Auction Schedule

**April 6, 2005 – May 20, 2005 Sealed Bid Auction Application Period**
All applications must be received by the Department of Natural Resources or submitted online no later than 5:00 p.m., Friday, May 20, 2005. Applications received after the designated date and time will be rejected.

**May 25, 2005 Sealed Bid Opening**
Bids will be opened at 10:00 a.m., Wednesday, May 25, 2005 at the Fairbanks Department of Natural Resources Public Information Office, located at 3700 Airport Way, Fairbanks, Alaska. Bidders do not need to be present at the bid opening. A list of apparent high bidders will be posted at www.dnr.state.ak.us/mlw/landsale by May 26, 2005.

**May 25, 2005 Bid Deposit Pick-Up**
Unsuccessful bidders may pick up their deposits after the bid opening until 5:00 p.m., Wednesday, May 25, 2005 at the Fairbanks Department of Natural Resources Public Information Office, 3700 Airport Way, Fairbanks, Alaska. Deposits not picked up by 5:00 p.m. will be returned by mail on May 26, 2005.

**June 1, 2005 Award Notification**
Award notification letters will be mailed to successful bidders on Wednesday, June 1, 2005.

**June 1, 2005 Initial Over-The-Counter Lottery Parcel List**
A complete list of initial Over-The-Counter Lottery parcels will be posted on Wednesday, June 1, 2005 at www.dnr.state.ak.us/mlw/landsale and will also be available at any of the Department of Natural Resources Public Information Offices.

**June 1, 2005 – July 15, 2005 Initial Over-The-Counter Lottery Application Period**
All applications must be received by the Department of Natural Resources or submitted online no later than 5:00 p.m., Friday, July 15, 2005. Applications received after the designated date and time will be rejected.

**July 20, 2005 Initial Over-The-Counter Lottery**
The Initial Over-The-Counter Lottery will be held at 10:00 a.m., Wednesday, July 20, 2005 at the Anchorage Department of Natural Resources Public Information Office, located at 550 West 7th Avenue (Atwood Building), Suite 1260, Anchorage, Alaska. A list of Initial Over-The-Counter Lottery winners will be posted at www.dnr.state.ak.us/mlw/landsale/ by July 21, 2005. All remaining parcels will become available for purchase Over-The-Counter following the completion of the Initial Over-The-Counter Lottery.

**July 20, 2005 Down Payment and Application Fee Pick-Up**
Unsuccessful applicants may pick up their deposits after the lottery until 5:00 p.m., Wednesday, July 20, 2005 at the Anchorage Department of Natural Resources Public Information Office, 550 West 7th Avenue (Atwood Building), Suite 1260, Anchorage, Alaska. Deposits not picked up by 5:00 p.m. will be returned by mail on July 21, 2005.

**PLEASE NOTE:**
This brochure is provided free of charge by the Department of Natural Resources. Additional copies may be obtained by contacting any of the DNR Public Information Offices. To have a copy mailed to you, a postage and handling cost of $2.25 will apply. This brochure can also be viewed on the web at www.dnr.state.ak.us/mlw/landsale/.

This publication was released by the Department of Natural Resources, Division of Mining, Land & Water, to inform the public about the Spring 2005 Alaska State Land Auction #435, produced at a cost of $1.40 per copy, in Anchorage, Alaska.

April 2005
This brochure describes the parcels of land offered by the Department of Natural Resources (DNR), Division of Mining, Land and Water (DMWL) in the Spring 2005 Alaska State Land Offering - Auction #435 and explains how to bid on a parcel in the Sealed-Bid Auction and participate in the Initial Over-The-Counter Lottery. During Spring 2005 Alaska State Land Offering contains 105 new parcels as well as 55 parcels that have been previously offered.

Please note: The Sealed-Bid Auction opening will take place in Fairbanks and the Initial Over-The-Counter Lottery will take place in Anchorage.

This brochure is divided into three main categories to clearly describe this land offering. The first section contains applicable information to all parcels, auction and lottery policies, publishing information, veterans preference application, specific auction and lottery procedures, application instructions, and a list of on-line resources. The second portion of this brochure contains maps of the parcels and subdivisions, along with specific information about each area and the parcel legal descriptions and minimum bid price. The last portion of this brochure contains application forms for the Sealed-Bid Auction, information about other land offerings, and customer surveys.

Additional copies of this brochure and application materials may be obtained from the DNR Public Information Offices located in Anchorage, Fairbanks, and Juneau. Copies may also be viewed or downloaded from the DNR website at www.dnr.state.ak.us/mlw/landsale.

If you need this brochure in an alternate format in order to utilize assistive technology for visual impairments, please call one of the DNR Public Information Offices listed at the right.

DNR strongly urges anyone wishing to purchase a parcel to first review the Comprehensive parcel and area information can be found by researching various state and federal websites. A valuable resource developed by DNR and the Bureau of Land Management (BLM) is www.landsurvey.info, which lists links to many DNR and BLM website where you can find information such as recorded survey plats, federal surveys, federal master title plats, state status plats, recorded subdivision covenants, mapping/GIS applications, and caseline summaries.

Topographic maps may be purchased from the United States Geological Survey (USGS), Earth Science Information Center, Grace Hall, Alaska Pacific University, 4230 University Drive, Room 101, Anchorage, AK 99508, (907) 786-7011; or Map Office, Geophysical Institute, University of Alaska Fairbanks, P.O. Box 757220, Fairbanks, AK 99775-7320, (907) 474-6960; or from numerous other commercial sources.

Full size copies of the recorded survey plats are available at DNR Public Information Offices for $2.00 per sheet or at the appropriate District Recorder’s Office for $3.00 per sheet.

**Site Inspection**

DNR strongly urges anyone wishing to purchase a parcel to first review all information and then personally inspect the land before submitting a bid. The land chosen by a bidder/applicant is taken “AS-IS” with no guarantees, expressed or implied, as to its suitability for any intended use. The submission of a bid constitutes acceptance of the parcel “AS-IS” and “WHERE-IS”.

**Access**

The location of legal access to a parcel may be obtained from the appropriate regional DNR Public Information Office. It is your responsibility to properly locate yourself when crossing both public and private land to ensure you are on a legal right-of-way or property right.

You are strongly urged to apply for a Right-of-Way Permit or obtain an Access Easement to document existing or newly established routes used to access your parcel. Improvements to existing rights-of-way may require a special permit depending on the activity and the type of right-of-way.

The state has no legal obligation to build roads or provide services to or within any subdivision or parcel. Rights-of-way shown on the survey plats designate areas reserved for access but do not necessarily indicate the existence of a constructed road. In many cases roads have not been constructed. However, legal access does exist to all parcels. For instance, access may be via section-line easements (unless the section-line easement has been vacated), platted rights-of-way, trail easements, navigable water bodies, or across unreserved state land. Physical access may be via roads, trails, fly-in, snowmachine, off-road vehicle, or boat. You should inquire at one of the DNR Public Information Offices or borough land office to see if there is an existing road on a reserved right-of-way. PLEASE BE ADVISED THAT LEGAL ACCESS TO A PARCEL MAY NECESSARILY CONSTITUTE DEVELOPED OR PRACTICAL ACCESS.

There are certain generally allowed uses on state land managed by the Division of Mining, Land and Water that do not require a permit from DNR (11 AAC 96.020). The fact sheet at www.dnr.state.ak.us/mlw/factsheets/gen_allow_use.pdf contains more information about these generally allowed uses, including a list of areas where they do not apply and other restrictions.

**Travel**

Travel across unreserved state land may be made without a permit by the following methods:

- Hiking, backpacking, skiing, climbing, and other foot travel; bicycling; and traveling by horse or dogsled or with pack animals.
- Using a highway vehicle with a curb weight of up to 10,000 pounds, including a four-wheel drive vehicle or a pickup truck, or using a recreational-type off-road or all-terrain vehicle with a curb weight of up to 1,500 pounds, such as a snowmachine or four-wheeler, on or off an established road easement, if use off the road easement does not cause or contribute to water quality degradation, alteration of drainage systems, significant rutting, ground disturbance, or thermal erosion. An authorized permit is required from DNR Office of Habitat Management and Permitting for any motorized travel in fish bearing streams. Contact and program information can be found on-line at www.dnr.state.ak.us/habitat.
- Landing an aircraft (such as a single-engine airplane or helicopter), or using watercraft (such as a boat, jet-ski, raft, or canoe), without damaging the land, including shoreland, tideland, and submerged land.
- Access improvements on unreserved state land may be allowed without a permit under the following conditions:
- Brushing or cutting a trail less than five feet wide using only hand-held tools such as a chainsaw (making a trail does not create a property right or interest in the trail).
- Anchoring a mooring buoy in a lake, river, or marine waters, or placing a float, dock, boat haul out, floating breakwater, or boathouse in a lake, river, or in marine waters, for the personal, noncommercial use of the upland owner, if the use does not interfere with public access or another public use, and if the improvement is placed within the projected sidelines of the contiguous upland owner’s parcel or otherwise has the consent of the affected upland owner.

Vehicles are required to use existing trails where possible. Where no trails exist, vehicles are required to use the legal access to minimize the number of trails across public lands. Moving heavy equipment, such as a bulldozer, is not authorized on state land without a permit. A permit can be obtained from the appropriate DNR regional office.
Spring 2005 Alaska State Land Auction #435

Mineral Estate

The state retains ownership of all oil, gas, coal, ore, minerals, fissionable materials, geothermal resources, and fossils that may be in or upon the land that it sells (AS 38.05.125). The state reserves the right to enter onto the land for exploration and development of mineral resources. The state may lease them to mineral developers or allow mining locations to be staked. However, Alaska law also provides that the surface owner will be compensated for damages resulting from mineral exploration and development (AS 38.05.130).

Mineral closing orders, where they have been established, close the area to further mineral development of locations for the state to test for copper, zinc, or gold. Mining closing orders do not apply to oil and gas leasing, coal leasing, shallow gas leasing, or exploration licensing, nor do they preclude reasonable surface access to these resources.

Timber and Other Building Materials on Site

Before receiving title to state land, purchasers are strictly prohibited from selling or removing from the parcel any surface resource such as stumps, trees, and topsoil. These resources are potentially valuable for commercial or off-site purposes. Such materials may be used only on the parcel.

Tentatively Approved Land

The state has not received final patent from the federal government for some of the land in this sale. Such lands are designated as "tentatively approved". Title for parcels on tentatively approved land will be conditioned upon the state receiving patent title from the federal government. Department regulations provide that if for any reason the state is denied patent to the land, a sale, lease or grant on this condition will be canceled, and the money paid to purchase the land will be refunded. The state has no further liability to the purchaser, lessee or any third party for termination of the contract (11 AAC 67.015).

No Warranty of Suitability, Fitness, or Title

Parcels are sold "AS - IS" and "WHERE - IS" with all faults, and in the condition as of the date of the sale with no guarantees, expressed or implied, as to suitability or fitness for any intended use, or whether public utilities or services will be provided. The State makes no warranty, expressed or implied, nor assumes any liability whatsoever, regarding the social, economic, or environmental aspects of the parcel, including, without limitation, the soil conditions, water drainage, access, natural or artificial hazards that may exist, or the profitability of the parcel. It is your responsibility to inspect the parcel and be thoroughly acquainted with the parcel condition prior to bidding.

The State makes no warranty, expressed or implied, regarding marketable title. It is your responsibility to determine and consider if encumbrances or the possibility of encumbrances, which may affect marketable title, exist on the parcel. It is your responsibility to inspect the parcel and be thoroughly acquainted with the parcel condition prior to bidding. The State makes no warranty, expressed or implied, nor do they preclude reasonable surface access to these resources.

Homeowners Associations

If a subdivision has an active, incorporated Homeowners Association, subdivide of any parcel must comply with rules and regulations automatically by inspection of the plat, it is found out if a subdivision has an active, incorporated Homeowners Association, contact the Alaska Department of Community and Economic Development, Division of Banking, Securities, and Corporations at (907) 465-2530, or on-line at www.commerce.state.ak.us/occ by using the "Search Corporation Database" feature and the name of the subdivision.

Taxes

Parcels offered in this disposal are subject to taxes and assessments levied by local taxing authorities. Failure to pay property taxes on parcels purchased under contract with the state is a violation of the purchase contract and may result in contract termination.

Restrictions on Subdividing

You may not subdivide or re-plat the land prior to receiving title. After title is conveyed, subdividing of any parcel must comply with state or local requirements, and in accordance with the requirements of the Alaska Department of Environmental Conservation (ADEC). Approval of such systems shall be obtained from ADEC. Many of the subdivisions included in this land offering have some restrictions on the types of sewage disposal systems allowed. For more information on a particular subdivision or lot, please refer to the subdivision survey plat and contact the appropriate regional office of ADEC.

Archaeological Sites

The Alaska Historic Preservation Act prohibits the appropriation, ex- cavation, removal, injury, or destruction of any state-owned historic, prehistoric (palaeontological), or archaeological site without a permit from the Commissioner of the Department of Natural Resources (AS 41.35.200). Should any sites be discovered during parcel development, activities that may damage the site will cease. The Office of History and Archaeology in the Division of Parks and Outdoor Recreation should be notified immediately.

Use of Adjacent State Land

Uses of unreserved state land, other than those uses stated in 11 AAC 96.020 (Generally Allowed Uses on State Land), may require a land use authorization from the Department of Natural Resources.

Driveways and Approach Roads

Driveways and/or approach roads from established Department of Transportation and Public Facilities (DOTPF) maintained roads may have to be constructed in order to provide access to the subdivision and individual parcels, and a permit may be required. Prior to any drive way or approach road construction utilizing a state managed right-of-way, the Right-of-Way Section of the appropriate regional office of DOTPF must be consulted. Parking on the side or shoulder of roads way, the Right-of-Way Section of the appropriate regional office of ADEC, and on-line at www.dnr.state.ak.us/mlw/trails/rs2477.

