## AUCTION SCHEDULE

---

### JULY 10, 2017 - AUGUST 18, 2017 - SEALED BID APPLICATION PERIOD

All applications must be received no later than 5:00 p.m., August 18, 2017. Applications can be submitted online, or hand delivered to one of the Department of Natural Resources' Public Information Centers or a Division of Agriculture office, or mailed to: Division of Agriculture, 3700 Airport Way, Fairbanks, Alaska 99709 Attn: Dan Proulx. Applications received after the designated date and time will be rejected. Please see page 22 for more details.

### AUGUST 23, 2017 - AUCTION # 481

Bids will be opened at 1:00 p.m. August 23, 2017 in the large conference room in the DNR Northern Region Office at 3700 Airport Way Fairbanks, AK 99709. The public is welcome to attend but bidders need not be present at the bid opening. A list of apparent high bidders will be posted at <http://landsales.alaska.gov> following the opening of the bids.

### AUGUST 24, 2017 - BID DEPOSIT PICK-UP

Unsuccessful bidders may pick up their deposits after the bid opening until 5:00 p.m., August 24, 2017, at the DNR Fairbanks Public Information Center, 3700 Airport Way, Fairbanks, Alaska 99709 (Hours 10 am - 5:00 pm). Deposits not picked up by that time will be returned by mail.

### OCTOBER 13, 2017 - STATE FARM CONSERVATION PLANS DUE

Apparent high bidders will have to submit to the Division of Agriculture a State Farm Conservation Plan that has been reviewed and signed by the local Soil and Water Conservation District.

## INTRODUCTION

This brochure describes the parcels of land available from the Department of Natural Resources (DNR), Division of Mining, Land, and Water (DMLW), in cooperation with the Division of Agriculture (DAg) in the 2017 Alaska State Land Offerings - Auction #481. This brochure also contains information on how to participate in the Sealed-Bid Auction.

This brochure is divided into three main sections. The first section provides general information applicable to all parcels; a list of online resources; auction and offering procedures; application instructions; and purchasing information. The second portion of this brochure contains maps of the parcels and subdivisions, specific information about each area, and the parcels' legal descriptions and minimum bid prices. The last portion of this brochure contains application and bid forms. At times, modifications to the terms of a land offering become necessary after the publication of the brochure. Changes are announced and published as soon as possible in supplemental information sheets called errata. **It is your responsibility to stay informed of any changes or corrections prior to submitting a bid or application and prior to the actual auction.**

Additional copies of this brochure, subsequent errata, and application materials may be obtained from the DNR Public Information Centers in Anchorage, Fairbanks, and Juneau. Copies may also be viewed or downloaded from the DNR website at: <http://landsales.alaska.gov/>. If you need this brochure in an alternate format in order to utilize assistive technology for visual impairments, please contact one of the Public Information Centers listed below.

### DNR Public Information Centers

Each Public Information Center has access to survey and status plats, appraisal reports, area plans, and other information relevant to the parcels available in their specific region. These centers also provide information regarding DNR's programs and policies, and can help you find the applications, forms, and fact sheets to answer your DNR-related questions.

**SOUTHCENTRAL REGION** - DNR Public Information Center  
550 West 7th Avenue, Ste. 1260, Anchorage, Alaska 99501  
Tel: (907) 269-8400, Fax: (907) 269-8901, TDD: (907) 269-8411  
Office hours: Monday through Friday, 10:00 a.m.-5:00 p.m.,  
excluding State holidays  
[dnr.pic@alaska.gov](mailto:dnr.pic@alaska.gov)

**NORTHERN REGION** - DNR Public Information Center  
3700 Airport Way, Fairbanks, Alaska 99709  
Tel: (907) 451-2705, Fax: (907) 451-2706, TDD: (907) 451-2770  
Office hours: Monday through Friday, 10:00 a.m.-5:00 p.m.,  
excluding State holidays  
[fbx-pic@alaska.gov](mailto:fbx-pic@alaska.gov)

**SOUTHEAST REGION** - DNR Public Information Center  
400 Willoughby Avenue, 4th Floor, Juneau, Alaska 99801  
Tel: (907) 465-3400, Fax: (907) 586-2954, TDD: (907) 465-3888  
Office hours: Monday through Friday, 10:00 a.m.-5:00 p.m.,  
excluding State holidays  
[sero@alaska.gov](mailto:sero@alaska.gov)

## GENERAL INFORMATION

### Site Inspection

**Important:** It is your responsibility to fully review this brochure and personally locate and thoroughly inspect the parcel before submitting a bid or application to purchase.

