Trails and Public Access.....	37
Transportation	43
Trapping Cabins	46
Wetland Management	47

CHAPTER 2

AREAWIDE LAND MANAGEMENT POLICIES

Introduction

This chapter presents land management policies for each of the major resource or land use categories affected by the plan: heritage resources, fish and wildlife habitat and harvest, forestry, materials, recreation, tourism, settlement, mineral resources, transportation, and trapping cabins. The chapter also presents management policies for several specific land management concerns: public access, stream corridors and instream flow, trail management, and wetland management.

These policies apply to state land throughout the region, regardless of the land use designation.

The policies in this chapter consist of goals and management guidelines. Goals are the general condition the department is trying to achieve, and guidelines are specific directives that will be applied to land and water management decisions as resource use and development occur.

Definitions

For definitions of terms commonly used in this chapter, see the *glossary* in Appendix A.