Existing Easements and Reservations

All parcels offered in this brochure are subject to all platted and valid existing easements and reservations including rights-of-way, building setbacks, utility easements, pedestrian easements, roads, and trails. These easements and reservations may be graphically shown on the survey plat or may be listed in the 'Notes' section of the plat. It is your responsibility to thoroughly review the recorded survey or subdivision plat, any reservations represented in this brochure, and any other items found in the recorded land records for a complete picture of the restrictions and conditions that may affect each individual lot, along with a physical inspection of the parcel. Subdivision survey plats may be viewed on-line at www.dnr.state.ak.us/landrecords or by visiting the nearest DNR Public Information Office.

All state-owned lands bordering section lines have a reserved public access easement 50 feet in width along each side of the section line, unless the easement has been vacated or officially removed. In many state subdivision plats, if a section line passes through the subdivision but is not shown as a road, this means the section-line easement has been vacated. If the section line is unsurveyed, a survey will be required before access construction is allowed on the easement. If the section line has been vacated, no public access is allowed. All public access easements, including those along public or navigable water bodies, are reserved for public use. You may not interfere with a public access easement or make it unusable by the public.

The Alaska Railroad Corporation’s 200 foot right-of-way, bridges, and trestles may NOT be used as access. Use of the railroad right-of-way is considered trespass and will be prosecuted (AS 11.46.330). The Alaska Railroad Corporation issues permits to cross the railroad. Contact the nearest railroad agent for more information.

The Alaska Railroad Corporation’s 200 foot right-of-way, bridges, and trestles may NOT be used as access. Use of the railroad right-of-way is considered trespass and will be prosecuted (AS 11.46.330). The Alaska Railroad Corporation issues permits to cross the railroad. Contact the nearest railroad agent for more information.

Tentatively Approved Land

The state has not received final patent from the federal government for some of the land in this sale. Such lands are designated as "tentatively approved". Title for parcels on tentatively approved land will be conditioned upon the state receiving patent title from the federal government. Department regulations provide that if for any reason the state is denied patent to the land, a sale, lease or grant on this condition will be canceled, and the money paid to purchase the land will be refunded. The state has no further liability to the purchaser, lessee or any third party for termination of the contract (11 AAC 67.015).

Title to tentatively approved land will be conveyed via quitclaim deed. Ordinarily, there is little risk of loss of title associated with tentatively approved land, however, there may be practical problems including, but not limited to, the sale, lease or grant on this condition will be canceled, and the money paid to purchase the land will be refunded. The state has no further liability to the purchaser, lessee or any third party for termination of the contract (11 AAC 67.015).

No Warranty of Suitability, Fitness, or Title

Parcels are sold "AS - IS" and "WHERE - IS" with all faults, and in the condition as of the date of the sale with no guarantees, expressed or implied, as to suitability or fitness for any intended use, or whether public utilities or services will be provided. The State makes no warranty, expressed or implied, nor assumes any liability whatsoever, regarding the social, economic, or environmental aspects of the parcel, including, without limitation, the soil conditions, water drainage, access, natural or artificial hazards that may exist, or the profitability of the parcel. It is your responsibility to inspect the parcel and be thoroughly acquainted with the parcel condition prior to bidding.

The State makes no warranty, expressed or implied, regarding marketable title. It is your responsibility to determine and consider if encumbrances or the possibility of encumbrances, which may affect marketable title, exist on the parcel. It is your responsibility to inspect the parcel and be thoroughly acquainted with the parcel condition prior to bidding. The State makes no warranty, expressed or implied, nor do they preclude reasonable surface access to these resources.

Homeowners Associations

If a subdivision has an active, incorporated Homeowners Association, subdivide of any parcel must comply with rules and regulations automatically by inspection of the plat, it is found out if a subdivision has an active, incorporated Homeowners Association, contact the Alaska Department of Community and Economic Development, Division of Banking, Securities, and Corporations at (907) 465-2530, or on-line at www.commerce.state.ak.us/occ by using the "Search Corporation Database" feature and the name of the subdivision.

Taxes

Parcels offered in this disposal are subject to taxes and assessments levied by local taxing authorities. Failure to pay property taxes on parcels purchased under contract with the state is a violation of the purchase contract and may result in contract termination.

Restrictions on Subdividing

You may not subdivide or re-plat the land prior to receiving title. After title is conveyed, subdividing of any parcel must comply with state or local requirements, and in accordance with the requirements of the Alaska Department of Environmental Conservation (ADEC). Approval of such systems shall be obtained from ADEC. Many of the subdivisions included in this land offering have some restrictions on the types of sewage disposal systems allowed. For more information on a particular subdivision or lot, please refer to the subdivision survey plat and contact the appropriate regional office of ADEC.

Sewer and Water

No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements of the Alaska Department of Environmental Conservation (ADEC). Approval of such systems shall be obtained from ADEC. Many of the subdivisions included in this land offering have some restrictions on the types of sewage disposal systems allowed. For more information on a particular subdivision or lot, please refer to the subdivision survey plat and contact the appropriate regional office of ADEC.
Water Rights and Usage

To obtain water rights on your parcel, you must apply for a permit from the Division of Mining, Land and Water. Information and applications for water rights are available at any of the DNR Public Information Offices and on line at www.dnr.state.ak.us/mlw/water.

Improvments

It is your responsibility to properly locate all property boundary monuments on your parcel and to contain any improvements within the parcel. (AAC 67.020). No improvements, other than access, may be placed or constructed within any easements or rights-of-way of record. This includes, but is not limited to, section-line easements, public access easements, road rights-of-way, utility easements, and building setbacks. It is your responsibility to obtain all necessary authorizations from federal, state, or local agencies prior to placing or constructing any improvements.

Previously Authorized Improvements/Hazards

Some parcels in this brochure have abandoned improvements and/or limited development on the land. Unless otherwise noted, the minimum bid price for these parcels includes the value of the improvements. DNR has not necessarily inspected all the parcels in this brochure to determine if garbage or hazardous waste is present. The purchaser of the parcel is responsible for the disposal of any existing garbage or wastes. You should inspect all parcels prior to bidding/purchasing. In the case of Parcel 1041, you must be prepared to pay the state, in full, the stated appraisal value of the improvements before a purchase contract or patent for the land can be issued. Payment must be in the form of a cashier’s check, certified check, or money order made out to the Department of Natural Resources. The subdivision description contains specific information about this provision.

Future Offerings

The state reserves the right to offer additional parcels of land adja- cent to or near previously sold parcels, thereby potentially increasing the population density in that area.

Nomination of Land for Future Offerings

DNR seeks land nominations from the public for state land sales and considers public interest when offering land through the auction program. If you are interested in nominating land for state land sale programs, fill out a nomination form and return it to a Public Information Office. You will need to include basic information about the location of the nominated land, whether or not the land is owned by the State of Alaska, and if it is classified for settlement under land use plans. For more information about the nomination process and to acquire nomination forms, see the fact sheet ‘Nominating Land for State Land Sale Programs’ at www.dnr.state.ak.us/mlw/factsht/land_nominating.pdf.

Multiple Uses

The land sale described in this brochure is only one of the land uses that may occur in any given area. A variety of other authorized uses such as mining or timber sales can and do occur on municipal, state, or federal lands near the offered parcels. Such uses not only affect adjacent land, but also roads that are intended for access to those areas. Large truck and heavy equipment traffic may occur, and in some cases, small roads or trails are developed, improved, and maintained to accommodate increased traffic. It is strongly recommended that you take this into consideration when applying for the purchase of state land.

Fire Protection

Some state lands are in areas without fire protection or with only limited fire protection. The state assumes no duty to fight fires in these areas. Wildfires should be considered a serious potential hazard even in areas designated for fire protection. If you wish to develop your parcel, you should be prepared to establish a fire line to protect your improvements.

In specific areas of the state, burning permits are required for all burning other than fires contained within an approved device, and fires used for signaling, cooking or warming. All other burning in the permit areas requires a permit during the fire season. There are potential liabilities if your fire escapes control (AS 41.15.060, AS 41.15.090). For further information regarding wildfire mitigation and burning permits, contact the regional DNR Division of Forestry office. A list of their locations, addresses, and telephone numbers may be obtained from any of the DNR Public Information Offices as well as on line at www.dnr.state.ak.us/forestry.

Fish Habitat Requirements

Conducting any development activity below the ordinary high water line of a specified anadromous waterbody requires the prior written approval of DNR (AS 41.14.870). These development activities include, but are not limited to: constructing dams, bank protection, dock construction (including the installation or replacement of pilings), culvert installation, crossing streams with vehicles, in-water dredging, debris removal, and water withdrawals. DNR is responsible for reviewing and, if appropriate, issuing permits for these projects (AS 41.14.870). The DNR Office of Habitat Management and Permitting administers all Fish Habitat Permits. If you conduct any development activity below the ordinary high water line of a specified anadromous waterbody without notifying and receiving the prior written approval from DNR, you are violating state law and may be charged with a Class A misdemeanor. Contact information for the DNR Office of Habitat Management and Permitting, and information on obtaining permits can be found on line at www.dnr.state.ak.us/habitat.

Fish and Game Requirements

Alaska Department of Fish and Game regulations allow taking game in defense of life or property only when all other practical means to protect life and property have been exhausted and the necessity for taking the animal is not brought about by harassment or provocation of the animal, by unreasonable invasion of the animal’s habitat, or by the improper disposal of garbage or a similar attractive nuisance.

Eagle Nesting Sites

Federal law prohibits any disturbance of bald eagles or their nests. The U.S. Fish and Wildlife Service (USFWS) enforces this law. The USFWS generally recommends no clearing of vegetation within 330 feet of any nest. No construction or other potentially disturbing activity should occur within 660 feet of any nest between March 1 and June 1. Between June 1 and August 31, no construction activity should occur within 660 feet of active eagle nests until after juvenile birds have fledged. Nest trees should not be disturbed at all. Consult with USFWS on the siting of structures and roads or cutting mature trees within 330 feet of a nest tree.

Wetlands

Some state land offerings contain areas of wetlands. Wetlands perform many important functions, including providing habitat for wildlife, preserving water quality, providing flood protection, and enhancing groundwater recharge. Before putting any dredged or fill material in wetlands (for example, to build a road, or any other land-clearing activity involving land leveling), purchasers may need a permit from the District Engineer of the U.S. Army Corps of Engineers. Dredging wetlands or adding fill without a valid permit may result in civil fines or criminal charges. For further information or wetlands delineation, contact the U.S. Army Corps of Engineers.

Wildlife

Development activities may potentially displace wildlife. You are encouraged to contact the Alaska Department of Fish and Game for information on how to minimize conflicts with wildlife.
Bidders Qualifications

It is your responsibility to prove that you are eligible to participate in the program. Regulation changes adopted in February 2001 have affected bidder/applicant qualifications. If you have not read this section on bidder eligibility thoroughly before you submit a bid, it could disqualify your bid.

Corporations, businesses, and non-Alaska residents ARE NOT eligible to bid for parcels at the Sealed-Bid Auction but ARE eligible to participate in the Initial OTC Lottery.

In order to bid, you must be a current resident of the State of Alaska and must certify that you:

1. Have been a resident of Alaska for at least one year immediately preceding the date of the auction;
2. Are 18 years of age or older at the date of sale;
3. Have not sold a purchase contract or lease issued by DNR that has been administratively foreclosed or terminated for cause within the past three years (contact the Contract Administration Unit at (907) 269-8594 if you have any questions about eligibility);
4. Are not currently in default for nonpayment on a purchase contract or lease issued by DNR; and
5. Are not currently in default for nonpayment of municipal taxes or assessments on property currently under a purchase contract or lease issued by DNR.

Purchase contracts will not be issued by the State of Alaska unless all five qualifications listed above are met. You are the successful bidder for a parcel and do not meet the qualifications for a purchase contract in 3-5 listed above, you must pay the bid amount in full upon notification. Failure to submit payment in full upon notification may result in the forfeiture of bid deposit and loss of purchase rights to the parcel.

Residency Requirement

To be eligible to bid in the Sealed-Bid Auction, you must be a current Alaska resident and have resided in Alaska for at least one year immediately preceding the date of the auction (AS 38.05.055). You are not allowed to claim Alaska residency during any period that you claim residency in another state or nation, were registered to vote in another state, or claimed some other state as your residence for purposes such as taxes, school tuition, or benefits.

If you are in the armed forces or were in the armed forces during the one-year residency period, you must either have an Alaska residency during that period or have taken some affirmative action to make Alaska your residence, such as filing a DD 2058 (State of Legal Residence Certificate) or its equivalent, registering to vote, and paying local personal property taxes. If you collect overseas pay or claim residence in another state or nation, were registered to vote in another state or nation, or have taken some affirmative action to make Alaska your residence, such as filing a DD 2058 (State of Legal Residence Certificate) or its equivalent, registering to vote, and paying local personal property taxes, you are not an Alaska resident.

Proof of Residency

Successful bidders will be required to verify their Alaska residency (11 AAC 67.010). The proof submitted must address the one year prior to the date of the auction. Proof of residency may be any acceptable evidence to the Director, including:

- Voter registration and voting records;
- Hunting, fishing, driver’s, or other current and valid licenses;
- School records;
- Rent receipts, proof of home ownership, or a home purchase contract;
- Motor vehicle registration;
- Tax records;
- Employment, unemployment, or military records;
- Court or other government agency records;
- Birth or other vital statistic records;
- Affidavits of persons acquainted with but not related to the applicant; such affidavits may be used as corroborative evidence, but unless otherwise specified, will not be accepted as the sole proof of residency, or
- Other proof of residency acceptable to the Director.

Multiple Applicants on One Bid Form

Two or more individuals may jointly submit a single bid. To do so, all those bidding must be eligible to bid. Successful bidders’ names will carry forward to the purchase contract, or patent if the purchase price is paid in full. Names may not be added to or deleted from the bid form after the bid has been submitted. Successful joint applicants will not be eligible to individually win an additional parcel in the Sealed-Bid Auction.

