Creek Bend House

The Creek Bend House offers Alaskan residents the opportunity to own a residential property within an hour of Anchorage, and just minutes from Wasilla and Palmer. The property is located off the Old Glenn Highway at MP 5.25 near the Ekultna Tail Race and Knik River Public Use Area. These areas provide a wide variety of opportunities to ATV, bike, boat, hunt, fish and hike. It is minutes away from Palmer and Wasilla, which provide access to grocery stores, emergency services and much more. The address is 10585 S. Old Glenn Highway.

View of living room and kitchen island from the backside of the kitchen. The entryway can be seen to the left, which gives a perspective of one bedroom. One full bath and an additional bedroom are to the right of that first bedroom.
Background:
The 5-acre parcel and the structures located on it are state property suitable for settlement, specifically residential use. For USS 3070, federal patent 1144258 was issued to a private individual, May 4, 1954. Less than a month later, that owner conveyed his interest via Quitclaim Deed date June 2, 1954 to another private party. Pursuant to Alaska Land Registration Law of 1953, the State of Alaska received title to the property via foreclosure on November 3, 1958. In 2004, descendants of the first private landowner returned to the property, without authorization or permission and built a home in trespass. In 2015, these same individuals filed a DNR Application for a preference right to purchase state land (ADL 232243). DNR found that the applicants did not qualify for a preference right, and the application was denied. After denial of the preference right, occupancy continued and the individuals asserted an equitable interest in the home built upon the property. DNR disputed this claim and intiated a formal trespass action (ADL 232402). One of the individuals intiated a pro se lawsuit against several parties, including the state. The case was dismissed on August 2, 2016 by the Alaska Superior Court. No subsequent lawsuits have been filed. The property was determined to be vacated on September 12, 2016 and has remained vacated since that time.

A rust stain on the side of garage was left by one of the aboveground storage tanks, which was removed from the property.
## Creek Bend House

### LOCATION

The Creek Bend House is located 35 miles north of Anchorage and 8 miles south of Palmer, at mile post 5.25 of the Old Glenn Highway, 10585 S. Old Glenn.

### ACCESS

Access to the parcel is from the Old Glenn Highway onto a gravel driveway.

### AMENITIES

The lot includes a 2516 sq. ft, single family house and 600 sq. ft cabin. The home includes 3 bedrooms and 2.5 baths. The frame is wood construction and concrete block foundation. It also has a laundry room, ample closet space, storage areas and a pantry. The main house is single story, the 2-car garage has a second story.

The house and cabin are connected to the local electrical grid. The well is approximately 157 ft deep, the static water level is 122.9 ft and the pump rate is 5.3 gpm. A water right has been filed for this property by DNR. The application requested a total of 500 gpd for the single family home and 250 gpd for the cabin. DNR will transfer the water right at time of patent to the new land owner. The house is heated by forced air, powered by an oil furnace. The existing septic tank outfall is discharged to an on-site absorption system.

### RESTRICTIONS

Easements affecting this parcel, as depicted on the as-built survey, may include, but are not limited to, utility easements. Information on restrictions, easements, reservations, and setbacks may be depicted on the as-built survey, the United States Survey, or be recorded separately.

### ATTENTION

There is a utility only access road that crosses the property from the Old Glenn Highway to the south boundary. The utility lines on and across the property were constructed without authorization. Several items have been removed from the main house, including but not limited to; the fuel oil tank, propane tank, all the kitchen cabinets, kitchen appliances, the wood stove and the sink and vanity for one of the bathrooms. DNR may be replacing the missing fuel tank before the auction. There is a potential RS 2477 route across this parcel, serialized as RST 2002. The location and status of this potential trail is subject to further research and adjudication. As with any other public or private land, if an RS 2477 is determined to exist, the property will be subject to the applicable 100’ ROW along this route.

### LOCAL GOVERNMENT

This area is within the boundary of the Matanuska-Susitna Borough and is subject to applicable platting authority, local ordinances and property assessments. Local ordinances may impose setbacks, easements, or restrictions in addition to those mentioned under Restrictions above. Please check with the borough for details of current ordinances.

### NOTES

No Warranty of Suitability or Fitness

Important: In accordance with 11 AAC 67.022 No Warranty Implied, by selling, granting, or leasing land, the state does not give or imply any warranty as to the land’s fitness, use, or suitability, or whether public utilities or services will be provided. It is the responsibility of the purchaser, grantee, or lessee to determine whether the land will meet their needs.

Parcels are sold AS IS and WHERE IS with all faults, and in the condition as of the date of the sale. The State of Alaska makes no warranty, expressed nor implied, nor assumes any liability whatsoever regarding the social, economic, or environmental aspects of the parcel, including, without limitation, the soil conditions, water drainage, access, or natural or artificial hazards that may exist, or the profitability of the parcel.

It is your responsibility to inspect the property and be thoroughly acquainted with its condition prior to bidding or applying for a lease, contract, or patent. It is also the responsibility of all interested parties to determine and consider encumbrances, or the possibility of encumbrances, that may affect the use of the property, including those of record or apparent by inspection of the property, in your decision to enter into a lease, contract, or purchase.

Additional Information

Inspection Reports: Home inspection, well and septic inspections, cost to cure report, and an appraisal have been conducted. The minimum bid is representative of the inspection results, which reflect the known defects and current state of the property. Check for errata prior to bidding. Please visit our website for more information; http://landsales.alaska.gov.

