MANAGEMENT UNIT 17: Tonsina Plateau

Background
This management unit is a 10-square-mile tract of federal (BLM) land that the state should select. The land is a relatively flat plateau about 400 feet higher than the Tonsina River. An old road that runs through the area is in good condition from the south, but virtually impassible from the north. The trail up Bernard Creek towards Kimball Pass is important for hunters and hikers.

Management Intent
The state will select this land and offer approximately 2,000 acres for private ownership. Remaining state land will be managed for multiple use with emphasis on forestry, public recreation, and wildlife habitat. The Bernard Creek valley (management subunit 17B) will be retained in state ownership for multiple use and to ensure access along the Kimball Pass trail. Most of the area will become open to mineral entry except Bernard Creek, which would be closed to mineral location to protect salmon spawning areas. Land offerings will be closed to mineral entry before disposal. Land closer to the road should be offered for private ownership before more remote parcels because the land is within the Tonsina walk-in area, which is closed to use of vehicles for hunting.

Management Guidelines
Bernard Creek - Kimball Pass Trail. This trail will be retained in state ownership. It is used by hunters (particularly for goat and sheep hunting), hikers, cross country skiers, and snowmobilers. Part of the trail lies across Chugach Alaska, Inc., land. This portion of the trail has been reserved for public use by a 17(b) easement and should be clearly signed.

Mineral Closures. Land within 200 feet of Bernard Creek will be closed to mineral location.

The complete set of management guidelines is presented in Chapter 2. Any of the guidelines could apply to uses within this management unit; however, guidelines that are most likely to apply are:

   Fish and wildlife habitat
   Forestry
   Settlement
   Transportation
   Public access
   Trail management
## LAND USE DESIGNATION SUMMARY

### MANAGEMENT UNIT: 17 - Tonsina Plateau

**Important trails:**

Subunit 17A: Old road passes through western part of subunit 17A; road impassable at north end, but in good condition from south; leaves Richardson Hwy. at Milepost 75. Reserved via 17(b) easement across Chugach Alaska lands from the south end.

Subunit 17B: Bernard Creek - Kimball Pass trail; reserved via easement across Chugach Alaska land. Used by hunters, hikers, snowmachiners, and skiers.

For definitions of ratings, see glossary. For more detailed information on any resources, see resource elements published under separate cover.