Misrepresentation – Price Fixing

You may not attempt to influence bidding by others, conspire with other purchasers to reduce the price of a parcel, or otherwise act to defeat an open, fair-market bidding process. If you provide false information or other required documents, you may be prosecuted to the full extent of the law. In addition to any other penalties prescribed by law, you will forfeit monies paid and may lose all right, title, and interest in the land if a purchase contract has been issued.

Anyone who misrepresents themselves as owners of any of these parcels of land or who wrongly represents that they have any legal rights to these parcels may be engaged in a fraudulent practice and may be prosecuted to the full extent of the law. If you are approached by someone or become aware of someone who claims any ownership or any other legal rights in these parcels, please contact the Department of Natural Resources Public Information Center, at pic@dnr.state.ak.us or (907) 269-8400, and provide any information that you may have.

Right to Adjourn/Postpone/Cancel

DNR reserves the right to postpone or cancel a land offering, in whole or in part, if necessary to protect the interest of the State of Alaska at any time prior to or during the offering, even after the apparent high bidder has been notified; prior to DNR signing a final conveyance document, including all Over-The-Counter offerings. In the event that DNR cancels a land offering, bid deposits will be returned.

Brochure Amendments

This brochure is intended for informational purposes only and does not constitute an offer to sell. At times, modifications in the terms of a land offering become necessary after the publication of the brochure. Changes are announced and published as soon as possible in supplemental information sheets called erratas. You may obtain a copy of new errata and data on file from the DNR Public Information Offices or on-line at www.dnr.state.ak.us/mlw/landsale.

It is your responsibility to keep informed of any changes or corrections prior to submitting a bid. DNR reserves the right to make changes to land offerings or to cancel a land offering, if necessary, to protect the interest of the State of Alaska at any time prior to or during the offering, even after the apparent high bidder has been notified. If you are approached by someone or become aware of someone who claims any ownership or any other legal rights in these parcels, please contact the Department of Natural Resources Public Information Center, at pic@dnr.state.ak.us or (907) 269-8400, and provide any information that you may have.

Filing Policy for State Employees

State employees, employees of state-funded agencies (such as the University of Alaska), or employees of a contractor employed by the state or a state-funded agency, who gained knowledge of a land offering at state expense or were in a position to obtain inside information about the offering process, may not file a sealed bid during the last 15 days of the bidding period and may not acquire land within the first 30 days that it is offered Over-The-Counter (11 AAC 67.005(c)).

Withdrawing Bids Prohibited

Once you have submitted a bid, it cannot be withdrawn. If you feel your bid was submitted with an error, you must submit a new bid to be eligible for the parcel. If you submit multiple bids on the same parcel, the MOST RECENT VALID bid will prevail even if you have submitted a higher bid at an earlier time.

Buying Multiple Parcels

11 AAC 67.005(b) has been repealed. This regulation previously restricted bidders from purchasing more than one parcel from each DNR land offering. For administrative purposes, the Sealed-Bid Auction will still be limited to one parcel per person; however, additional parcels from this offering may be purchased during the Initial OTC Lottery and the Over-The-Counter offerings. You may submit sealed bids on multiple parcels (each in a separate envelope), however only your first eligible high bid will be awarded.

Returned Bid Deposits

Unsuccessful bidders may pick up their deposits until 5:00 p.m. May 25, 2005, upon proper presentation of identification (Alaska drivers license or other similar picture identification). The deposits may be picked up at the Fairbanks DNR Public Information Office, 3700 Airport Way, Fairbanks, Alaska. Deposits not picked up by 5:00 p.m. will be returned by mail on May 26, 2005. NO interest will be paid on the bid deposit while it is in the possession of the state.

Appeals

An aggrieved bidder may appeal to the Commissioner within fifteen days after the sale for the review of a Director’s determination (AS 35.07.050). An appeal may be sent by mail to Commissioner Thomas E. Irwin, Department of Natural Resources, 550 West 7th Avenue, Suite 1400, Anchorage, AK 99501-3561, by fax to (907) 269-8918, or by electronic mail to dnr_appeals@dnr.state.ak.us.
Parcels that are offered under this preference must be offered first to veterans. A Veterans Preference Auction is a restricted sale at which only qualified veterans have first option to purchase certain parcels being offered. A sale contract will not be issued by the State of Alaska unless all five percent down payment, if the purchase price minus the minimum five percent down payment, will be due 30 days after the Award Notification letter is received by the purchaser. If you are the successful bidder for a parcel and do not meet requirements listed in the "Bidder Qualifications" section, a lump sum payment will be required.

Sale Contracts

If the purchase price minus the minimum five percent down payment, per parcel, is greater than $2,000, the remainder may be paid in a lump sum, or by entering into a sale contract with the State of Alaska or its authorized representative.

You are responsible for maintaining a current address with the Division of Mining, Land and Water during the life of the sale contract. Any notice or other correspondence sent to you is sufficient if mailed to the last address of record.

Lump Sum Payment

If the purchase price minus the minimum five percent down payment, per parcel, is $2,000 or less, the purchase price must be paid in full. A land sale contract will not be issued (11 AAC 67.875). The balance due (purchase price minus the minimum five percent down payment) will be due 30 days after the Award Notification letter is received by the purchaser.

If you are the successful bidder for a parcel and do not meet requirements 3 – 5 listed in the "Bidder Qualifications" section, a lump sum payment will be required.

A sale contract will not be issued by the State of Alaska unless all five requirements listed in the "Bidder Qualifications" section are met.

The terms for purchasing state land by sale contract are:
- Minimum down payment of five percent (5%) of the purchase price;
- Non-refundable document handling fee of $100.00;
- Contract for payment of the balance, with interest, over a period of 20 years based on the following parameters:
  - $2,000.00 or less must be paid in full at time of purchase;
  - $2,000.01 to $9,999.99, contract length will not be more than 5 years;
  - $10,000.00 to $14,999.99, contract length will not be more than 10 years;
  - $15,000.00 to $19,999.99, contract length will not be more than 15 years;
  - $20,000.00 or more, contract length will not be more than 20 years.

The interest rate on all land sale contracts will be the prime rate as reported in the Wall Street Journal on the first business day of the month in which the contract is sent to you for signature, plus three percent; however, the total rate of interest may not exceed 13.5 percent. Interest begins to accrue on the effective date shown on the face of the contract.

Your contract will be issued as soon as possible, however delays up to and exceeding 120 days are possible. The state does not allow early entry for development activity until the sale contract is issued, or payment is made in full. Please contact the Contract Administration Unit at (907) 269-8594 for additional information.

Service Charge

Once the contract for sale has been executed, you will owe a service fee for any late payment or returned check as follows:
- Late Payment Penalty: A breach caused by the failure of the purchaser to make payments required by the contract may be cured by payment of the sum in default and a fee, as specified in AS 38.05.065(d), of $50.00 or five percent (5%) of the sum in default, whichever is larger. Contract payments received apply first toward any late fees, then towards interest owed, and any remainder reduces the principal balance.
- Returned Check Penalty: A returned check fee of $25.00, as provided in 11 AAC 05.010, will be assessed for any check on which the bank refuses payment. The default termination date, the date payment is due, will not be altered due to a delay caused by a bank refusing payment. Late penalties under (1) of this section shall continue to accumulate.

Note: lump sum payments may be used on a parcel purchased through the Veterans Preference Auction.

Parcels that will be offered in a Veterans Preference Auction for the Spring 2005 Alaska State Land Offering – Auction #435 are:

Frederick Point North
Parcels 1003 and 1004 will be offered in a Veterans Preference Auction.

Beaver Creek Alaska Subdivision
Parcels 1029, 1030, and 1033 will be offered in a Veterans Preference Auction.

The bids for the Veterans Preference Auction will be opened first, beginning at 10:00 a.m., Wednesday, May 25, 2005, at the Fairbanks Department of Natural Resources Public Information Office, located at 3700 Airport Way, Fairbanks, Alaska. Any of the eligible parcels not sold during the Veterans Preference Auction will then be auctioned along with the remaining parcels to qualified bidders during the regular Sealed-Bid Auction.

Parcels that are offered under this preference must be five acres or less, classified as settlement land, and zoned for residential use only (11 AAC 67.050). If two or more individuals jointly submit a bid, all bidders must be eligible veterans and provide the required proof. This Veterans Preference option may only be used once in an applicant’s lifetime. The Veterans Land Discount may NOT be used on a parcel purchased through the Veterans Preference Auction.

The veteran may not sell or otherwise transfer ownership of the land for five years, except to heirs upon the death of the purchaser, as security for a loan, or for other good cause as determined by the director of the Division of Mining, Land and Water.

The veteran shall submit proof within two years that residential development has begun. Proof shall show that access has been developed, if necessary, and improvements have been made to the property. These improvements can include utility installations, a permanent foundation or the construction of waste disposal and sanitary facilities under a building permit issued by the appropriate municipal authority. The two year development requirement will begin on the effective date of the contract for sale or on the date of payoff if a contract has not been issued. The director may not convey title to the parcel until the above requirements have been met.

VETERANS PREFERENCE AUCTION

A Veterans Preference Auction is a restricted sale at which only qualified veterans have first option to purchase certain parcels being offered. Parcels that are offered under this preference must be five acres or less, classified as settlement land, and zoned for residential use only (11 AAC 67.050). If two or more individuals jointly submit a bid, all bidders must be eligible veterans and provide the required proof. This Veterans Preference option may only be used once in an applicant’s lifetime. The Veterans Land Discount may NOT be used on a parcel purchased through the Veterans Preference Auction.

The veteran may not sell or otherwise transfer ownership of the land for five years, except to heirs upon the death of the purchaser, as security for a loan, or for other good cause as determined by the director of the Division of Mining, Land and Water.

The veteran shall submit proof within two years that residential development has begun. Proof shall show that access has been developed, if necessary, and improvements have been made to the property. The two year development requirement will begin on the effective date of the contract for sale or on the date of payoff if a contract has not been issued. The director may not convey title to the parcel until the above requirements have been met.
Qualifications
In addition to the ‘Bidder Qualifications’ stated in this brochure, a person applying for the Veterans Preference Auction must submit proof, acceptable to the department, that he or she:
1. Has served on active duty in the U.S. armed forces for at least 90 days, unless tenure was shortened due to a service-connected dis- ability or due to receiving an early separation after a tour of duty overseas (use Form DD 214); and
2. Has received an honorable discharge or general discharge under honorable conditions.
For the purposes of this program, armed forces are limited to the United States Army, Navy, Marines, Air Force, and Coast Guard. Service in state National Guard units, the Alaska Territorial Guard, as well as Army, Navy, Marine, and Air Force Reserve service may also be included, provided the applicant can document the accumulation of 90 days of active duty service. A Form DD 214, Report of Separation from Active Duty, or the equivalent, showing the character of the discharge and length of active duty, must be submitted. Veterans are encouraged to request their Form DD 214 well in advance of the auction.

Any bid submitted for the Veterans Preference Auction without this proof enclosed will not be considered for a Veterans Preference, but will be considered in the regular Sealed-Bid Auction. If you submit your bid on-line, this proof must be mailed to the Anchorage Public Information Office, and be received by the application deadline.

Eligible veterans may receive a twenty-five percent (25%) discount on the purchase of state land, once costs reimbursable to the state have been subtracted from the purchase price (AS 38.05.940). This Veterans Land Discount may only be used once in an applicant’s lifetime. The Veterans Land Discount may NOT be used on a parcel purchased through the Veterans Preference Auction.

Qualifications
A qualifying veteran must apply for the discount at the time of purchase by submitting a completed Veteran Eligibility Application/Affidavit form and proof, acceptable to the department, that he or she:
1. Is 18 years of age or older at the date of sale;
2. Has been a resident of the State of Alaska for a period of not less than one year immediately preceding the date of sale (see “Residency Requirement” section);
3. Has served on active duty in the U.S. armed forces for at least 90 days, unless tenure was shortened due to a service-connected disability or due to receiving an early separation after a tour of duty overseas (use Form DD 214); and
4. Has received an honorable discharge or general discharge under honorable conditions.
For the purposes of this program, armed forces are limited to the United States Army, Navy, Marines, Air Force, and Coast Guard. Service in state National Guard units, the Alaska Territorial Guard, as well as Army, Navy, Marine, and Air Force Reserve service may also be included, provided the applicant can document the accumulation of 90 days of active duty service. A Form DD 214, Report of Separation from Active Duty, or the equivalent, showing the character of the discharge and length of active duty, must be submitted. Veterans are encouraged to request their Form DD 214 well in advance of the auction.

In case where two or more applicants wish to purchase a parcel and apply a Veterans Land Discount, both purchasers must be eligible bidders but only one qualifying applicant needs to be an eligible veteran and apply for the discount. However, upon approval, a single 25% discount will be given and all applicants will have exhausted their ‘once in a lifetime’ Veterans Land Discount. If there is more than one applicant, the applicant(s) not applying for the discount must fill out the Waiver of Veterans Discount form and return it to DNR with the other required documentation.

The Veteran Eligibility Application/Affidavit form and the Waiver of Veterans Discount form can be found at any regional DNR Public Information Office, as well as on-line at www.dnr.state.ak.us/mlw/forms under “Land Forms”. If you are the successful bidder for a parcel, a copy of these forms will be included in your “Award Notification” letter.

The Veterans Land Discount may be applied only to acquisition of surface rights to the land. Survey, platting, and road development costs (reimbursable costs) will be subtracted from the purchase price before the 25% discount is applied (AS 38.05.940). The reimbursable cost per acre is listed in the table at the right. The amount of the discount will be deducted from the principal sum of the sales contract or from the purchase price if paid in full at the time of initial purchase.