Disclosures: In accordance with AS 34.70.010 Disclosures in Residential Real Property Transfers and AS 34.70.110 Waiver by Agreement, bidders agree that no disclosure is required and none will be provided. The winning bidder will be required to sign a Waiver by Agreement, to be submitted with the Declaration of Intent prior to contract or patent issuance. See page 20 for a sample document.

RST: There is a potential RS 2477 route across this parcel, serlized as RST 2002. The location and status of this potential trail is subject to further research and adjudication. As with any other public or private land, if an RS 2477 is determined to exist, the property will be subject to the applicable 100' ROW along this route.

Condition of House: Several items have been removed from the main house, including but not limited to; the fuel oil tank, propane tank, all the kitchen cabinets, kitchen appliances, the wood stove and the sink and vanity for one of the bathrooms. DNR may be replacing the missing fuel tank before the auction.

AS IS/WHERE IS

The encroaching well in trespass and unauthorized powerline issues are being passed on to the buyer under the AS IS and WHERE IS.

For the purposes of appraising, hypothetical conditions for the appraisal report included 1) the powerlines were authorized, and 2) the encroaching well was not considered.

A copy of the appraisal is available upon request. Please call 907-269-8594.

The encroaching well and unauthorized powerline issues are viewed as conditions that can be remedied in an expedient fashion after the purchase of the subject and prior to market financing (if desired). The market value is predicated on the hypothetical condition that all have been cured by easements issued prior to conveyance by the state. Regardless, the subject is being sold “as is” and “where is” with identified encumbrances in place.

If your bid for a parcel submitted within the designated bidding period contains an error, you may lose eligibility to win the opportunity to purchase the parcel in the Sealed-Bid Auction. You may submit a new bid during the designated bidding period to correct an error on your bid, change the amount of your bid (as long as it is equal to or greater than the parcel's minimum bid), add bidders to your party, or remove bidders from your party (see the “Multiple Bidders Bidding Together in the Sealed-Bid Auction” section of this brochure for more information). If you submit a bid for the same parcel, only the MOST RECENTLY RECEIVED, VALID bid will be considered, even if you submitted a higher or duplicate bid at an earlier time or a later bid with an error.

You may not attempt to influence bidding by others, conspire with other purchasers to reduce the price of a parcel, or otherwise act to defeat or manipulate an open, fair-market bidding process. **If you provide false information on forms or other required documents, you may be prosecuted to the full extent of the law.** In addition to any other penalties prescribed by law, you will forfeit monies paid and may lose all opportunity, right, title, and interest in the land.

Anyone who misrepresents him/herself as owner of any of these parcels of land or who wrongfully represents that he or she has any legal rights to these parcels may be engaged in a fraudulent practice and may be prosecuted to the full extent of the law. If you are approached by someone or become aware of someone who claims any ownership or other legal rights in these parcels, immediately report the incident to a DNR Public Information Center and provide any information you have.

Multiple Bidders Bidding Together

Two or more individuals may jointly submit a bid in the auction. **ALL BIDDERS MUST BE ALASKA RESIDENTS and meet all other requirements.** All individuals whose names are on the bid will be required to submit proof of residency. Please see the “Proof of Residency” section for details of what is acceptable proof of residency.

Names may not be added or deleted after the bid has been submitted. All individuals whose names appear on the bid will appear on the land sale contract or patent. **Any changes between the individuals on the bid and the contract or patent require an assignment form and payment of the $100 assignment fee.**

Qualifying for Land Sales Programs
Participants in all State of Alaska Land Sales programs must be age 18 or older. To be eligible to bid in the Sealed-Bid Auction or stake a parcel in the RRCS program, you must be a current Alaska resident. You need not be an Alaska resident or even a United States Citizen to participate in Over-the-Counter sales. Businesses purchasing land must be registered in the State of Alaska.

Alaska Residents ONLY May Participate
To be eligible to bid in the Sealed-Bid Auction or stake a parcel in the RRCS program, you must be a current Alaska resident as defined by AS 01.10.055 Residency. This statute defines a person's establishment of residency as "being physically present in the state with the intent to remain in the state indefinitely and to make a home in the state." You must have been a resident of Alaska for at least one year (12 months) immediately preceding the date of the auction or drawing (AS 38.05.055 Auction Sale Procedures, 11 AAC 67.800(a) Qualifications for Remote Cabin Site).

You are not allowed to claim Alaska residency during any period that you claimed residency in another state, were registered to vote in another state, or claimed another state or nation as your residence for purposes such as taxes, school tuition, or benefits, including obtaining a driver’s license from another state.

If you are a member of the Armed Forces of the United States or were during any part of the one-year residency period, you must either have been an Alaska resident prior to enlisting and maintained your Alaska residency, or have taken some affirmative action to make Alaska your residence, such as registering to vote or paying local property taxes on property you personally own as a residence for at least one year immediately preceding the date of auction. Filing a DD Form 2058 State of Legal Residence Certificate is not sufficient proof of Alaska residency on its own. If you collect overseas pay for being stationed in Alaska, or claim some other state as your residence for purposes such as taxes, school tuition, or benefits, including obtaining a driver’s license from another state, you do not qualify as an Alaska resident for this program.

**Proof of Residency**

Only Alaska residents may submit bids in the Sealed-Bid Auction or applications for the Remote Recreational Cabin Sites (RRCS) drawing. In addition, you must prove Alaska residency to qualify for a Veterans’ Discount.

