This is the first area plan for the North Slope area and was developed by the Department of Natural Resources with generous assistance from representatives of several state agencies. The following people contributed their time and technical expertise to provide, review, and discuss plan related information; draft, review, and edit plan text; and assist in resolving plan issues. The Resource Assessment and Development Section staff appreciates the contributions made by its own staff, and by those individuals who took the time to attend meetings, review the document, and provide their input to the Department.