Reimbursable Costs for Calculating Veterans Land Discount

Below is an example of how a Veterans Land Discount is calculated for a 1.82 acre parcel with reimbursable costs of $987 per acre, if the bid price were $40,000.

| Reimbursable Cost/Acre | $ 987.00 |
| Parcel Size in Acres | 1.82 |
| Total Reimbursable Cost | $ 1,796.34 |
| Bid Price | $ 40,000.00 |
| Less Reimbursable Cost | $ 1,796.34 |
| Amount Eligible for Discount | $ 38,203.66 |
| Amount Eligible for Discount | $ 38,203.66 |
| 25% Veterans Discount Rate | 25% |
| Veterans Discount | $ 9,550.91 |
| Bid Price | $ 40,000.00 |
| Less the Veterans Discount | $ 9,550.91 |
| Discounted Purchase Price | $ 30,449.09 |
| Discounted Purchase Price | $ 30,449.09 |
| Less 5% Deposit of Bid Price | $ 2,000.00 |
| Balance Due | $ 28,449.09 |
All bids must be received by one of the designated DNR offices or submitted on-line, no later than 5:00 p.m., Friday, May 20, 2005. Bids received after the designated date and time will not be considered. All bids will be opening beginning at 10:00 a.m., Wednesday, May 25, 2005 in the Fairbanks DNR Public Information Office, located at 3700 Airport Way, Fairbanks, Alaska. A parcel will be awarded to the eligible bidder who submits the highest bid for each parcel. The purchase price in the Initial OTC Lottery is the appraised fair market value as indicated in this brochure or errata. You may bid on multiple parcels, but only one parcel per person will be considered for the awarding of the Initial OTC Lottery. DNR will accept bids for the minimum bid price listed in this brochure although there is no assurance a minimum bid will be the high bid. Successful high bidders may also participate in the Initial OTC Lottery Offering. The limit on the number of parcels that can be purchased during the Initial OTC Lottery Offering.

Sealed-Bid Auction Procedures

- Bids will be kept confidential and stored in a safe until the auction.
- The auction will begin at 10:00 a.m., Wednesday, May 25, 2005, in the Fairbanks DNR Public Information Office, located at 3700 Airport Way, Fairbanks, Alaska. Attendance at the auction is not required and will not affect the outcome. Members of the public who attend the sealed bid opening will not be allowed to change or withdraw any applications. The DNR Public Information Offices in Juneau and Anchorage will have access to the bid opening via the internet. For more information during the bid opening, log on to www.dnr.state.ak.us/mlw/lotsale.
- Veterans Preference bids will be opened first, in an order determined by the number of bids received. The parcel having the most bids will be opened first, the next highest number of bids second, etc. Where an equal number of bids are received for more than one parcel, bids for the parcel with the lowest parcel number will be opened first. Veterans Preference parcels that have no qualified veteran bidders will be auctioned to qualified bidders during the next phase of the auction.
- Auction bids will be opened in an order determined by the number of bids received. The parcel having the most bids will be opened first, the next highest number of bids second, etc. Where an equal number of bids are received for more than one parcel, bids for the parcel with the lowest parcel number will be opened first.
- The eligible bidder who submitted a properly completed bid form having the highest bid amount will be named the apparent high bidder. Acceptable bids must be for at least the minimum bid price listed for each parcel in this brochure.
- Bidders will be awarded their first successful bid and will not be eligible to acquire another auction parcel for the remainder of the Sealed-Bid Auction. In the case of multiple applicants on a winning bid, the winning applicants will not be eligible to individually win additional bids in the Sealed-Bid Auction. Additional parcels may be purchased through Over-The-Counter Offerings only.
- If the winning applicant for more identical high bids for a parcel, the apparent high bidder will be determined by the earliest DNR date received stamp on the bid envelope (not the postmark). If the date stamps are also identical, then the name of the successful bidder will be determined by a drawing.
- Following the auction, a list of apparent high bidders will be posted at the DNR Public Information Offices and on-line at www.dnr.state.ak.us/mlw/lotsale.
- Apparent high bidders will be sent an “Award Notification” letter by certified mail. The letter will give successful bidders 30 days to submit the following requirements:
  - Completed Declaration of Intent form (blank copy included in letter);
  - A non-refundable $100.00 document handling fee (11 AAC 05.010 (7) (f));
  - If applying for a Veterans Land Discount, a Veteran Eligibility Affidavit (blank copy included in letter) along with a copy of the applicant’s Form DD 214, Report of Separation from Active Duty, or the equivalent, showing the character of the discharge and length of active duty, and the Waiver of Veterans Discount form (blank copy included in letter), if there is more than one applicant for a parcel (see Land Discount Application section for more information);
  - Proof of Alaska residency; and
  - Any other documents or items requested in the Award Notification letter.
- If a successful bidder fails to comply with the requirements stated in the “Award Notification” letter by the deadline, the bidder forfeits the bid deposit and all rights to the parcel. The next highest eligible bidder will then be given the opportunity to purchase the parcel. Failure to comply with the requirements stated in the “Award Notification” letter does not prevent the first apparent high bidder from purchasing another parcel in the subsequent Initial Over-The-Counter Lottery.
- Parcels not awarded at this auction will be available in the Initial Over-The-Counter Lottery where they will be offered for sale at the minimum bid price, which is the appraised fair market value as listed in this brochure.

INITIAL OVER-THE-COUNTER (OTC) LOTTERY PROCEDURES

Parcels not sold during the Spring 2005 Alaska State Land Auction #435 Sealed-Bid Auction will be offered for sale, at the minimum bid price, through an Initial OTC Lottery. Occasionally, parcels with an apparent high bidder in the Sealed-Bid Auction may become available in the Initial OTC Lottery due to relinquishment or rejection of the bid. A complete list of all parcels to be included in the Initial OTC Lottery will be available at all DNR Public Information Offices as well as at the DNR website, www.dnr.state.ak.us/mlw/lotsale on Wednesday, June 1, 2005. If additional bids are relinquished or rejected after May 31, 2005, they will not be included in the Initial OTC Lottery, but will become available at a later date.

All applications must be received by one of the designated DNR Public Information Offices or submitted on-line, no later than 5:00 p.m., Friday, July 15, 2005. Applications received after the designated date and time will not be considered. The lottery will be conducted beginning at 10:00 a.m., Wednesday, July 20, 2005 in the Anchorage DNR Public Information Office, located at 550 West 7th Avenue, Suite 1260, Anchorage, Alaska. Attendance at the lottery is not required and will not affect the outcome. Members of the public who attend the Initial OTC Lottery will not be allowed to change or withdraw any applications. The DNR Public Information Offices in Juneau and Fairbanks will have access to the lottery via the internet. For more information during the lottery, log on to www.dnr.state.ak.us/mlw/lotsale.

A drawing will be held to determine the winning applicant for any parcel where multiple applications have been received. The first name drawn for each parcel will be named the winner, if there is only one applicant for a parcel, that applicant is automatically the winner.

For the Initial OTC Lottery, applicants have the opportunity to purchase multiple parcels. Applicants will win all parcels for which their name is drawn, or when they are the only applicant.

If the winning applicant subsequently decides not to complete the sale of the parcel, they will be responsible for payment of all advertising, listing, and all rights to the parcel are forfeited to the state.

Following the lottery, a list of winners will be posted at the DNR Public Information Offices and on-line at www.dnr.state.ak.us/mlw/lotsale.

Upon completion of the Initial OTC Lottery, all remaining parcels will become available Over-The-Counter at the DNR Public Information Offices in Juneau, Anchorage, and Fairbanks. After the parcel availability is posted, an Over-The-Counter parcel availability update will be posted for 30 days on-line at www.dnr.state.ak.us/mlw/lotsale on a quarterly basis.

Initial Over-The-Counter Lottery Procedures

- Applications will be kept confidential and stored in a safe until the lottery.
- The lottery will begin at 10:00 a.m., Wednesday, July 20, 2005, in the Anchorage DNR Public Information Office, located at 550 West 7th Avenue, Suite 1260, Anchorage, Alaska. Attendance at the lottery is not required and will not affect the outcome. Members of the public who attend the Initial OTC Lottery will not be allowed to change or withdraw any applications. The DNR Public Information Offices in Juneau and Anchorage will have access to the lottery via the internet. For more information during the lottery, log on to www.dnr.state.ak.us/mlw/lotsale.
- A drawing will be held to determine the winning applicant for any parcel where multiple applications have been received. The first name drawn for each parcel will be named the winner, if there is only one applicant for a parcel, that applicant is automatically the winner.
- For the Initial OTC Lottery, applicants have the opportunity to purchase multiple parcels. Applicants will win all parcels for which their name is drawn, or when they are the only applicant.
- If the winning applicant subsequently decides not to complete the sale of the parcel, they will be responsible for payment of all advertising, listing, and all rights to the parcel are forfeited to the state.
- Following the lottery, a list of winners will be posted at the DNR Public Information Offices and on-line at www.dnr.state.ak.us/mlw/lotsale.
- Upon completion of the Initial OTC Lottery, all remaining parcels will become available Over-The-Counter at the DNR Public Information Offices in Juneau, Anchorage, and Fairbanks. After the parcel availability is posted, an Over-The-Counter parcel availability update will be posted for 30 days on-line at www.dnr.state.ak.us/mlw/lotsale on a quarterly basis.
INSTRUCTIONS TO APPLICANT

At this time there are two ways to apply for a parcel in the Sealed-Bid Auction: by traditional paper applications, which must be mailed or hand delivered to the appropriate DNR Office, fax, e-mail, and telephone applications will not be accepted.

Submitting a Sealed-Bid On-Line

To apply for a parcel on-line, go to www.dnr.state.ak.us/mlw/landsale and follow the appropriate link. The on-line application process will ask for a MasterCard or Visa credit card authorization. Your credit card will only be charged on the day of the sealed-bid opening if you are the successful bidder for that parcel. See note below regarding availability of funds when using a credit card.

Submitting a Sealed-Bid By Mail or in Person

A complete Sealed-Bid Auction application package (for mailing or hand delivery) includes the following items:

- A completed Alaska State Land Auction Bid Form.
- A bid deposit.
- Must be at least five percent (5%) of the total bid amount. DO NOT ROUND DOWN!
- Must be in the form of a cashier's check, personal check, money order, or Visa/MasterCard payment information and authorization, payable to the Department of Natural Resources.
- Two-party checks will not be accepted. DO NOT SEND CASH!
- NOTE: When using the Visa or MasterCard payment options, contact your financial institution to pre-authorize your bid deposit for the day of the auction. Some institutions have authorization limits of $100.00 per day regardless of available credit.
- For successful bidders, the deposit is non-refundable and will be applied to the purchase price.
- A separate bid deposit must be included for each bid submitted.
- VETERANS PLEASE NOTE: If you are applying for a parcel in the Veterans Preference Auction, your proof of eligibility must be included (see “Veterans Preference Auction” section).
- VETERANS PLEASE NOTE: If you are bidding for the Veterans Land Discount (AS 38.05.940), DO NOT subtract your discount from your bid amount or your bid deposit. If you are a successful bidder, and you are an eligible veteran who will be applying for the Veterans Land Discount, the discount will be deducted from the purchase price after the auction (Please see “Veterans Land Discount” section).
- A self-addressed, stamped envelope to return an unsuccessful bidder’s deposit, if it was made by cashiers check, personal check, or money order. The deposit for unsuccessful bidders will be returned by mail if they are not picked up at the Fairbanks DNR Public Information Office by 5:00 p.m. May 25, 2005. A self-addressed, stamped envelope must be included with the bid for this purpose. If the unsuccessful bidder’s deposit was made by a credit card authorization, that information will be destroyed after the auction.
- All bid/application materials are to be placed in an envelope from the purchase price after the auction (Please see “Veterans Land Discount” section).

Spring 2005 Alaska State Land Auction #435 (Parcel #)

1. (Bidder’s First, Middle, and Last Name) (Bidder’s Address, City, Zip).
2. (If applying for the Veterans Preference Auction, indicate that here)
3. Place the envelope containing the bid/application materials inside another envelope. You will be submitting it by mail. Be sure to include “Spring 2005 Auction #435 – SEALLED BID” on the outside of the mailing envelope. The Department of Natural Resources is not responsible for opening improperly marked bid envelopes. Each bid must be submitted in a separate, sealed envelope.

ON-LINE RESOURCES

These websites are listed here as a reference to assist you when re-searching a parcel, a land region, or certain development restrictions or policies. They may also provide links to appropriate regional offices and phone numbers. This is by no means a complete list of agencies that have authority over all aspects of land ownership and development, but it is a good place to start. Many of these websites are referenced throughout this brochure.

Submitting an Initial Over-The-Counter Lottery Application On-Line

To apply for a parcel on-line, go to www.dnr.state.ak.us/mlw/landsale and follow the appropriate link. The on-line application process will ask for a MasterCard or Visa credit card authorization. Your credit card will only be charged on the day of the lottery if your name is drawn for the parcel. See note below regarding availability of funds when using a credit card.

Submitting an Initial Over-The-Counter Lottery Application By Mail or in Person

A complete Initial Over-The-Counter Lottery application package (for mailing or hand delivery) includes the following items:

1. A completed Over-The-Counter application form. If applying for multiple parcels, a separate application must be completed for each parcel.
2. A completed Declaration of Intent form. If applying for multiple parcels, a separate form must be completed for each parcel.
3. A non-refundable $100.00 document handling fee. If applying for multiple parcels, a separate document handling fee must be included for each parcel.
4. A down payment. If applying for multiple parcels, a separate down payment must be included for each parcel.
5. Must be at least five percent (5%) of the purchase price. ( mini- mum bid amount from the brochure). DO NOT ROUND DOWN!
6. Must be in the form of a cashier’s check, personal check, money order, or Visa/MasterCard payment information and authorization, payable to the Department of Natural Resources. Two-party checks will not be accepted. DO NOT SEND CASH!
7. NOTE: When using the Visa or MasterCard payment options, contact your financial institution to pre-authorize your down payment for the day of the lottery. Some institutions have authorization limits of $100.00 per day regardless of available credit.
8. For successful applicants, your down payment is non-refundable and will be applied to the purchase price.
9. VETERANS PLEASE NOTE: If you will be applying for the Veterans Land Discount (AS 38.05.940), DO NOT subtract your discount from your down payment. If you are a successful applicant, and you are an eligible veteran who has applied for the Veterans Land Discount, the discount will be deducted from the purchase price. (Please see “Veterans Land Discount” section).