In accordance with AS 01.10.055 Residency and 11 AAC 67.005-.010 Disposal of Land Administrative Provisions (and 11 AAC 67.800 (a) Qualifications for Remote Cabin Site), you must show you were physically present in Alaska the one year (12 months) prior to the date of the auction, the date of your RRCS drawing application, or the date of Over-the-Counter purchase, if applying for a Veteran’s Discount, with the intent to remain indefinitely. It is your obligation to prove that you are eligible for the program you wish to participate in.

All documents submitted as proof of residency must have dates clearly showing that you are currently an Alaska resident and that you were a resident of Alaska from one year prior to the date of the auction with intent to make a home and remain in the state indefinitely.

Failure to prove Alaska residency under these terms will result in the loss of your opportunity to participate in the offering and may result in the forfeiture of some or all of your deposit and fees. You are strongly encouraged to gather the required documentation well in advance of the required date of submission.

Proof of residency must include:

1. **A copy of your valid and current Alaska Driver’s License or State-issued ID card.** If you do not have a valid, current Alaska Driver’s License or State ID card, please contact DNR Land Sales before bidding or applying to inquire about acceptable substitutions for this requirement. If you have a driver’s license or ID card issued by another state, you are not considered an Alaska resident for the purposes of these programs.

2. **AND ONE of the following items:**
   1. Alaska Permanent Fund Dividend confirmation of eligibility or confirmation of receipt of funds;
   2. Employment, unemployment, or military records;
   3. Current and valid occupational licenses issues by the State of Alaska;
   4. Income tax records showing employment in Alaska; or
   5. School records.

The Director may accept other forms of proof. Applicants are required to submit as many items of proof of residency as needed to document the minimum, one full year of Alaska residency. If you are relying on an item not specifically listed above or have questions about residency, please contact the Land Sales team at (907) 269-8594 or email landsales@alaska.gov, before bidding in the auction or applying for a Veterans’ Land Discount.

To confirm PFD eligibility or payment, follow these directions:

2. Click on the blue “myPFD” button.
3. Click on the blue “Yes, proceed.” button.
4. On the “myPFDInfo Application Search” page, choose the most recent year as the Dividend Year, and fill in the remaining Applicant Details fields with your personal information.
5. Click the “Submit Search” button.
6. After the screen loads, print, photograph, or take a screenshot of the “PFD Information for [Your Name]” page that shows your name and the Application status.
7. Send the printout or the file of the “PFD Information for [Your Name]” page to DNR Land Sales.

**Proof of residency should be submitted only after it has been requested by DNR.** Notification will include where to send your proof of residency documentation.
Residency Consideration for Active Duty US Armed Forces Personnel

If you are on active duty in the US Armed Forces (or are accompanying a family member on active duty) during part or all of the year leading up to the auction or drawing, the following considerations apply to establishing or maintaining Alaska residency.

- If military service takes you out of Alaska, you can retain Alaska residency by continuing to register Alaska as your permanent residence with the military, maintaining your Alaska driver’s license, and maintaining other ties with Alaska such as receiving the Permanent Fund Dividend, voting, maintaining vehicle registration, etc. The expiration date of non-commercial Alaska driver’s licenses is automatically extended while you or your spouse is on active duty outside of Alaska; see [http://doa.alaska.gov/dmv/akol/military.htm](http://doa.alaska.gov/dmv/akol/military.htm) and 2 AAC 90.430 for details.

- If military service has brought you to Alaska, you must take additional actions to establish Alaska as your residence, such as obtaining an Alaska driver’s license or state ID card, registering to vote and voting, registering your vehicle and registering Alaska as your residence with the military.

If you have questions about residency and military service, please contact the Land Sales team prior to bidding, applying to participate in the RRCS drawing, or applying for a Veteran's Land Discount.

Improperly or incompletely addressed or marked bid submissions risk being opened as general correspondence and such bids may be unintentionally divulged. Minimum Bid

The minimum bid for each parcel is the current appraised market value as indicated in this brochure or subsequent Errata. **DNR will not accept bids for less than the minimum bid price listed in this brochure or subsequent Errata.** You may bid at the minimum bid, although there is no assurance a minimum bid will be a successful high bid.

**VETERANS PLEASE NOTE:** If you will be applying for the Veterans’ Land Discount under AS 38.05.940 Land Purchase Price Discount For Veterans, do NOT subtract your discount from your purchase price amount or your bid deposit. If you are a successful bidder, and you are an eligible veteran who will be applying for the Veterans’ Land Discount, the discount will be deducted from the purchase price after the offering (see “Veterans’ Land Discount” section of this brochure for more detailed information).

Sealed-Bid Auction Bidding Period

All bids for the 2017 Creek Bend House Auction #483 must be RECEIVED online or at the Anchorage DNR offices no sooner than 10:00 a.m., Thursday, September 15, 2017 and no later than 5:00 p.m., Monday, October 16, 2017. DNR date stamps all sealed bids on the day they are received. In accordance with 11 AAC 67.007 Application, **DNR will not accept and will reject bids received outside the designated bidding period.** If your bid is rejected for early receipt, you may resubmit your bid at any time during the designated bidding period. Bids will be kept confidential and stored in a safe until the auction.
Sealed-Bid Opening

The Sealed-Bid Opening will begin at 10:00 a.m., Thursday, October 19, 2017, in the Robert Atwood Building located at 550 West 7th Avenue, Anchorage, Alaska 99501. All complete, timely bids received will be opened. Attendance at the auction is not required and will not affect the outcome. Attendees of the Sealed-Bid Opening will not be allowed to change or withdraw any bids.

