The Commissioner of the Department of Natural Resources finds that the Hatcher Pass Management Plan (HPMP) meets the requirements of AS 38.04.065 and 11 AAC 55.010-.030 for land use plans, and hereby adopts the plan as both the management plan and area plan for this planning area. State lands and waters within the planning boundary of the HPMP will be managed by the Department consistent with the requirements of this plan.

The HPMP also fulfill the requirements of AS 41.23.110, which requires the Commissioner to adopt a management plan for the Hatcher Pass Public Use Area (PUA), and the HPMP is hereby adopted for that purpose as well. State lands and waters within PUA will be managed by the Department consistent with the requirements of this plan.

PREFACE

Background and Acknowledgements

The preparation of the Hatcher Pass Management Plan was completed by the Alaska Department of Natural Resources with the assistance of a number of representatives from agencies within and outside of the Department. The following representatives and contacts variously contributed text, recommendations and review, and assisted in resolving issues with regard to the management plan. The project staff greatly appreciates their help and assistance. We are also indebted to Ruth Booth for checking, formatting, and indexing the text in preparation for printing.