The land chosen by a bidder/applicant is taken **AS IS** with no guarantees, expressed nor implied, as to its suitability for any intended use. The submission of a bid or application constitutes acceptance of the parcel **AS IS** and **WHERE IS**. The reader is referred to the “No Warranty of Suitability or Fitness” section of this brochure for more information.

### Land Records, Survey Plats, and Maps

**Important:** It is the responsibility of the purchaser to review recorded plats/maps, surveys, and plat notes for specific information on easements, building setbacks, or other restrictions that may affect any individual parcel prior to submitting a bid or application.

Comprehensive parcel and area information can be found by researching various State and Federal websites or by contacting or visiting one of the DNR Public Information Centers. A valuable resource developed by DNR and the Bureau of Land Management (BLM) is:

<http://www.dnr.alaska.gov/Landrecords>

This site lists links to many DNR and BLM websites where you can find information such as recorded survey plats, Federal surveys, Federal master title plats, State status plats, recorded subdivision covenants, mapping/GIS applications, and casefile summaries.

Topographic maps may be purchased from the United States Geological Survey (USGS), Earth Science Information Center, Grace Hall, Alaska Pacific University, 4210 University Drive, Room 208, Anchorage, Alaska 99508, (907) 786-7011; or Map Office, Geophysical Institute, University of Alaska Fairbanks, 903 Koyukuk Drive, PO Box 757320, Fairbanks, Alaska 99775, (907) 474-5823; or from numerous other commercial sources.

Full-size copies of the recorded survey plats are available at DNR Public Information Centers or appropriate DNR District Recorder’s Offices. A nominal fee for the maps may apply. Find the appropriate DNR District Recorder’s Office at:

<http://dnr.alaska.gov/ssd/recoff/findYourDistrict.cfm>

For more information on finding and using basic parcel information sources like surveys and casefile information, see the “Online Resources” section of this brochure or visit one of the DNR Public Information Centers.

## Tentatively Approved Lands

The State of Alaska may not yet have received final patent from the Federal government for some of the land in these offerings. Such lands are designated as “tentatively approved”. Title for parcels on tentatively approved lands will be conditioned upon the State of Alaska receiving patent from the Federal government. In accordance with 11 AAC 67.015 Land Available, in addition to selling, leasing, or granting patented land, DNR DMLW may conditionally sell, lease, or grant land that has been tentatively approved by the Federal government for patent to the State, but that is not yet patented. **DNR regulations provide that if for any reason the State of Alaska is denied patent to the land, a sale, lease, or grant on this conditional basis will be canceled** and the money paid to purchase the land will be refunded. The State of Alaska has no further liability to the purchaser, lessee, or any third party for termination of the contract. Money paid to the State to purchase such land will be refunded, or may be applied to the purchase of another parcel. Additionally, the State is in no way liable for any damage that may be done to the land by the purchaser, lessee, or grantee, or liable for any claim of any third party or for any claim that may arise from ownership. If the State does receive title to the land, as anticipated, the conditional sale, lease, or grant then has the same effect as other sales, leases, or grants.

Title to tentatively approved lands will be conveyed via state patent. Ordinarily, there is little risk of loss of title associated with tentatively approved lands, however, there may be practical problems including (1) title insurance companies might not provide title insurance unless this contingency is “excepted” from coverage, and (2) banks might not loan money for construction on, or the purchase of tentatively-approved lands. It is your responsibility to fully investigate these matters before submitting a bid or application to purchase the parcel. **In this offering, all the parcels are on tentatively-approved lands.**

## No Warranty of Suitability or Fitness

**Important:** In accordance with 11 AAC 67.022 No Warranty Implied, by selling, granting, or leasing land, the State does not give nor imply any warranty as to the land’s fitness, use, or suitability for any intended use, presence of refuse or hazardous substances, or whether public utilities or services will be provided. It is the responsibility of the purchaser, grantee, or lessee to determine whether the land will meet their needs. Parcels are sold **AS IS** and **WHERE IS** with all faults, and in the condition as of the date of the sale.