Apparent High Bidder

The eligible bidder from whom the State received a valid bid submission with the highest bid amount will be named the apparent high bidder. For more information, please refer to the appropriate qualification sections throughout this brochure.

If there are two or more identical high bids for a parcel, the apparent high bidder will be determined by the earliest DNR date received stamp on the bid envelope (not the postmark). If the date stamps are also identical, then the name of the successful bidder will be determined by a drawing.

Common Bidding Errors

Omissions of the following items are considered Bid Errors and will result in the rejection of a bid.

A bid form must:
- Contain a valid bid amount. If the numeric amount is missing, illegible, or inconsistent with the written amount, the written amount prevails.
- Contain a valid, legible parcel number. An ADL number, subdivision lot and block or subdivision tract are not acceptable.
- Contain a valid signature.
- Be received by the deadline.
- Be submitted by an eligible bidder.
- Be accompanied by a bid deposit. The bid deposit must be 5% or greater than the bid amount. Bid deposits may be submitted by cashier’s check, money order, or credit card. Check with one of the Public Information Centers to confirm which credit card types are currently accepted.

Cashier’s checks, or money orders must:
- Be valid.
- Contain a signature that matches the name on the check.
- Be made out to the “State of Alaska”, “Department of Natural Resources”, “Department of Revenue”, or a recognizable abbreviation of such.

Credit card authorization forms must:
- Contain a valid credit card number.
- Have a signature matching the name on the card provided.

The following Bid Errors may be curable.

On a bid form:
- A miscalculated deposit, up to $100 less than 5% of the bid amount.
- Lack of signature from a second or subsequent bidder.

On a check or money order:
- If only a written or only a numeric amount is given, the amount that is given prevails.
- If the written amount and numeric amount are inconsistent, the written amount prevails.

On a credit card authorization form:
- Invalid or incorrect card type, number or expiration, if it is clearly a clerical error.
- Declined credit card. DNR has no way to know why the card was declined, and cards are often declined due to a daily limit even though the customer has adequate credit available.

Refunds

In accordance with 11 AAC 05.010(a), application fees and document handling fees are nonrefundable and will be retained by the State.
DNR will not refund the deposit money, up to a maximum of 5% of the total purchase value, from bidders or applicants who have chosen not to purchase the land, for any reason. The deposit amount in excess of 5% may be refunded.

All refund requests must be in writing and must clearly describe the circumstances and reasons for the refund and must be submitted prior to the issuance of a sale contract. Once a contract has been issued, a deposit, or any other payments on the account, will not be refunded.

In the event that DNR withdraws a parcel after a bid or application has been received, the deposit and document handling fee will be completely refunded. If a bid or application is submitted based on inaccurate information received from DNR and DNR agrees its staff provided inaccurate information, the Department, in its discretion, may refund deposit money or allow the deposit money to be applied to another parcel purchase.

**Sealed-Bid Auction Results**

As the auction progresses, a list of results will be available online at: [http://landsales.alaska.gov](http://landsales.alaska.gov)

You may need to ‘refresh’ your browser occasionally to view the updates. Following the auction, DNR Public Information Centers will display a final list.

During the week following the auction, the apparent high bidder(s) will be sent a certified Award Notification Letter. **DNR must receive the following items from successful bidder(s) by 5 p.m., October 26, 2017:**

1. proof of eligibility;
   - You must certify and prove that you meet the eligibility requirements for the program (see Qualifying for the Sealed-Bid Auction section);
   - If there is more than one bidder, all bidders must provide proof of eligibility.
2. a completed Declaration of Intent Form;
3. a nonrefundable $100.00 document handling fee (11 AAC 05.010 (a) (7) (F) Fees);
4. if applying for a Veterans’ Land Discount, a Veteran Eligibility Affidavit and required documentation (see “Qualifications for Veterans’ Land Discount” section of this brochure);
5. Pre-approval letter from lender if private financing is chosen;
6. Any other documents or items requested in the Award Notification Letter:

If an apparent high bidder fails to comply with the requirements stated in this brochure and the Award Notification Letter by the deadline, their bid will be considered abandoned and they may forfeit all deposits and fees paid (as defined in the “Refunds” section of this brochure).

Failure to comply with these requirements does not prevent the apparent high bidder from purchasing another parcel in subsequent offerings, if eligible.

If this parcel does not sell at this auction, it may be made available Over-the-Counter.

**If an apparent high bidder choses to enter into a land sales contract with the state they will be required to purchase and maintain homeowner’s insurance at their own expense, listing the State as the loss payee of the policy.**

The apparent high bidder will have a target date of November 20, 2017 to enter into a sales contract with the state, or provide funding from a private financing source. If the apparent high bidder fails to comply with the requirements stated in this brochure and the award notification letter by the deadline, their bid may be considered abandoned and they may forfeit all deposits and fees paid. The parcel may then be offered to the second highest bidder.
BUYING LAND OVER-THE-COUNTER (OTC)

If the parcel is not sold in the 2017 Auction #483, it may be made available in the Over-the-Counter (OTC) offering at the minimum bid.

**OTC Applicant Qualifications**

Corporations, businesses, and non-Alaska residents ARE eligible to apply in the OTC Offerings, but ARE NOT eligible to bid for parcels of residential land in the Sealed-Bid Auction. Past participation in previous DNR land sales does not prohibit you as an individual or business from participating in these offerings. You may also participate in subsequent offerings under this program, if eligible at the time of bid or application.