When to Submit Sealed Bids and Initial Over-The-Counter Applications

Mail

Sealed bid envelope must be enclosed in a separate envelope for mailing.

Spring 2005 Auction #435 – SEALLED BID (or IOTC APPLICATION) (Within Financial Services Section)

550 West 7th Avenue, Suite 1410
Anchorage, Alaska 99501-3561

Hand Deliver

(Do not mail bids or applications to the Public Information Offices)

Any DNR Public Information Office (Anchorage, Fairbanks, Juneau) See “DNR Public Information Offices” section for locations.

Submit On-line

www.dnr.state.ak.us/mlw/landsale

April 2005 Page 9
Map 1 - Coffman Cove Subdivision, ASLS 86-163
Southeast Region

Location
Coffman Cove is located on the northeast coast of Prince of Wales Island about 65 miles northwest of Ketchikan and approximately 55 miles by road northeast of Craig.

Topo Map
USGS Quad Petersburg A-3

Access
The Alaska Marine Highway System provides ferry service to Hailfors, about a 3-hour drive south of Coffman Cove. Coffman Cove also has regularly scheduled seaplane service and a state-owned/city-operated small boat harbor. An existing shot rock surfaced road provides access to a portion of the subdivision. The parcel is along a platted road right-of-way, which has been improved as a pioneer type road.

Terrain
The topography of the lot is level.

Soils
Bedrock can be found at average depth of 2 or 3 feet. Drainage is mostly poor, with areas of wetlands and muskeg.

Vegetation
Groundcover is mostly blueberry and huckleberry bushes, devil's club, and forage. The parcel is treed with medium sized Sitka spruce, western hemlock, cedar, and lodgepole pine.

Water Front
None

View
Unknown

Climate
The area is dominated by a cool maritime climate. Average winter temperatures range from 32 to 42 degrees F; average summer temperatures range from 46 to 70 degrees F. Average annual precipitation is 74 inches, including 68 inches of snow.

Water Source
Water for domestic use may be obtained from the collection of surface water from small streams in the area or by rainwater roof catchment systems. The City of Coffman Cove has completed a water and sewer system that serves a portion of the subdivision but does not serve this parcel.

Water/Sewage Disposal
No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC). ADEC has approved this subdivision for non-water carried type sewage disposal systems (i.e. chemical, septic, incendiary, etc.).

Utilities
Electricity is available within the subdivision, but will need to be extended to this particular parcel.

Restrictions
Subject to all platted easements and reservations of record, see ASLS 86-163. This parcel may contain wetlands. Purchasers must obtain permits from the U.S. Army Corps of Engineers before placing any dredged or fill material in wetlands.

Municipal Authority
This parcel is located within the boundary of the City of Coffman Cove, a second class city, and is subject to applicable local ordinances. Contact the City of Coffman Cove by mail at PO Box 18135, Coffman Cove, Alaska, 99918, or by phone at (907) 329-2233.

Homeowners Association
None

Note: It is the responsibility of the purchaser to review recorded subdivisions plats/maps, surveys, and plats/maps for specific declarations on easements, building setbacks, or other restrictions. The Alaska Department of Natural Resources (ADNR) does not guarantee the accuracy of information in current subdivision surveys. For current information, contact the Alaska Department of Natural Resources, Division of Parks and Recreation, Fisheries Information Center, or on the web at: http://www.adnr.state.ak.us/parks
The community of Edna Bay is located on the southeast coast of Kousako Island, west of Prince of Wales Island. It is 40 miles northwest of Craig and 55 miles southeast of Petersburg. The parcel is located in a cove at the west end of Edna Bay Subdivision.

**Location**

The parcel is heavily treed with a mix of old and second growth cedar, spruce, and hemlock.

**Water Front**

This parcel has water frontage on Edna Bay. The quality of the frontage is below average due to the mud flats that extend from the termination of the cove and creek entrance to the mouth of the cove. There is a large number of shoals and rocks off shore of the subdivision that make entrance with boats and floatplanes difficult at all tides.

**View**

The view is primarily of the extensive mud flats.

**Climate**

The area is dominated by a cool maritime climate. Average winter temperatures range from 32 to 42 degrees F; average summer temperatures range from 46 to 70 degrees F. Average annual precipitation is 100 inches.

**Access**

None

**Utilities**

None

**Restrictions**

Subject to all platted easements and reservations of record, see ASLS 81-116. This parcel may contain wetlands. Purchasers must obtain permits from the U.S. Army Corps of Engineers before placing any dredged or fill material in wetlands.

**Water Source**

Water for domestic use may be obtained from the collection of surface water from small streams in the area or by rainwater roof catchment systems.

**Water/Sewage Disposal**

No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC). ADEC has approved this subdivision for non-soil absorption wastewater treatment systems.

**Vegetation**

The parcel is heavily wooded with a mix of old and second-growth cedar, spruce, and hemlock.

**Soils**

The subject soils are unknown, but appear to be good for the slope of the parcel and the quality of the vegetation. There is a small amount of organic leakage over a few areas of rock outcroppings.

**Terrain**

The parcel contains a one-story, wood-framed, 200 square foot cabin that is in poor condition. The age and integrity of the structure are unknown. The salvage value of the cabin is equal to demolition costs. Any clean up or removal will become the responsibility of the purchaser.
Southeast Region

Map 3 - Frederick Point North Subdivision, ASLS 83-31

Spring 2005 Alaska State Land Offering -- Auction #435

Location
This subdivision lies on the north end of Mitkof Island, about 3.5 miles southeast of the central business district of Petersburg.

Topo Map
USGS Quad Petersburg D-3

Access
Petersburg has regularly scheduled jet and floatplane service and is part of the Alaska Marine Highway System. The North Mitkof Highway provides access from Petersburg to a portion of the subdivision. These parcels are being offered as a single lot and shall be considered as a one-lane gravel road 30 feet wide.

Terrain
Parcel X is level, with a moderate north facing slope. Parcel Y is generally flat, with an embankment along the road that rises from road level at the northeast corner to about 8 feet in the middle of the road front lot line.

Soils
The subject soils are unknown, but both lots appear to contain large amounts of wetlands.

Vegetation
On the eastern portion of Parcel X, there is a small drainage with hemlock, cedar, and pine trees. Parcel Y contains several stands of trees. A seasonal creek drains the southeast corner of Parcel Y.

Water Front
None.

View
Parcel X has a view of Frederick Sound. The view from Parcel Y is unknown.

Climate
The area is dominated by a cool maritime climate. Average winter temperatures range from 22 to 37 degrees F; average summer temperatures range from 45 to 84 degrees F. Average annual precipitation is 106 inches, including 97 inches of snow.

Water Source
A public water system has been developed along Frederick Drive.

Water/Sewage Disposal
No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC). ADEC has approved this subdivision for non-water carried type sewage disposal systems (i.e. chemical, septic, incendiary, etc.).

Utilities
None.

Restrictions
Subject to all platted easements and reservations of record, see ASLS 83-31. This subdivision is zoned "Rural Residential" by the City of Petersburg. This zoning allows for single-family residences with a minimum lot size of one acre. These parcels may contain wetlands. Purchasers must obtain permits from the U.S. Army Corps of Engineers before placing any dredged or fill material in wetlands.

Municipal Authority
These parcels are located within the boundary of the City of Petersburg, a home rule city, and are subject to applicable local ordinances and property assessments. Contact the City of Petersburg by mail at PO Box 329, Petersburg, Alaska, 99833, or by phone at (907) 772-4519.

Homeowners Association
None.

1005 | Other | USGS Craig D-4 | 269S080E21 | ASLS | 7 | 4 | 2.780 | 35

Location
Naukati Bay is located on the northwest coast of Prince of Wales Island, 28 miles north of Craig and 65 miles south of Petersburg.

Topo Map
USGS Quad Craig D-4

Access
This parcel is along a platted road right-of-way, which has been constructed as a fair quality, gravel road.

Terrain
The southern portion of this parcel is level, while the north half slopes steeply to the north.

Soils
Subject soils appear to be shallow forest soil, with a fair amount of rocks.

Water Source
Water for domestic use may be obtained from the collection of surface water from small streams in the area or by rainwater roof catchment systems.

Water/Sewage Disposal
No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC). ADEC has approved this subdivision for non-water carried type sewage disposal systems, such as septic tank privies.

Utilities
None

Restrictions
Subject to all platted easements and reservations of record, see ASLS 85-335.

Municipal Authority
None

Homeowners Association
The Naukati Bay East Community Association can be contacted by mail at c/o Carlyle Preston, Presidint, PO Box NO. Haines, Alaska, 99801.

Other
The transfer of this land to the State of Alaska from the federal government has been Tentatively Approved. For more information about Tentatively Approved lands, refer to the information in the narrative of this brochure.

Note: It is the responsibility of the purchaser to review recorded subdivision plat information, which may include changes that are not published in this brochure. Please check the errata or supplemental information sheets for current information.

</tbody>
</table>

Location: Naukati Bay is located on the northwestern side of Prince of Wales Island about 68 miles northwest of Ketchikan and 38 miles north of Craig.

Topo Map: USGS Quadrangle D-4.

Access: The road entering the Naukati area from the Prince of Wales Island road system is the Forest Development Road (FDN). Access to waterfront parcels is by water or foot trail only. Other roads that have been developed within the community access the remainder of the parcels.

Terrain: Topography within the subdivision is moderate to steep.

Soils: The subject soils are unknown, but appear to be good grade and quality of vegetation.

Vegetation: Most of the lots were completely clear cut over the past 30 years and the resulting regrowth is quite dense. Tree cover consists of smaller, second growth spruce, hemlock and cedar.

Waterfront: Parcels in Blocks 7 and 8 have water frontage consisting of a rocky shore. Parcels in Blocks 9 and 10 have water frontage consisting of a sandy shore.

View: Potentially excellent views of Naukati Bay from some of the waterfront parcels.

Climate: The area is penetrated by a cool, maritime climate. Average winter temperatures range from 32 to 42 degrees F; average summer temperatures range from 46 to 70 degrees F.

Water Source: Most of the subdivision is well watered by rainfall and snowmelt. Some areas have natural springs.

Water Supply/Disposal: No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and regulations of the Alaska Department of Environmental Conservation (ADEC).

Utilities: Telephone and electricity are available from the Alaska Power and Telephone Company to Blocks 9 and 10.

Restrictions: Subject to all platted covenants and reservations of record, see ASLS 2004-3. These parcels may contain wetlands. Purchasers must obtain permits from the U.S. Army Corps of Engineers before placing any dredged or fill material in wetlands.

Municipal Authority: None

Homeowners' Association: The Naukati West Inc. community association can be contacted by mail at P.O. Box 1015, Naukati, AK 99950, or by phone at (907) 629-4266.

Information Offices or on the web at: http://www.dnr.state.ak.us/landrecords

Note: It is the responsibility of the purchaser to be aware of all applicable federal, state, and local regulations, in addition to other restrictions that may affect any individual parcel being offered.

April 2005

---

Viscinity Map

Towhipshire 69 South, Route 80 East, Sections 19, 20 & 30

Copper River Meridian, Alaska
Location
Located on the east coast of Prince of Wales Island, approximately 43 miles northeast of Ketchikan and about 45 miles by road east of Craig. This parcel is located across the bay from the City of Thorne Bay.

Tops Map
USGS Quads Craig C-2

Access
The City of Thorne Bay is accessible by boat, float plane, and the Prince of Wales Island road system. Alaska Marine Highway ferry service is available from Heliq, about a 1.5-hour drive southwest of Thorne Bay. The parcel is accessible from Thorne Bay Road, which connects the subdivision to Thorne Bay, Coffman Cove, Craig, Klawock, and Heliq.

Terrain
The area is generally level to gently sloping, with a few steep slopes and rock outcrops.

Soils
Soils on the parcel consist of well to poorly drained mineral soil, with a layer of forest litter. Soil depth is variable from shallow to several feet deep, interrupted occasionally by rock outcrops.

Vegetation
The area is covered by young stands of hemlock and cedar.

Water Front
None

View
Unknown

Climate
The area is dominated by a cool maritime climate. Average winter temperatures range from 32 to 42 degrees F; average summer temperatures range from 49 to 63 degrees F. Average annual precipitation is 120 inches, including 48 inches of snow.

Water Source
Water for domestic use may be obtained from the collection of surface water from small streams in the area or by rainwater roof catchment systems.

Water/Sewage Disposal
No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of Alaska Department of Environmental Conservation. ADEC has approved this subdivision for non-water carried type sewage disposal systems (i.e., sealed-vault privy, chemical, humus, incendiary, etc.).

Utilities
Electricity and telephone service are available to the area, but may need to be extended to this particular parcel.

Restrictions
Subject to all platted easements and reservations of record, see ASLS 80-121. This parcel may contain wetlands. Purchasers must obtain permits from the U.S. Army Corps of Engineers before placing any dredged or fill material in wetlands.

Municipal Authority
This parcel is located within the boundary of the City of Thorne Bay, a second class city, and is subject to applicable local ordinances and property assessments. Contact the City of Thorne Bay by mail at P.O. Box 19310, Thorne Bay, Alaska, 99919, or by phone at (907) 828-3380.

Homeowners Association
None

Note: It is the responsibility of the purchaser to verify recorded subdivision plats/maps, surveys, and plat notes for specific information on easements, building setbacks, or other restrictions that will affect any individual parcel being offered. Information is made available at the Department of Natural Resources Public Information Offices or on the web at: http://www.dnr.state.ak.us/landrecords.
Map 7 - Vallenar Bay Subdivision, ASLS 85-86
Southeast Region

---

**Vallenar Bay**

**PARCEL #**  
1005 106640  
1006 106640

**Location**  
Vallenar Bay is located on the northeast coast of Gravina Island, approximately 7 air miles and 12 miles by boat northwest of Ketchikan.