The State of Alaska makes no warranty, expressed nor implied, nor assumes any liability whatsoever regarding the social, economic, or environmental aspects of the parcel, including, without limitation, the soil conditions, water drainage, access, or natural or artificial hazards that may exist, or the profitability of the parcel.

It is your responsibility to inspect the parcel and be thoroughly acquainted with the parcel’s condition prior to bidding or applying to purchase. It is also your responsibility to determine and consider in your decision to enter into a purchase agreement, encumbrances (or the possibility of encumbrances) that may affect the use of the property, including those of record or apparent by inspection of the property.

## Taxes

Parcels listed in this brochure may be subject to taxes and assessments levied by local taxing authorities. Local taxing authorities are noted on the parcel information pages in this brochure. **Failure to make timely payment of all taxes and assessments due on parcels purchased under contract with the State of Alaska is a violation of the purchase contract and may result in contract termination.**

## LAND USE

### Access

Information on the location of legal access to a parcel may be obtained from the appropriate regional DNR Public Information Center. It is your responsibility to properly locate yourself when crossing both public and private land to ensure you are on a legal right-of-way or section-line easement and to avoid trespass. It is important to note that while access may be legally reserved, it may not be improved.

**Important:** Please be advised that legal access to a parcel does not necessarily constitute practical, developable, or existing (constructed) access.

The State of Alaska has no legal obligation to build roads or provide services to or within any subdivision or parcel. Right-of-ways shown on the survey plats designate areas reserved for access but do not necessarily indicate the existence of a constructed road. As previously mentioned, although every parcel for sale has some legal, platted access, in many cases roads might not yet exist. For instance, access may be via section line easements (unless the section line easement has been vacated), platted right-of-ways, trail easements, navigable water bodies, or across unreserved State-owned land. Contact the DNR Public Information Centers for more information.

Physical access may be on rivers and lakes or across land by roads or trails by means of on- and off-road vehicles, snowmachines, airplanes, boats, all-terrain vehicles, dogsleds, or by foot. You should inquire at one of the DNR Public Information Centers or appropriate borough land office to see if there is an existing road on a reserved right-of-way.

There are certain generally allowed uses on State-owned land managed by the Division of Mining, Land and Water that do not require a permit from DNR (11 AAC 96.020 Generally Allowed Uses and 11 AAC 96.025 Conditions for Generally Allowed Uses). The fact sheet on Generally Allowed Uses, is available online at:

[http://dnr.alaska.gov/mlw/factsht/land\\_fs/gen\\_allow\\_use.pdf](http://dnr.alaska.gov/mlw/factsht/land_fs/gen_allow_use.pdf)

The fact sheet includes a list of areas where generally allowed uses do not apply and other restrictions.

Travel across unreserved State-owned land may be made without a permit by the following methods:

- Hiking, backpacking, skiing, climbing, and other foot travel; bicycling; or traveling by horse or dogsled or with pack animals.
- Using a highway vehicle with a curb weight of up to 10,000 pounds, including a four-wheel-drive vehicle or a pickup truck, or using a recreational-type off-road or all-terrain vehicle with a curb weight of up to 1,500 pounds, such as a snowmachine (or other tracked vehicle), motorcycle or ATV, on or off an established road easement, if use of the road easement does not cause or contribute to water-quality degradation, alteration of drainage systems, significant rutting, ground disturbance, or thermal erosion. Use of larger off-road vehicles over 1,500 pounds curb weight and off-road travel of construction and mining equipment requires a permit from DNR. An authorization is required from the State of Alaska, Department of Fish and Game, Division of Habitat for any motorized travel in fish-bearing streams. Contact and program information can be found online at <http://habitat.adfg.alaska.gov>
- Landing an aircraft (such as a single-engine airplane or helicopter), or using watercraft (such as a boat, jet-ski, raft, or canoe), without damaging the land, including shoreland, tideland, and submerged land.