Individuals purchasing in the OTC offerings must certify and prove that you are 18 years of age or older on the date of application (11 AAC 67.005 General Qualifications), and will be asked to submit a copy of a government issued ID clearly showing your full legal name and date of birth.

Corporations must certify and prove (11 AAC 67.005 General Qualifications) that they are authorized to conduct business under the laws of the State of Alaska and must submit:

- proof that the representative of the company is authorized to act on behalf of the company and
- proof of valid registration with the Alaska Department of Commerce, Community, and Economic Development.

**No Withdrawal of Applications from the Over-the-Counter Offerings**

Please give careful consideration to your applications. Once you have submitted an application for the Over-the-Counter Offering, your 5% down payment and document handling fee are nonrefundable.

**How to Purchase an Over-the-Counter Parcel**

To purchase a parcel, go to [http://dnr.alaska.gov/mlw/landsale/otc/](http://dnr.alaska.gov/mlw/landsale/otc/). Use one of the many search options to find this parcel. Maps, parcel information, and a link for purchasing the parcel are available on the individual parcel pages. The online purchase process will ask for a MasterCard, Visa, or Discover credit card to pay the deposit of 5% of the purchase price and the document handling fee.

**VETERANS:** If you will be applying for the Veterans’ Land Discount, DNR must also receive your proof of eligibility for the discount (see “Veterans’ Land Discount” section of this brochure for more information).

The once-in-a-lifetime Veteran’s discount will apply to 100% of the bid price for Auction #483. See page 38 for veteran’s land discount information.

Call Land Sales @ 907-269-8851 to confirm if you have used your once-in-a-lifetime veteran’s discount previously.
PURCHASE INFORMATION

The State of Alaska Department of Natural Resources (DNR) offers financing on land sales with a down payment of 5% of the purchase price. Parcels may also be purchased by paying the full price at the time of sale; there is no prepayment penalty.

DNR does not allow early entry for development activity until the sale contract is issued, per AS 38.05.065. If financing a land sale with DNR, the sale contract gives you the right to develop and use the parcel during the contract. In the event that a purchaser pays off the parcel at the time of purchase, development activity is not allowed until the patent has been issued.

Note: It may take several months for your contract or patent to be issued, and you should anticipate longer wait times after the annual Auction.

The director, with the consent of the commissioner, may also include in contract, conditions, limitation, and terms considered necessary and proper to protect the interest of the state.

The contract for sale of real property will be subject to Homeowner’s Insurance at the expense of the purchaser wherein the seller is the loss payee of the policy.

State Financing

DNR offers financing through land sales contracts. A DNR land sale contract is a legally binding purchase agreement in which ownership is transferred after terms of the contract are satisfied. A DNR contract is different from a mortgage in that equity is not earned during the life of the contract. If you fail to make payments, or default on the contract in other ways, DNR retains all monies paid to that point, and retains ownership of the land. Your money will not be refunded if the contract is in default, has been relinquished, or is otherwise terminated. If you are purchasing more than one parcel, separate sale contracts will be issued for each parcel.

Land sale contracts can be issued for land purchases over $2,000. The interest rate is set by law at 3% above the prime rate at the time the contract is written and is fixed for the life of the contract. The length of the contract depends on the amount being financed as follows:

1. $2,000.00 or less must be paid in full at time of purchase;
2. $2,001.00 to $9,999.99, contract length is 5 years;
3. $10,000.00 to $14,999.99, contract length is 10 years;
4. $15,000.00 to $19,999.99, contract length is 15 years; and
5. $20,000.00 or more, contract length is 20 years.

Creek Bend House State Financing Example

Below is an example of how Contract is calculated for the Creek Bend House Parcel with a bid price of $250,000.00 and 20-year contract. Actual bid amount, down payment and interest rate could change.

M = Monthly payment
P = Principal ($237,500.00)
r = Annual Interest Rate (0.075)
N = Number of months of payments (240)

Monthly Payment = $1,913.28
If the purchase price minus the minimum 5% down payment, per parcel, is $2,000 or less, the balance due must be paid in full and a land sale contract will not be issued (11 AAC 67.875. Installment Payments). The balance after down payment, plus a nonrefundable document handling fee will be due upon application for an Over-the-Counter (OTC) parcel or at a date specified in the Auction brochure for an apparent high bidder in the Sealed-Bid Auction. If an apparent winner or purchaser fails to comply with these requirements or it is the applicant's decision not to move forward; the applicant will forfeit all or part of the deposit and lose all opportunity, right, title, and interest in the land.

**Land Sale Contract Applicant Qualifications**

If you elect to enter into a purchase contract with the State of Alaska, in accordance with 11 AAC 67.008

Ineligibility Due to Default, you must also certify that you:

1. have not held a purchase contract issued by DNR that has been administratively foreclosed or terminated for cause within the past 3 years (contact the Contract Initiation team at (907) 269-8594 or dnr.dmlw.contracts@alaska.gov if you have questions about eligibility);
2. are not currently in default for nonpayment on a purchase contract or lease issued by DNR; and
3. are not currently in default for nonpayment of municipal taxes or assessments on property currently under a purchase contract or lease issued by DNR.

Purchase contracts will not be issued by DNR unless all 3 qualifications listed above are met. If the successful bidder or applicant for a parcel does not qualify for a contract, a lump sum payment will be required. Failure to submit payment in full upon notification may result in deposit forfeiture and loss of purchase rights to the parcel.