**Type Map**  
U.S.G.S. Quad Ketchikan B-6

**Access**  
Water access by boat and floatplane, is the only practical access available to the subdivision. Vallenar Bay has limited potential to provide safe boat anchorage or dock facilities. During periods of easterly winds, Gravina Island provides some shelter to the bay, but during periods of northerly winds, the area is very exposed and not suitable for boat moorage. Parcels may be accessed across state lead from Ketchikan, a distance of approximately 12 miles. There are old U.S. Forest Service roads on Gravina Island that extend partially to the subdivision from the center of the island, near the airport. Parcels are along a platted road right-of-way to boat access only. A secondary subdivision is zoned 'Rural Residential' by the Ketchikan Gateway Borough. These parcels may contain wetlands. Purchasers must obtain permits from the U.S. Army Corps of Engineers before placing any dredged or fill material in wetlands. Parcels are along a platted road right-of-way that may not have been constructed. The subdivision has slopes of 0 percent to 35 percent rising from the shoreline to small hills and wet areas in the interior portion of the subdivision.

**Terrain**  
The topography is diverse ranging from flat marshlands to steep ocean sides. The subdivision is along a platted road right-of-way, which may not have been constructed.

**Vegetation**  
The subject soils consist of a mineral soil, the Martin-Waidville complex, which makes up the soil, has more rounded stones and gravel in its matrix, is poor to moderately well drained, has a medium to moderately high erosion hazard, and overstory cover typical. On better-drained soils with steep gradients the forest is primarily western hemlock, Sitka Spruce, mountain hemlock, western red cedar and Alaska cedar.

**Soils**  
The subject soils consist of a mineral soil, the Martin-Waidville complex, which makes up the soil, has more rounded stones and gravel in its matrix, is poor to moderately well drained, has a medium to moderately high erosion hazard, and overstory cover typical. On better-drained soils with steep gradients the forest is primarily western hemlock, Sitka Spruce, mountain hemlock, western red cedar and Alaska cedar.

**Water Frontage**  
None

**View**  
Unknown

**Climate**  
The area is dominated by a cool maritime climate. Average winter temperatures range from 28 to 40 degrees F; average summer temperatures range from 45 to 65 degrees F. Annual precipitation is 150 inches, including 37 inches of snow. Southwesterly winds predominate. Storms with winds from the southeast or southeasterly winds are common in the fall and winter.

**Water Source**  
Water for domestic use may be obtained from the collection of surface water from small streams in the area by rainwater roof catchment systems. Vallenar Creek is an anadromous fish stream and should not be relied upon to supply water for domestic use. A permit must be obtained from Alaska Department of Fish and Game prior to installing a water intake device on any anadromous stream.

**Water/Sewage Disposal**  
No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of Alaska Department of Environmental Conservation. ADEC has approved this subdivision for non-water carried (i.e., septic tank, privy, cesspool, etc.) sewage disposal systems.

**Utilities**  
None

**Restrictions**  
Subject to all plotted easements and reservations of record, see ASLS 85-86. This subdivision is zoned 'Rural Residential' by the Ketchikan Gateway Borough. These parcels may contain wetlands. Purchasers must obtain permits from the U.S. Army Corps of Engineers before placing any dredged or fill material in wetlands.

**Municipal Authority**  
The subdivision is located within the boundaries of the Ketchikan Gateway Borough, a second class borough, and are subject to applicable local ordinances and property assessments. Contact the Ketchikan Gateway Borough by mail at 344 Front Street, Ketchikan, Alaska, 99901, or by phone at (907) 228-6625.

**Homeowners Association**  
None

**Other**  
The U.S. Forest Service and the State of Alaska are planning to conduct timber sales on the west side of Gravina Island, probably as close as 0.2 miles south of the subdivision.
This subdivision is in the community of Whale Pass on the northeast coast of Prince of Wales Island about 80 miles northwest of Ketchikan and 48 miles southwest of Petersburg.

Access
This parcel has frontage on an existing gravel road, Forest Development Road #30, part of the Prince of Wales Island road system. Whale Pass is also accessible by boat and has regularly scheduled float plane service. There is a state owned float plane float, dock, mooring slips, and boat launch ramp in the community.

Terrain
The subdivision has gently to moderate slopes towards the rear of the lot, with elevations from 40 to 275 feet above sea level. The parcel is level at road grade.

Soils
Primarily poorly drained soils consisting of decomposed forest litter, peat, silt loam and gravelly loam.

Vegetation
Forest with western hemlock, red cedar and Sitka spruce with alder, blueberry bushes, and salal.

Water Front
None

View
Potential views of the estuary and Whale Passage.

Climate
The area is dominated by a cool maritime climate. Average winter temperatures range from 15 to 42 degrees F; average summer temperatures range from 46 to 70 degrees F.

Water Source
Water for domestic use may be obtained from the collection of surface water from small streams in the area or by rainwater roof catchment systems.

Water/Sewage Disposal
No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC). ADEC has approved this subdivision for non-water carried type sewage disposal systems (i.e. chemical, human, incontinency, etc.).

Utilities
Electricity and telephone service are available to the area, but may need to be extended to this particular parcel.

Restrictions
Subject to all platted easements and reservations of record, see ASLS 81-217. This parcel may contain wetlands. Purchasers must obtain permits from the U.S. Army Corps of Engineers before placing any dredged or fill material in wetlands.

Municipal Authority
None

Homeowners Association
The Whale Pass Community Association can be contacted by mail at PO Box 187, Whale Pass, Ketchikan, Alaska, 99950 or by phone at (907) 846-5329.

**Note:** It is the responsibility of the purchaser to review recorded subdivisions plats/maps, surveys, and plat notes for specific information on easements, building setbacks, or other restrictions that will affect any individual parcel being offered. Information is made available at the Department of Natural Resources Public Information Offices in Juneau and Ketchikan, Alaska. For a copy of this parcel, please contact the Alaska Department of Natural Resources or the Alaska Public Lands Information Center at the address and phone number provided on the errata sheet with this parcel's information.

**Additional Note:** Many parcels within the Southeast Region did not have approved appraisals by the publication deadline. Check the errata, or supplemental information sheets, for current information.
Map 9 - Alder View Subdivision, Addn. No. 1, ASLS 81-207
Southcentral Region

Location
Located approximately 60 miles northwest of Anchorage and 7 miles east of Seward, north of the Yentna River.

Topo Map
USGS Quad Tyonek D-3

Access
Access to the subdivision is by float plane to one of several small lakes within the area or onto the Yentna River. Tract U of ASLS 80-137 is designated as a landing strip, condition of which is unknown. Access is also gained via the Yentna River by boat in the summer or snowmachine during the winter. The parcel is along a platted right-of-way, which may not have been constructed.

Terrain
The terrain is flat to moderately sloping, with an elevation of approximately 200 feet above sea level. The area is dotted with small lakes.

Soils
The area consists mostly of loamy type soils that vary from poor to good.

Vegetation
Vegetation in the area consists of birch on higher elevations, spruce forests on well-drained soils with no permafrost, and predominantly muskeg bogs in low lying open areas.

Water Frontage
None

View
Unknown

Climate
Average winter temperatures range from 30 to 33 degrees F; average summer temperatures range from 42 to 83 degrees F. Average annual precipitation is 39 inches, including 70 inches of snow.

Water Source
Water for domestic use may be obtained by rainwater roof catchment systems.

Water/Sewage Disposal
No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC). ADEC has approved this subdivision for pit privy solid waste disposal systems.

Utilities
None

Restrictions
Subject to all platted easements and reservations of record, see ASLS 81-207. This parcel may contain wetlands. Purchasers must obtain permits from the U.S. Army Corps of Engineers before placing any dredged or fill material in wetlands.

Municipal Authority
This parcel is located within the boundary of the Matanuska-Susitna Borough, a second class borough, and is subject to applicable local ordinances and property assessments.

Homowners Association
Any subsequent owner of any parcel within the subdivision automatically becomes a member of the homeowners association, if active. Covenants pertaining to this subdivision are recorded in Book 85, Page 172 and Book 85, Page 177 at the Talkeetna Recorder’s Office.

Other
A.dispelled cabs, outbuildings, and sheds are on this parcel. Any clean up or removal of these items will become the responsibility of the purchaser.

Note: It is the responsibility of the purchaser to review recorded subdivision plats/maps, surveys, and plat notes for specific information on easements, building setbacks, or other restrictions that will affect any individual parcel being offered. Additional information and maps are available at the Department of Natural Resources Public Information Office or on the web at: http://www.dnr.state.ak.us/landrecords

Vicinity Map
Township 21 North, Range 9 West, Section 5
Seward Meridian, Alaska

April 2005
Location: These parcels within the Beaver Creek Alaska Subdivision are located on the Kenai Peninsula on the north side of the Kenai Spur Highway, 4 miles east of the central business district of the City of Kenai.

Topo Map: USGS Quad Kenai C-3 & C-4

Access: Access to the subdivision is by the Kenai Spur Highway, then by platted rights-of-way. Currently, Minchumina Avenue has not been developed, and Eagle Street is only partially developed. Beaver Loop Road (notated as Shotgun Drive on City of Kenai maps) has been developed.

Terrain: Parcels are level or gradually sloping and are slightly below road grade.

Soils: Soils consist of combinations of Longmere, Soldotna and Nikishka silt loams, shallow to moderately deep silty material over thick deposits of gravelly and coarse sand.

Vegetation: Vegetation consists of mixed forest of spruce and aspen on some parcels and low bushes and grasses on others.

Water Front: None

View: Unknown

Climate: Average winter temperatures range from 4 to 22 degrees F; average summer temperatures range from 46 to 65 degrees F. Average annual precipitation is 28 inches.

Water Source: Public water service is available to lots adjacent to the Kenai Spur Highway.

Water/Sewage Disposal: No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC).

Utilities: Electricity, telephone, and natural gas service are available to the lots adjacent to the Kenai Spur Highway and Beaver Loop Road, but may need to be extended to the other parcels.

Restrictions: Subject to all platted easements and reservations of record, see EPF 3-9. The City of Kenai has zoned the lots adjacent to the Kenai Spur Hwy as General Commercial (GC). The remaining lots are zoned Rural Residential (RR). These parcels contain wetlands. Purchasers must obtain permits from the U.S. Army Corps of Engineers before placing any dredged or fill material in wetlands.

Municipal Authority: These parcels are located within the boundary of the Kenai Peninsula Borough, a second class borough and the City of Kenai, a home rule city, and are subject to applicable local ordinances and property assessments.

Homeowners Association: Any subsequent owner of any parcel within the subdivision automatically becomes a member of the homeowners association, if active.

Other: Parcels 1029, 1030, and 1033 are eligible for a Veterans Preference Auction. For more information about the qualifications, procedures, and restrictions of the Veterans Preference Auction, refer to the information in the narrative of this brochure.
Spring 2005 Alaska State Land Offering -- Auction #435

Map 11 - Bodenburg Creek Odd Lot, EPF 2003-26
Southcentral Region

Location

The parcel is located approximately 8 miles southeast of Palmer and 2 miles south of Bottle, near Bodenburg Creek.

Topo Map

USGS Quad Anchorage C-6

Access

Access is from the Old Glenn Highway and then east onto East Dilley Avenue. The parcel is located at the end of East Dilley Avenue.

Terrain

The parcel is generally flat.

Vegetation

Vegetation on the parcel is mixed black spruce, cottonwood, and alders.

Water Frontage

None

View

Potentially good views of the surrounding Chugach Mountains.

Climate

Average winter temperatures range from -35 to 33 degrees F; average summer temperatures range from 42 to 85 degrees F. Average annual precipitation is 17 inches, including 41 inches of snow.

Water Source

Unknown

Utilities

Electric and phone utilities are located near the parcel.

Restrictions

Subject to all platted easements and reservations of record, see EPF 2003-26.

Municipal Authority

This parcel is located within the boundary of the Matanuska-Susitna Borough, a second class borough, and is subject to applicable local ordinances and property assessments.

Homeowners Association

None

Note: It is the responsibility of the purchaser to review recorded subdivision plats/maps, surveys, and plat notes for specific information or requirements, building setbacks, or other restrictions that may affect any individual parcel being offered. Information is made available at the Department of Natural Resources Public Information Offices or on the web at: http://www.dnr.state.ak.us/landrecords.
Map 12 - Fox River Subdivision, Addition No. 1, ASLS 2003-36
Southcentral Region

The subdivision consists of a mix of black spruce and alders. The area is heavily affected by
surrounding glaciers and mountains.

Access to parcels within the subdivision is by
way, or across undesignated State lands.

None

Restrictions

Subject to all platted easements and reservations of record, see ASLS 2003-36.

Water Source

Unknown

Vegetation

The subdivision consists of a mix of black spruce and alders. The area is heavily affected
by spruce bark beetles. Caution should be taken when traveling through the dead fall.

Water Storage

None

Water/Seawage Disposal

No individual water supply system or sewage disposal system shall be permitted on any
lot unless such system is located, constructed, and equipped in accordance with the
requirements, standards, and recommendations of Alaska Department of Environmental
Conservation (ADEC).

borough, and is subject to applicable local ordinances and property assessments.

Homestead

Association

None

Other

A 2 story log home and several outbuildings are located on Parcel 1043. The improve-
ments have an appraised value of $347,000 and the land has an appraised value of $11,000.

Note: It is the responsibility of the purchaser to ensure recorded boundaries
match up, survey, and put under by special order of permission, a bundle
of title, or other instruments that will affect any individual parcel being offered.

This map is a product of the State of Alaska, Department of Natural Resources, Division
of Land. For more information contact the Homer Division of Mining, Land & Water Office at (907) 235-2024 to
schedule an appointment to view the improvements.
Glenallen is located about 180 road miles from Anchorage, in the Copper River Valley. This parcel is situated about 4 miles east of Glenallen, 1-1/2 miles east of the intersection of the Glenn Highway and the Richardson Highway, and about 1 mile west of the Copper River.

