect of any form of proposed development in terms of its possible impact on the moose population. Any development authorization that may be issued by the Department should include a 150’ vegetative buffer from OHW. Reconfigure unit. See Map 3A for depiction. |
| 50. | R10-02 | Table 1, Item 118 & 58 Table 2, Item 62 | Reconfigure Unit R10-02 to coincide with the new geophysical data, and re-designate unit to a co-designation of Minerals and Habitat. Revise the Resources and Uses section to recognize the presence of moose wintering habitat and delete reference to caribou calving. Revise the Management Intent section to require the consideration of the moose wintering area in any mine permitting process. Revise |

| Item | Subject/Unit | Issue Response Summary Reference | Revision |
|------|--------------|--|--|
| | | | <p>Management Intent to replace the word “accommodate” in first paragraph to “consider”.</p> <p>See Map 3A for a depiction of the reconfiguration.</p> |
| 51. | R10-03 | Table 2, Item 63 | <p>Change designation to Water Resources, Habitat, Public Recreation & Tourism-Dispersed Use. Amend Resource section to recognize that this large area functions as an important recreation area, as a watershed for Iliamna Lake, and is important for fisheries production. There are extensive areas of lakes and wetlands adjacent to the Lake. Management Intent should be revised to reflect the water resource, habitat, and recreation values and to recognize the importance of Lower Talarik Creek. Add Management Intent text which says it is appropriate to recognize the presence of Lake and Peninsula Borough municipal selections and that, if the adjudication decision on the entitlement parcels recommends conveyance, these areas convert to the classification of Settlement at the time of the Final Finding and Decision.</p> |
| 52. | R10-04 | Table 2, Item 64 | <p>Change designation to Habitat and Public Recreation and Tourism-Public Use Site.</p> |
| 53. | R10-05 | Table 2, Item 64 | <p>Change designation to Habitat and Public Recreation and Tourism-Public Use Site.</p> |
| 54. | R10-06 | Table 2, Item 65 | <p>Reconfigure unit and create unit R10-06A to be designated Habitat. For this new unit revise the Resources and Uses section and Management Intent to recognize the presence of moose wintering and rutting habitat and the intent to manage for the habitat value. For Unit 10-06, revise the Resources and Uses section and Management Intent to recognize the presence of wetlands and the need to manage for this value. See Map 3A for depiction of the reconfiguration.</p> |
| 55. | R10-07 | <p>Table 1, Item 102, 102 & 103 Table 2, Item 66</p> | <p>Reconfigure unit with a designation of Water Resources, Habitat, Public Recreation and Tourism-Dispersed Use. Create unit R10-07A to be designated Water Resources and Habitat. For this new unit, recognize in the Resources and Uses section, the presence of wetlands and other habitat values and the intent to manage for these wetland and habitat values. For Unit 10-07, revise the Resources and Uses section and Management Intent to recognize the presence of public recreation values, wetlands, waterfowl and moose habitat and the need to</p> |

| Item | Subject/Unit | Issue Response Summary Reference | Revision |
|------|--------------|----------------------------------|---|
| | | | manage for these values. See Map 3A for depiction of the reconfiguration. |
| 56. | R10-08 | Table 2, Item 67 | Change designation to Habitat and Public Recreation and Tourism-Dispersed Use. Revise Resources and Uses section to recognize that a significant moose calving, wintering and rutting area occurs throughout the unit. Management intent to be revised to reflect the habitat and recreation values. Add Management Intent text which says it is appropriate to recognize the presence of Lake and Peninsula Borough municipal selections and that, if the adjudication decision on the entitlement parcels recommends conveyance, these areas convert to the classification of Settlement at the time of the Final Finding and Decision. |
| 57. | R10-09 | Table 2, Item 68 | Change designation to Habitat and Public Recreation and Tourism-Dispersed Use. Amend Resources and Uses section to recognize that a significant moose calving, wintering and rutting area occurs throughout the unit. Management Intent to be revised to recognize the habitat and recreation values. |
| 58. | R10-12 | Table 2, Item 69 | Reconfigure unit. See Map 3A for depiction. |
| 59. | R11-01 | Table 1, Item 119 | Reconfigure this unit into two units, R11-01A designated Habitat and R11-01 designated General Use. The Management Intent statement for R11-01A will be amended to add the following: "Avoid significant winter disturbances to moose calving and wintering habitats or to activities that would significantly reduce the utility of unit as moose habitat." See Map 3A for their depiction. |
| 60. | LC-01 | Table 2, Item 48 | Change designation to Habitat and Public Recreation and Tourism-Dispersed Use. Revise Management Intent that the unit is to be managed consistent with the uses and resources that surround it and are part of the National Park. Include concept of cooperative land use planning with the National Park. NPS to be consulted prior to issuance of authorizations. |
| 61. | LC-02 | Table 2, Item 49 | Change designation to Habitat and Public Recreation and Tourism-Dispersed Use. Add management Intent that unit is to be managed consistent with surrounding recreation uses and fish and wildlife habitat values. |