**Making Contract Payments**

After your contract has been drafted, it will be sent to you for signature. The cover letter will explain monthly payments and when your first payment is due. You are not required to make payments in the meantime. This correspondence will also include the methods by which you can remit your monthly payment. You can pay:

**Transferring Ownership (Assignments)**

During a land sale contract with DNR, you may not sell the parcel or otherwise transfer the ownership of a
parcel without DNR approval. Adding, removing, or changing the contract holders requires an assignment and assignment fee. The assignment of contract is then recorded as public record. Any change between the original intent to purchase; whether by bid, lease, purchase agreement, to the sale contract or patent requires an assignment. To request an assignment, please contact the contracts team at dnr.dmlw.contracts@alaska.gov or (907) 269-8594.

Receiving Title
Once you have paid off the parcel and completed any other conditions of the sale, DNR will issue a state patent giving you title to the land. Once the patent has been issued and recorded, you own the land as detailed in the patent. The State of Alaska will retain ownership of the mineral estate of all land sold as required by the statehood act, the state constitution, and state law. DNR will transfer the water right at time of patent to the new land owner. Once patent is issued, any change in ownership of a parcel is a private transaction. If you need advice on deeds or other details of a sale after receiving patent, consult an attorney or title company.

Service Fees
Once the contract has been executed, you will owe late fees for any payments which are made late. You will also owe a returned payment fee for any payment which is refused by the bank. The date payment is due is not delayed if the bank refuses payment. Other fees may apply as set by AS 38.05.065 and 11 AAC 05.010. For updated fee amounts, contact Land Sales at landsales@alaska.gov or 907-269-8594.

Keep Your Address Current with Contracts Unit
In accordance with 11 AAC 67.005 (g) General Qualifications, an applicant or bidder is responsible for keeping DNR DMLW, Contacts Initiation and Revenue Recovery Unit (CIRR), informed of their current address throughout the bid/application, lease, contract, and patent processes.

A change of address must be signed by the applicant or purchaser and submitted in writing to CIRR at 550 W. 7th Ave., Ste. 640, Anchorage, Alaska 99501, Fax (907) 269-8594. An application is subject to rejection if Land Sales Section is unable to contact the lessee, applicant, or bidder at the current address of record.

Please note that notifications sent to other Sections, Divisions, or Departments may not reach Contracts and your records may not be updated. Failure to keep your address and contact information current with Contracts could result in closure of your application or contract, loss of all opportunity, right, title, and interest in the land, or termination of your contract.

Private Financing
It may be in the best interest of bidders to seek private financing options. The interest rates set by statute may be higher than other competitive financing options. Another advantage of seeking private financing would be a longer duration for financing in the form of a mortgage. The state issues “contracts”, which are 5 to 20 years in length, which is not ideal for this parcel.

DISCLAIMER: This parcel would be allowed to be financed at a 20-year maximum contract, where the monthly payment could be a significant amount relative to a traditional mortgage.

Bidders using private financing options are encouraged to get pre-approved for financing with their lender.
The State of Alaska offers Alaska resident Veterans a once in a lifetime discount on the purchase of state land in accordance with AS 38.05.940 Land Purchase Price Discount For Veterans. Please read the eligibility requirements below to confirm you qualify. The discount is 25% of the purchase price, although the discount does not apply to certain costs which DNR incurred to develop the parcel for sale. The details of how the discount amounts are calculated are below. **NOTE:** The Veterans Discount may be applied to the full amount of the bid for the Creek Bend House!

### Qualifications for Veterans’ Land Discount

To qualify for the Veterans’ Land Discount, you must submit proof of eligibility. **Eligibility proof should be submitted only AFTER it is requested from you by DNR; you will be given a deadline by which the information must be submitted. OTC purchasers must submit these items within 30 days of the date of their purchase application to receive the discount.**

You must provide proof of the following items:

1. You are 18 years of age or older on the date of bid or application (11 AAC 67.055 General Qualifications);
2. You meet the Alaska residency requirements of this program as detailed at: http://dnr.alaska.gov/mlw/landsale/akresident.cfm; and
3. A Form DD 214 (Report of Separation from Active Duty) showing the qualifying length of active duty and character of the discharge. There are many versions of the Form DD 214, and some versions contain multiple pages. Please ensure that the pages you submit show both dates of service and character of discharge.
   a. In accordance with AS 38.05.940 Land Purchase Price Discount for Veterans, you must prove you are a veteran that has:
      i. Served on active duty in the Armed Forces of the United States (United States Army, Navy, Marines, Air Force, or Coast Guard; State National Guard units; or Army, Navy, Marine, and Air Force Reserve) or the Alaska Territorial Guard for at least 90 days, unless tenure was shortened due to a service-connected disability or due to receiving an early separation after a tour of duty overseas; and
      ii. Received an honorable discharge or general discharge under honorable conditions.
4. You will also need to complete the Veteran’s Discount Application / Affidavit and sign in front of a notary.

**Please note that if you are still on active duty and have not yet received a DD-214, you are not yet eligible for this discount.**

For the sealed-bid auction, applicants who are above the age of 18 and fulfill the stated requirement for Alaska residency but are unable to provide a Form DD 214 or its equivalent will be required to proceed with purchase of the parcel at the full, non-discounted bid amount.

For RRCS lease to sale conversions and OTC purchases, applicants who are unable to comply with Veterans’ Discount requirements will be required to proceed with purchase of the parcel at the full, non-discounted purchase price.

