**AND RECOMMENDATIONS FOR**  
**EACH MANAGEMENT UNIT**

## **CHAPTER 3. MANAGEMENT GUIDELINES, PUBLIC USE SITES, AND RECOMMENDATIONS FOR EACH MANAGEMENT UNIT**

---

This chapter restates management intent categories, and includes background information (described in more detail in the Nushagak and Mulchatna Rivers Recreation Management Plan Resource Assessment - see Appendix B), management intent, management guidelines, public use sites, and other unit-specific recommendations for the 25 management units in the planning area. Other guidelines specific to a unit are numbered for easy reference.

### **MANAGEMENT INTENT**

The management intents are

**Primitive Use Experience:** A use experience characterized by little to no evidence of human use (little to no manmade changes to the environment from development or other human activities).

**Semi-primitive Use Experience:** A use experience characterized by moderate evidence of human use (moderate level of manmade changes to the environment from development or other human activities).

**Semi-developed Use Experience:** A use experience characterized by high evidence of human use (high level of manmade changes to the environment from development or other human activities).

Management intent reflects a future desired condition. Private landowners in the planning area may choose to use this plan as a guide for managing their lands.
