August 11, 1992

Dear Alaskan:

This management plan for the lower Eagle River Valley in Chugach State Park establishes direction for the conservation and use of 4,000 acres of prized public land in the state's largest city and the nation's 3rd largest state park.

Initially part of Chugach State Park, the Eagle River greenbelt became private land under provisions of the Alaska Native Claims Settlement Act. Then, in an extraordinary community wide effort of cooperation to restore these lands to public ownership, the Municipality of Anchorage, the State of Alaska and Eklutna, Inc., once again established the Eagle River greenbelt as part of Chugach State Park.

Credit goes to the citizens of Anchorage who supported the restoration of these lands to perpetual public use and enjoyment.

On behalf of all citizens I adopt this management plan as state policy.

Sincerely,  
  
Neil C. Johannsen  
Director