**Veterans are encouraged to request their Form DD 214 and gather their other required documentation well in advance of the auction.**

This discount, by law, is a once in a lifetime opportunity. Contact the Land Sales Section to verify your eligibility.
Once-In-A-Lifetime Benefit

The Veterans’ Land Discount is a once-in-a-lifetime benefit and a purchaser that received this benefit on a past land purchase from the State of Alaska is not eligible to receive the discount a second time, regardless of final conveyance on the original parcel.

If two or more individuals jointly submit a bid or application for a parcel for which they wish to apply a Veterans’ Land Discount, both must be eligible bidders/applicants but only one need be an eligible veteran and apply for the discount. Upon approval, a single 25% discount will be given and only the eligible veteran bidder/applicant will have exhausted their “once in a lifetime” Veterans’ Land Discount.

Reimbursable Costs

To calculate the veteran’s discount amount, DNR first determines the costs which the state incurred to create the parcel. These costs are called reimbursable costs, because they are reimbursable to the state. The discount does not apply to reimbursable costs. Reimbursable costs include survey, platting, trail clearing, and road development costs. Reimbursable costs are listed for this parcel.

The 25% veterans’ discount will apply 100% to the purchase price since there are no reimbursable costs on the parcel.

STATE INTERESTS

New Construction, Development, or Improvements
It is your responsibility to properly locate all property boundary monuments on your parcel and to contain any improvements within the parcel (11 AAC 67.020 Proper Location). **No improvements, other than authorized access, may be placed or constructed within any easements or rights-of-way of record.** This includes, but is not limited to, section-line easements, public access easements, road rights-of-way, utility easements, and building setbacks. It is your responsibility to obtain all necessary authorizations from Federal, State, Borough, Municipal, City, or local agencies prior to placing or constructing any improvements.

Easements, Reservations, & Restrictions
This parcel is subject to all platted and valid existing easements and reservations, such as rights-of-way, building setbacks, utility easements, pedestrian easements, roads, and trails. These easements and reservations may be shown. It is your responsibility to fully review the recorded survey or subdivision plat, any reservations represented in this brochure, and any other items found in the recorded land records for a complete picture of the restrictions and conditions that may affect each individual parcel. It is also your responsibility to personally and thoroughly inspect the parcel prior to submitting a bid or application to purchase. Subdivision survey plats may be viewed at the nearest DNR Public Information Center or online at:

http://dnr.alaska.gov/landrecords/

There is a potential RS 2477 route across this parcel, serialized as RST 2002. The location and status of this potential trail is subject to further research and adjudication. As with any other public or private land, if an RS 2477 is determined to exist, the property will be subject to the applicable 100’ ROW along this route.

All public access easements, including those along public or navigable water bodies, are reserved for public use. You may not obstruct public access easements or make them unusable by the public.

Access
Information on the conditions of state-maintained highways only is available from the State of Alaska Department of Transportation and Public Facilities at [www.511.alaska.gov/](http://www.511.alaska.gov/)

Mineral Estate
**In accordance with AS 38.05.125 Reservation of Mineral Rights to Alaska, the State of Alaska retains ownership of the mineral estate, including oil, gas, coal, ore, minerals, fissionable material, geothermal resources, and fossils that may be in or upon the land that it sells.** The State of Alaska and its successors reserve the right to enter onto the land for the purposes of exploring, developing, and producing these reserved mineral resources. In Alaska, this access reservation is superior to any and all surface uses. The State of Alaska may also lease these interests to mineral developers or allow mining locations to be staked. Where they have been established, mineral orders close an area to mineral entry, thereby closing the area to new exploration and development of locatable minerals such as gold, copper, platinum, etc. Area plan subsurface management policy states that, in general, areas scheduled for disposal will be closed to new mineral entry prior to sale to minimize potential conflict between surface and subsurface users. **Such mineral orders do not apply to non-locatable minerals, including oil and gas leasing, coal leasing, shallow gas leasing, or exploration licensing for such, nor do they preclude reasonable surface access to these resources.** However, AS 38.05.130 Damages and Posting of Bond stipulates that the surface owner will be compensated for damages resulting from exploration and development. Information on current activity is included in the “Notes” section of the area-specific data summaries. Contact one of the DNR Public Information Centers for more information.
Oil and Gas

As discussed in the Mineral Estate section, the State of Alaska retains ownership of the mineral estate of the land which it sells. DNR's Division of Oil and Gas may issue oil and gas leases or exploration licenses which include the rights to explore for or develop the oil and/or gas on and around current and former sale parcels. Exploration Licenses encourage exploration for oil and gas on state land in areas which do not have a history of successful oil or gas production. Oil and Gas Leases give the right to produce oil and gas within the boundaries of the lease. Both leases and exploration licenses cover large areas and are unlikely to significantly impact a purchaser of the land estate. However, as stated in the Mineral Estate section, the State of Alaska and its successors reserve the right to enter onto the land for purposes of exploring, developing, and producing any mineral resources. This access reservation is superior to any and all surface uses.

Hazardous Materials and Potential Contaminants

You are responsible for personally and thoroughly inspecting the property and familiarizing yourself with the condition and quality of the land. Unless otherwise noted herein, there are no known environmental hazards present within the parcels listed herein. The State of Alaska makes no representations or warranties, expressed nor implied, concerning the existence or absence of any hazardous substances, hazardous wastes, contaminants, or pollutants on the lands in this offering. The State of Alaska further assumes no liability for the removal of hazardous substances, hazardous wastes, contaminants, or pollutants, nor for the remediation of the site should such substances eventually be found. The purchaser of the parcel is responsible for the disposal of any existing refuse or wastes and its related costs, regardless of date of existence.