Access may be gained from the Richardson Highway utilizing platted easements or other dedicated access rights-of-way, which may not have been constructed.

Topography consists of generally flat terrain, with an elevation of about 1,450 feet above sea level.

Soils are fair but include discontinuous permafrost zones associated with black spruce stands and muskeg formations. This parcel contains very wet soils conditions.

Vegetation Well forested with black spruce and pockets of willow and aspen.

Water Front None

View Unknown

Climate This area is dominated by a continental climate zone, with long, cold winters and relatively warm summers. Average winter temperatures range from -16 to 35 degrees F; average summer temperatures range from 42 to 68 degrees F. Average annual precipitation is 9 inches, including 39 inches of snow.

Water Source Permafrost, mineralized hard water, and saline water may affect water availability and quality. Some residents haul their water from a public well in Glenallen. Natural gas has been encountered in well drilling, requiring flaring. Water for domestic use may be obtained by rainwater roof catchment systems.

Water/Sewage Disposal No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC). This parcel may not be suitable for conventional subsurface sewage disposal, in which case pit privies or alternative systems may be required.

Utilities None

Restrictions Subject to all platted easements and reservations of record, see ASLS 79-144.

Municipal Authority None

Homesteaders Association None

Other This parcel is subject to an oil and gas exploration license (ADL 389724).
There is a reasonable amount of beaver activity in the area, which may have a direct impact on the water tables of various lakes within the subdivision.

Sale: Any subsequent owner of any parcel within the subdivision automatically becomes a member of the homeowners association, if active. Covenants pertaining to this subdivision are recorded in Book 588, Page 954 at the Anchorage Recorder’s Office.

Utilities: None

Restrictions: Subject to all platted easements and reservations of record, see ASLS 80-154.

Municipal Authority: This parcel is located within the boundary of the Matanuska-Susitna Borough, a second class borough, and is subject to applicable local ordinances and property assessments.

Homeowners Association: Any subsequent owner of any parcel within the subdivision automatically becomes a member of the homeowners association, if active. Covenants pertaining to this subdivision are recorded in Book 588, Page 954 at the Anchorage Recorder’s Office.

Other: There is a reasonable amount of beaver activity in the area, which may have a direct impact on the water tables of various lakes within the subdivision.

Climate: Average winter temperatures range from 4 to 22 degrees F; average summer temperatures range from 42 to 83 degrees F. Average annual precipitation is 28 inches, including 70 inches of snow. The subdivision has good southern exposure, as the valley is oriented north-south.

Water Source: Water for domestic use may be obtained in a water well or a natural spring. Quality of the lake water is unknown.

Water/Sewage Disposal: No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC). ADEC has approved this subdivision for non-water carried type sewage disposal systems (i.e. pit privies, chemical, humus, incendiary, etc.).

Location: Located approximately 60 miles northwest of Anchorage, 32 miles southwest of Skwentna, 8 miles north of Beluga Lake, and just west of North Lake.

Access: North Lake can be accessed by float plane. Overland access is possible by snowmachine during the winter across unreserved state lands and existing public trails. The parcel is along a platted right-of-way, which may not have been constructed.

Terrain: This area has moderately steep slopes, with an elevation of about 3,500 feet above sea level.

Soil: An organic layer covers 2 to 3 feet of wind blown silt with sand and gravel at deeper depths. Ground water is present at a 5 foot minimum depth throughout most of the area.

Vegetation: The well drained areas consist of a mixed forest of alder, birch, cottonwood, white spruce, and willow. Low lying areas primarily consist of low brush and grassy bogs.

Water Front: This parcel has water frontage on North Lake.

View: Potentially excellent views of North Lake and surrounding mountains.

Map 15 - Hiline Lake Odd Lots, ASLS 91-191 and ASLS 91-257
Southcentral Region

Access to the area is by float plane during the summer and ski plane during the winter. Conditions of landing areas are unknown. Outer access may be possible by snowmachine during the winter across unreserved State land and reserved public trails.

Location
Located approximately 60 miles northwest of Anchorage and 18 miles southeast of Skwentna, in the Talachulitna River drainage.

Topo Map
USGS Quad Tyonek C-4

Terrain
Nearly level to gently rolling along the shoreline of Hiline lake giving way to steep rugged terrain, with elevations ranging from 800 to 1,000 feet above sea level.

Soil Surface
Soils in the area consist of well-drained soils that occur extensively in the low hills, terraces, and the outwash plains. Also present are very poorly drained fibrous organic soils in depressions in and between glacial moraines and low parts of terraces and floodplains.

Vegetation
Area vegetation includes forests dominated by white spruce and paper birch in parts of terraces and floodplains.

Water Source
Water for domestic use may be obtained by rainwater roof catchment systems.

Water/Sewage Disposal
No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC).

Utilities
None

Restrictions
Subject to all platted easements and reservations of record, see ASLS 91-257 and ASLS 91-191.

Municipal Authority
These parcels are located within the boundary of the Matanuska Susitna Borough, a second class borough, and are subject to applicable local ordinances and property assessments.

Homesteaders Association
None

Other
A collapsed shed and debris may be located on Parcel 1046. Any clean up or removal of these items will become the responsibility of the purchaser.

Parcel # 1057

Hiline Lake Odd Lots

Hiline Lake Odd Lots

Note: It is the responsibility of the purchaser to review recorded subdivision information offices or on the web at: http://www.dnr.state.ak.us/landrecords.
This parcel is located on the west shore of the Yentna River, about 13 miles northwest of the confluence with the Susitna River, approximately 63 miles northwest of Anchorage, 23 miles southeast of Seward, and 3 miles downstream from Yentna Station.

This parcel is subject to an oil and gas exploration license (ADL 390078).

This parcel is located within the boundary of the Matanuska-Susitna Borough, a second class borough, and is subject to applicable local ordinances and property assessments.

This parcel is subject to an oil and gas exploration license (ADL 390078).
Spring 2005 Alaska State Land Offering -- Auction #435

Map 17 - Lake Louise Small Lot, USS 3503
Southcentral Region

PARCEL # 1063
LANDS (ADL) # 216646

Location
This parcel is located along the west shore of Lake Louise, about 32 miles northwest of Glennallen and 136 miles northeast of Anchorage.

Access
Overland access to Lake Louise is via Lake Louise Road from milepost 154.8 of the Glenn Highway. Lake Louise Road heads north 19.3 miles to the south end of Lake Louise. Boat access from the end of Lake Louise Road to the lake can often be dangerous as the lake is susceptible to strong wind and wave action. Airplane access to Lake Louise is also possible. There is a state owned gravel airstrip located at the south end of Lake Louise.

Terrain
The elevation of Lake Louise is 2,362 feet above sea level. This parcel has slopes that steeply rise from lake level.

Soils
Soils may contain permafrost in some areas.

Vegetation
The vegetation around the lake contains stunted spruce on the wetter slopes that steeply rise from lake level.

Water Front
This parcel has water frontage on Lake Louise.

View
Potentially excellent view of Lake Louise and the Wrangell and Talkeetna Mountains.

Climate
Average winter temperatures range from -9 to 34 degrees F; average summer temperatures range from 38 to 62 degrees F. Average annual precipitation is 17 inches, including 50 inches of snow.

Water Source
Water for domestic use may be obtained by rainwater roof catchment systems. Quality of the lake water is unknown.

Water/Sewage Disposal
No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC). ADEC has approved this subdivision for non-water carried sewage disposal systems (e.g. chemical, humus, incendiary, etc.).

Utilities
None

Restrictions
Subject to all platted easements and reservations of record, see USS 3503. This parcel is also subject to a 50 foot public access easement along the ordinary high water mark and a 25 foot public access and utility easement on all upland lot lines.

Municipal Authority
This parcel is located within the boundary of the Matanuska-Susitna Borough, a second class borough, and is subject to applicable local ordinances and property assessments.

Homeowners Association
None

MINIMUM BID $25,000

ACRES 4.220

Note: It is the responsibility of the purchaser to review recorded subdivision plats, easements, and other documents that affect any individual parcel being offered. Note: It is the responsibility of the purchaser to review recorded subdivision plats/maps, surveys, and plat notes for specific information on easements, building setbacks, or other restrictions that will affect any individual parcel being offered. Information to locate available at the Department of Natural Resource Public Information Office or on the web at: http://www.dnr.state.ak.us/landrecords.

Page 28
April 2005
This subdivision is located within the Copper River Valley east of the Richardson Highway, approximately 8 miles south of Copper Center.

Access

Access is provided by the Richardson Highway, which fronts the western side of the subdivision. Willow Loop Road and Birch Road provide easterly access off the Richardson Highway. Willow Loop Road is improved as a two-lane, gravel road to Parcel 1066, where it becomes a dirt four-wheeler trail. Birch Road is a single-lane, gravel road. All parcels are along platted road rights-of-way, which may not have been constructed.

Terrain

The terrain is generally flat, with an elevation of about 1,450 feet above sea level.

Soils

Sandy gravel and sandy silty material dominate the area. Permafrost is prevalent in some areas of the subdivision.

Vegetation

Vegetation consists of spruce forest broken up with muskeg formations.

Water Front

None

View

Unknown

Climate

Average winter temperatures range from -22 to 27 degrees F; average summer temperatures range from 39 to 68 degrees F. Average annual precipitation is 10 inches, including 39 inches of snow.

Water Source

Water availability may be affected by low yields, permafrost, mineralized ‘hard’ water, and sporadic areas of saline waters. Water for domestic use may be obtained by rainwater roof catchment systems.

Water/Sewage Disposal

No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC).

Utilities

Electricity and telephone service extends along Willow Loop Road from the Richardson Highway to Parcel 1066 and would have to be extended to the other parcels.

Restrictions

Subject to all platted easements and reservations of record; see ASLS 79-122.

Homeowners Association

Any subsequent owner of any parcel within the subdivision automatically becomes a member of the homeowners association, if active.

Other

Trails going through private property within the subdivision are not to be used without the express permission of the current landowners.
Northern Region

Map 20 - Cascaden Subdivision, ASLS 86-98

Spring 2005 Alaska State Land Offering -- Auction #435

Location

The subdivision is located approximately 83 miles northwest of Fairbanks and 5 miles south of Livengood, between mile 77 and mile 82 of the Elliott Highway.

Topo Map

USGS Quad Livengood B-4

Access

Access to the subdivision is via the Elliott Highway and then via Last Chance Road, which intersects the Elliott Highway at approximately Milepost 78.2. Last Chance Road has been partially constructed through Block 6; be careful to avoid trespassing on driveways leading from Last Chance Road to privately-owned lots. Where not yet constructed, the wonders of Last Chance Road and Bridge Court have been cleared of vegetation to better locate the rights-of-way.

Terrain

The subdivision lies primarily on a south facing slope with elevation ranging from 900 to 1,500 feet above sea level.

Soils

Soils are generally well drained. Discontinuous permafrost may be present in some areas.

Vegetation

Primarily open hardwood stands, with some small pockets of black and white spruce.

Water:

Surface

Unknown

Water/Sewage Disposal

No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC).

Utilities

Telephone service is available to portions of the subdivision. Service to individual lots will need to be established.

Restrictions

Subject to all platted easements and reservations of record, see ASLS 86-98. Driveways must be established from dedicated rights-of-way within the subdivision.

Municipal Authority

None

Homeowners Association

Any subsequent owner of any parcel within the subdivision automatically becomes a member of the homeowners association, if active.

Other

The subdivision is in "Full" fire management option. The Alaska Wildland Fire Management Plan is updated annually; contact the Division of Forestry for updated information regarding management options.

Water/Sewage Disposal

No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC).

Utilities

Electricity is available along Tanana Loop Extension, but may need to be extended to this particular parcel.

Restrictions

Subject to all platted easements and restrictions of record, see ASLS 80-6. This parcel is also subject to a 100 foot public access easement along the east lot line (ADL 400062).

Municipal Authority

None

Homeowners Association

Any subsequent owner of any parcel within the subdivision automatically becomes a member of the homeowners association, if active.

Other

This subdivision is located adjacent to an area of large-scale agricultural development. Farming activities include traffic, livestock production, and the use of fertilizers and pesticides. This parcel is within proximity to the former Haines-Fairbanks Military Pipeline Corridor, a potential hazard. For more information on this potential hazard visit this website: http://www.state.ak.us/doc/spar/csp/sites/haines_far_pipeline.htm. The parcel is in a “Critical” fire management option. The Alaska Wildland Fire Management Plan is updated annually; contact the Division of Forestry for updated information regarding management options.
Map 23 - Goldstream AK Subdivision, ASLS 79-163
Northern Region

Location: Located 8 miles north of Fairbanks, in Goldstream Valley, off of Goldstream Road.

Topo Map: USGS Fairbanks D-2

Access: From Fairbanks, take the Steese Highway north to Goldstream Road. Turn left onto Goldstream Road and continue to Ballina Road. The parcel is along this platted road right-of-way, which has been constructed.

Terrain: This subdivision is moderately sloping, with elevations ranging between 800 and 1,200 feet above sea level.

Soils: Soil profile includes Fairbanks series, Ester series, and Minto series.

Vegetation: Birch, willow and black spruce are dominant in the area south of Goldstream Road.

Water Frontage: None

Access: This platted road right-of-way, which has been constructed.

Utilities: Electricity is available along Ballina Road, but may need to be extended to this particular parcel.

Water Source: Unknown

Waterfrontage: Unknown

Township 3 North, Range 1 East, Section 6
Fairbanks Meridian, Alaska
Spring 2005 Alaska State Land Offering -- Auction #435

Map 25 - McCloud Subdivision, ASLS 82-157
Northern Region

Location: This subdivision is located approximately 12 miles northwest of Fairbanks, approximately 9 miles east of Murphy Dome.

