

Tutka BD and Sentinel Ridge:

Due to the continuing construction needs of the Tutka Backdoor and Sentinel Ridge Routes/Trail we are encouraging the public to refrain from hiking them, especially in sub-alpine and alpine areas. Sensitive soils, steeper than desired grades, and trail alignment issues requires further drainage control, tread hardening, and rock structure construction. We are committed to working with non-profits or other organizations to achieve the Division of Parks and Outdoor Recreation's standards. Until the highlighted areas are addressed and fixed, Alaska State Parks considers the Tutka Backdoor and Sentinel Ridge routes/trails to still be under construction. Thanks for your patience.