Timber and Other Materials on Site

Before receiving patent to State-owned land, you may NOT sell or remove from the parcel any surface resource such as stone, gravel, sand, peat, topsoil, timber, or any other material valuable for commercial or off-site purposes. Such materials may be used only on the parcel for the duration of the sale contract. Please contact the Land Sales or Contracts Unit at (907) 269-8594 for additional information. Local governments may also have additional restrictions regarding on-site material use after receiving patent. For more information, contact your local government and the DNR Public Information Center.

Archaeological Sites

The Alaska Historic Preservation Act prohibits the appropriation, excavation, removal, injury, or destruction of any historic, prehistoric (paleontological), or archaeological site without a permit from the Commissioner of DNR (AS 41.35.200 Unlawful Acts). Should any sites be discovered, you must cease activities that may damage the site and immediately contact the Office of History and Archaeology (OHA) in the DNR Division of Parks and Outdoor Recreation. To contact OHA, call (907) 269-8721 or visit: http://dnr.alaska.gov/parks/oha/
LOCAL GOVERNMENT

Borough/Municipality Authority
Parcels may be subject to zoning, restrictions, easements, and setbacks imposed by the local government (borough or city). Parcels with no incorporated local government may become part of a municipality in the future should the local community decide to incorporate. Additional information may be available from the State of Alaska, Department of Commerce, Community, and Economic Development, Division of Corporation, Business, and Professional Licensing, at (907) 465-2530, or online at:

http://commerce.alaska.gov/dnn/cbpl/home.aspx

Taxes
This parcel is subject to taxes and assessments levied by the local taxing authority. Failure to make timely payment of all taxes and assessments due on parcels under lease or contract with the State of Alaska is a violation of that contract and may result in termination.

Restrictions on Subdividing
You may not subdivide or re-plat the land prior to receiving patent. After title is conveyed, subdividing of any parcel must comply with local platting requirements and in accordance with the requirements of other agencies such as the State of Alaska, Department of Environmental Conservation; the United States Army Corps of Engineers; and the like. See “Land Records, Survey Plats, and Maps” section of this brochure for additional information.
DEVELOPING YOUR LAND

New Construction, Development, or Improvements

**Important:** The State of Alaska does not allow early entry for development activity until the sale contract, or patent is issued. Please contact the Land Sales Section at (907) 269-8594 for additional information.

It is your responsibility to properly locate all property boundary monuments on your parcel and to contain any improvements within the parcel (11 AAC 67.020 Proper Location). **No improvements, other than authorized access, may be placed or constructed within any easements or rights-of-way of record.** This includes, but is not limited to, section-line easements, public access easements, road rights-of-way, utility easements, and building setbacks. It is your responsibility to obtain all necessary authorizations from Federal, State, Borough, Municipal, City, or local agencies prior to placing or constructing any improvements.

Existing Improvements

This parcel has existing improvements, structures, and/or limited development on the land.

The utility lines on and across the property were constructed without authorization.

There is a well that serves the neighbor’s property that is in trespass on this property.

If any such improvements exist on parcels in the Auction or OTC offerings, the State of Alaska makes no representations or warranties, expressed nor implied, concerning the existence or condition of such items. Unless otherwise noted, the minimum bid price for these parcels includes the value of the improvements. You are responsible for personally and thoroughly inspecting the parcel prior to submitting a bid or application and buyers assume all responsibility for such items.

Sewer and Water

Additional individual water supply system or sewage disposal system shall be permitted on any parcel unless such system is located, constructed, and equipped in accordance with the requirements of the State of Alaska, Department of Environmental Conservation (DEC). Approval to construct, install, or operate such systems must be obtained from DEC.

For existing systems, the State of Alaska makes no representations or warranties, expressed nor implied, concerning the existence or condition of such items. It is your responsibility to personally and thoroughly inspect the parcel and its inspection reports prior to submitting a bid or application and buyers assume all responsibility for such items.

A water right has been filed for this property by DNR. DNR will transfer the water right at time of patent to new land owner.

Eagle Nesting Sites and Seasons of Restricted Activity Nearby

Federal law prohibits any disturbance of bald eagles or their nests, and the U.S. Fish and Wildlife Service (USFWS) enforces this law. The USFWS generally recommends no clearing of vegetation within 330 feet of any nest. Additionally, no construction or other potentially disturbing activity should occur within 660 feet of any nest between March 1 and June 1. Further, between June 1 and August 31, no construction activity should occur within 660 feet of active eagle nests until after juvenile birds have fledged. Nest trees should not be disturbed at all. Consult with USFWS on the siting of structures and roads or cutting mature trees within 330 feet of a nest tree.

Migratory Birds

The Federal Migratory Bird Treaty Act prohibits the disturbance or destruction of nest areas during nesting season. Nearly all bird species in Alaska are migratory and subject to protection under the Act. Compliance with the Act would preclude road construction activities during nesting season. Additional information is available from the USFWS at: [http://www.fws.gov/pacific/migratorybirds/](http://www.fws.gov/pacific/migratorybirds/)
ONLINE RESOURCES

These websites are listed as a reference to assist you when researching a parcel, a land region, or certain development restrictions or policies. They may also include links to appropriate regional offices and phone numbers. This is by no means a complete list of agencies that have authority over all aspects of land ownership and development, but it is a good place to start. Many of these websites are referenced throughout this brochure.