Type Map: USGS Quad Fairbanks D-2 and D-3

Access: Access can best be obtained by taking New Murphy Dome Road to Spinach Creek Road, then following Spinach Creek Road until it dead ends at Old Murphy Dome Road. Follow Old Murphy Dome Road east approximately 3 miles to the subdivision. Turn left onto McCalf Street into the subdivision. Turn left onto McCall Street into the subdivision. The parcel is in 'Full' fire management option. The Alaska Wildland Fire operations are currently active along Our Creek, to the east of the subdivision.

Terrain: The terrain in this area is variable, with moderate to steep slopes and an elevation ranging from 1,000 to 2,500 feet above sea level.

Soils: Soils primarily contain Fairbanks silt loam with some sand and gravel. Permafrost is likely present.

Vegetation: Vegetation in the area is mostly black spruce and a thick ground cover of mosses, lichen, and willows. The drainages are brushy with willows, alders, and small spruce. Some slopes support small stands of aspen. This parcel is forested with dense black spruce.

Water Front: None

View: Unknown

Climate: Average winter temperatures range from -46 to 50 degrees F; average summer temperatures range from 30 to 99 degrees F. Average annual precipitation is 11 inches, including 68 inches of snow.

Water Source: The Division of Geological and Geophysical Surveys has cautioned that groundwater may contain arsenic. Wells are expected to be deep.

Water/Sewage Disposal: No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC). ADEC has approved this subdivision for on-lot sewage disposal systems.

Utilities: Unknown

Restrictions: Subject to all platted easements and reservations of record, see ASLS 82-157. This parcel may contain wetlands. Purchasers must obtain permits from the U.S. Army Corps of Engineers before placing any dredged or fill material in wetlands.

Municipal Authority: This parcel is located within the boundary of the Fairbanks North Star Borough, a second class borough, and is subject to applicable local ordinances and property assessments.

Homeowners Association: Any subsequent owner of any parcel within the subdivision automatically becomes a member of the homeowners association, if active.

Other: A burned trailer and debris are on this parcel. Any clean up or removal of these items will become the responsibility of the purchaser. Placer mining operations are currently active along Dur Creek, to the east of the subdivision area. The parcel is in 'Full' fire management option. The Alaska Wildland Fire Management Plan is updated annually; contact the Division of Forestry for updated information regarding management options.

Northern Region

Map 27 - Tatalina Subdivision, ASLS 2003-14

Spring 2005 Alaska State Land Offering -- Auction #435

Location
Tatalina Subdivision is located approximately 4 miles north of Fairbanks and 30 miles southwest of Livermore along the Elliot Highway.

Topo Map
USGS Quad Livingston B-3.

Access
Access to the subdivision is via Alyeska Pipeline Access Road, AK-413184, at approximately mile 41 of the Elliot Highway. This road is closed on AS 413200-14 as Roosevelt Road. Direct access to lots within Blocks 9 and 10 are from Pinchot Drive and Livingston Circle. Direct access to lots within Blocks 7 and 8 is from Linda’s Lane, Charles Lyle Loop and Berry Circle. Interior subdivision roads, except for Roosevelt Road, have not been constructed.

Terrain
This subdivision is situated on lands overlooking the Tatalina River valley and the Globe Creek valley. A small unnamed tributary of the Tatalina River runs through the western portion of the subdivision. The subdivision lies primarily on a south facing slope with elevation ranging from 500 to 1,400 feet above sea level. This subdivision is located within 5 miles of Grapeland Rocks, a popular rock-climbing area.

Soils
Soils are generally well drained. Discontinuous permafrost may be present in some areas.

Vegetation
Primarily open hardwood stands, with some pockets of spruce understory.

Water/Sewage Disposal
No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC).

Utilities
None

Restrictions
Subject to all platted easements and reservations of record, see ASLS 2003-14. Individual driveways must be established from dedicated rights-of-way within the subdivision, and may not directly access Roosevelt Road or the Elliot Highway. Roosevelt Road, which provides access to the Trans-Alaska Pipeline west of this subdivision, is gated west of the intersection with Linda’s Lane and Pinchot Drive.

Municipal Authority
None

Homeowners Association
Any subsequent owner of any parcel within the subdivision automatically becomes a member of the Tatalina Subdivision homeowners association, if active.

Other
The subdivision is in "full" fire management option. The Alaska Wildland Fire Management Plan is updated annually; contact the Division of Forestry for updated information regarding management options. Land uses in the area surrounding this subdivision include mining, hunting, fishing, trapping, and hiking. The Trans-Alaska Pipeline runs west of this area, and is visible from elevated portions of the subdivision. Proposed Natural Gas pipeline corridors (AK-413142 and AK-403427) are also in the vicinity of Tatalina Subdivision. For more information regarding proposed gas line routes, contact the State Pipeline Coordinator’s Office.

Northern Region
Spring 2005 Alaska State Land Offering -- Auction #435
Telkanika Channel Lake Subdivision, ASLS 81-58

Location
Telkanika Channel Lake Subdivision is located approximately 15 air miles southwest of Nenana and 3 miles west of the Telkanika River.

Topsoil
USGS Quads Fairbanks 6-6
Access
Access is available by airplane and float plane, and by snowmachines via the Nenana-Kantishna Trail and other existing trails, including a well-established seismic line trail (application ADL 417341) which runs northeast from the Nenana-Kantishna Trail and passes within 1/2 mile of the subdivision. Due to fluctuating lake levels, pilots should carefully inspect conditions before landing float planes.

Terrain
Lots are situated back from the shores of Telkanika Channel Lake. The subdivision is generally level, with elevation ranging from 420 to 460 feet above sea level.

Soils
Soils are generally a well-drained sandy-loam, with some sand found at 2 to 4 feet. Care should be taken not to expose this underlying sand because wind erosion may be experienced. Although discontinuous permafrost may be present, the soils investigation did not encounter any ice.

Vegetation
Lots are primarily situated in open hardwood stands, with some patches of spruce understory. Deciduous willow thickets and bogs are present within the vicinity of the subdivision.

Waterfrontage
None. Subdivision lots are set back from the lake shore, which is marshy.

View
View of the surrounding tundra, with potential views of the Telkanika Channel Lake from many lots.

Climate
Average winter temperatures range from -20 to 30 degrees F; average summer temperatures range from 30 to 72 degrees F. Average annual precipitation is 11 inches.

Water Source
Water quality unknown. Wells are expected to be shallow.

Water/Drainage
No individual water supply system or sewer disposal system shall be permitted on any lot unless such system is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC).

Utilities

Location
This subdivision is located approximately 18 miles north of Fairbanks, west of the Elliott Highway.

Topo Map
USGS Quad Livengood A-2

Access
From Fairbanks, go to mile 6 of the Elliott Highway and turn left onto Vault Drive.

Terrain
Terrain within the subdivision is hilly with slopes facing the south and southwest, with elevations ranging from 950 to 1,200 feet above sea level.

Soils
Soils are reported to be good for residential development.

Vegetation
Vegetation in this area consists of birch and aspen trees.

Water Front
None

View
Unknown

Climate
Average winter temperatures range from -22 to 26 degrees F; average summer temperatures range from 35 to 65 degrees F. Average annual precipitation is 15 inches.

Water Source
Unknown. There are suspected high concentrations of arsenic in the ground water supply.

Water/Sewage Disposal
No individual water supply system or sewage disposal system shall be permitted on any lot unless such systems is located, constructed, and equipped in accordance with the requirements, standards, and recommendations of the Alaska Department of Environmental Conservation (ADEC).

Utilities
Unknown

Restrictions
Subject to all platted easements and reservations of record, see ASLS 80-189. This parcel may contain wetlands. Purchasers must obtain permits from the U.S. Army Corps of Engineers before placing any dredged or fill material in wetlands.

Municipal Authority
This parcel is located within the boundary of the Fairbanks North Star Borough, a second-class borough, and is subject to applicable local ordinances and property assessments.

Homeowners Association
Any subsequent owner or any parcel within the subdivisions automatically becomes a member of the homeowners association, if active.

Other
There are active mining claims in the vicinity of this subdivision. A burned cabin and/or foundation may be present on this parcel. Any clean up or removal of these items will become the responsibility of the purchaser. The parcel is in a "Critical" fire management option. The Alaska Wildland Fire Management Plan is updated annually; contact the Division of Forestry for updated information regarding management options.
Over-The-Counter Parcels Available

The Department of Natural Resources currently has over 2,600 parcels available for purchase. Over-The-Counter on a first-come, first-served basis. These parcels are offered at the minimum bid price and are located throughout the state. For a complete listing of available parcels and purchase information, go to any one of our Public Information Offices, or go to our website at www.dnr.state.ak.us/mlw/landsale/otc/.

How to Submit an Over-The-Counter Application On-line

To apply for a parcel on-line, go to www.dnr.state.ak.us/landsale and follow the appropriate link. The on-line application process will ask for a MasterCard or Visa credit card authorization.

How to Submit an Over-The-Counter Application by Mail or in Person

A complete Over-The-Counter application package (for mailing or hand delivery) includes the following items:

- A completed Over-The-Counter application form.
- A completed Declaration of Intent form.
- A non-refundable $100.00 document handling fee.
- A down payment. Must be at least five percent (5%) of the purchase price (minimum bid amount from the brochure). DO NOT ROUND DOWN!
- Must be in the form of a cashiers check, personal check, money order, or Visa/MasterCard payment information and authorization, payable to the Department of Natural Resources. Two-party checks will not be accepted. DO NOT SEND CASH!
- VETERANS PLEASE NOTE: If you will be applying for the Veterans Land Discount (AS 38.05.940), DO NOT subtract your discount from your down payment. If you are a successful applicant, and you are an eligible veteran who has applied for the Veterans Land Discount, the discount will be deducted from the purchase price.
- A completed Veteran Eligibility Affidavit.
- A copy of the applicant’s Form DD 214, Report of Separation from Active Duty, or the equivalent, showing the character of the discharge and length of active duty.
- A completed Waiver of Veterans Discount form, if there is more than one applicant.
- Proof of Alaska residency.
STATE OF ALASKA - DEPARTMENT OF NATURAL RESOURCES - DIVISION OF MINING, LAND & WATER
SPRING 2005 ALASKA STATE LAND AUCTION #435 - AUCTION BID FORM

Please read all the information in the Spring 2005 Alaska State Land Offering Brochure before completing this form. Please PRINT LEGIBLY when filling out this form and sign the certification below.

☐ Name(s):

Authorized Agent (if any):

Mailing Address: ____________________________________________________________

City: __________________________ State: __________________________ Zip Code: __________________________

Daytime Telephone Number: __________________________ Alternate Number: __________________________

Bidder for state land parcels must be Alaska residents for at least one year immediately preceding the date of the auction (May 25, 2005) and must be 18 years of age or older on or before the date of the auction. Corporations, businesses and non-Alaska residents are NOT eligible to bid for parcels at the Sealed-bid Auction, but they are eligible to apply for state parcels in the Over-the-Counter Sale.

☐ I hereby submit a bid to purchase Parcel # __________

☐ The amount of my bid is (please write out the amount in words and numbers): ____________________________________________________________

$ __________________________

Dollars____________

BIDS LOWER THAN THE MINIMUM BID AMOUNT WILL BE REJECTED

The amount of my bid deposit is $ __________________________ (minimum 5% of the bid amount – ROUND UP!)

☐ I have enclosed a personal check, money order, cashier’s check, or a certified check, payable to the Department of Natural Resources, or have provided Visa or MasterCard information and authorization for payment, in an amount not less than five percent of the bid amount as a bid deposit to purchase the above described parcel. I agree that the bid amount represents the purchase price that I shall pay for the parcel if my offer is accepted. I further agree that the bid deposit also constitutes a deposit required under AS 38.05.860(a) to reimburse the department for costs incurred in the disposal, and an earnest money deposit required under AS 38.05.860(b). If my offer is accepted, and for whatever reason I decide not to purchase the parcel, I understand that this bid deposit shall be forfeited as earnest money to the State of Alaska.

By my signature below, I hereby certify that:

• I have been an Alaska resident for at least one year immediately preceding the date of the auction;
• I am 18 years of age or older;
• I have checked for any errata or supplemental information and accept the terms and conditions therein, and;
• I am making an unconditional promise to pay, on demand or on the date of acceptance of this bid, a bid deposit of at least 5% of the bid amount, to the order of the Department of Natural Resources.

By signing below, I also acknowledge that if I am the successful bidder and do not meet the qualifications for a purchase contract listed below, I must pay the bid amount in full.

• I have not held a purchase contract or lease issued by the department that has been administratively closed or terminated for cause within the past three years;
• I am not currently in default for nonpayment on a purchase contract or lease issued by the department, and;
• I have not been notified that I am in default for nonpayment of municipal taxes or assessments on a purchase contract or lease issued by the department.

☐ Signature: __________________________ Date: __________________________

☐ Signature: __________________________ Date: __________________________

NOTE: This bid form must be filled out completely and submitted with all of the appropriate attachments and fees. Failure to do so may result in the rejection of your bid. AS 38.05.035(a) authorizes the director to decide what information is needed to process an application for the sale or use of state land and resources. This information is made a part of the state public land records and becomes public information at the time the bid is opened under AS 40.25.110 and 40.25.120 (unless the information qualifies for confidentiality under AS 38.05.035(a)(9) and confidentiality is requested). Public information is open to inspection by you or any member of the public. A person who is the subject of the information may challenge its accuracy or completeness under AS 44.99.310, by giving a written description of the challenged information, the changes needed to correct it, and a name and address where the person can be reached. False statements made in an application for a benefit are punishable under AS 11.56.210.

CREDIT CARD USERS: This authorization constitutes an unconditional promise to pay the bid deposit amount, if you are the successful bidder. This authorization includes consent to adjust the amount charged if the amount you specify is less than the required 5% of the bid amount. Your credit card will not be charged unless you are the successful bidder when all bids are opened. All credit card information will be destroyed immediately following the auction and will not become public information. Please print information clearly.