Access improvements on unreserved State-owned land may be allowed without a permit under the following conditions:

- Brushing or cutting a trail less than five feet wide using only hand-held tools such as a chainsaw (making a trail does not create a property right or interest in the trail).
- Anchoring a mooring buoy in a lake, river, or marine waters, or placing a float, dock, boat haul out, floating breakwater, or boathouse in a lake, river, or in marine waters, for the personal, noncommercial use of the upland owner, if the use does not interfere with public access or another public use, and if the improvement is placed within the projected sidelines of the contiguous upland owner's parcel or otherwise has the consent of the affected upland owner.

Vehicles are required to use existing trails where possible. Where no trails exist, vehicles are required to use the legal access to minimize the number of trails across public lands.

Moving heavy equipment, such as a bulldozer, is not authorized on State-owned land without a permit. A permit can be obtained from the appropriate DNR regional office.

Public access and utility easements, water body easements, and public or navigable waterways may not be obstructed or made unusable by the public.

Establishing new routes or making improvements to existing right-of-ways or easements may require an authorization depending on the type of activity and the site-specific conditions. You are advised to apply for an access easement to reserve legal access to your parcel on routes you may wish to improve. Contact the DNR Public Information Centers for more information.

### **RS 2477**

Revised Statute 2477 is a Federal law that granted states and territories unrestricted right-of-ways over Federal lands that had no existing reservations or private entries. Historic RS 2477 trails and/or roads may exist on State-owned land and the transfer of State-owned land into private ownership does not extinguish pre-existing rights. Some right-of-ways could potentially be improved for access across or to communities or valuable State-owned resources and land. Some may not be used at all, or may be developed only as foot trails. Others will be used as they have been in the past. If in doubt whether there is an RS 2477 right-of-way to or across a parcel, check the public land records. More information regarding RS 2477 right-of-ways is available at any of the DNR Public Information Centers and online at <http://dnr.alaska.gov/mlw/trails/rs2477/>

### **Easements, Reservations, & Restrictions**

All parcels listed in this brochure are subject to all platted and valid existing easements and reservations, such as right-of-ways, building setbacks, utility easements, pedestrian easements, roads, and trails. These easements and reservations may be shown graphically on the survey plat or may be listed in the 'Notes' section of the plat, which may be detailed on a page of the recorded documents separate from the map or plat. It is your responsibility to fully review the recorded survey or subdivision plat, any reservations represented in this brochure, and any other items found in the recorded land records for a complete picture of the restrictions and conditions that may affect each individual parcel. It is also your responsibility to personally and thoroughly inspect the parcel prior to submitting a bid or application to purchase. Subdivision survey plats may be viewed at the nearest DNR Public Information Center or online at:

<http://dnr.alaska.gov/Landrecords/>

All State-owned lands bordering section lines have a reserved public access easement usually 33 or 50 feet in width along each side of the section line, **unless the easement has been vacated or officially removed**. Contact the appropriate DNR Public Information Center before constructing access, especially within surveyed or unsurveyed section-line easements.

All public access easements, including those along public or navigable water bodies, are reserved for public use. You may not obstruct public access easements or make them unusable by the public.

### **Alaska Railroad Right-of-Way**

The Alaska Railroad Corporation's 200-foot right-of-way, bridges, and trestles may NOT be used as legal access. Use of the railroad right-of-way is considered trespass and will be prosecuted (AS 11.46.330 Criminal Trespass in the Second Degree). The Alaska Railroad Corporation may issue permits to cross the railroad. Contact the nearest railroad agent for more information at: <http://alaskarailroad.com>

## Driveways, Approaches, and Roads

Driveways and/or approach roads from established roads maintained by the State of Alaska, Department of Transportation and Public Facilities (DOTPF) may need to be constructed in order to provide access to individual parcels, and a permit may be required. Prior to any driveway or approach road construction utilizing a State-managed right-of-way, you must consult the Right-of-Way Section of the appropriate regional office of DOTPF. Parking on the side or shoulder of roads can cause traffic safety problems and damage to the road shoulder and these activities may be restricted or disallowed.

## Multiple Uses

The land sale described in this brochure is only one of the disposals or allowed uses that may occur in any given area. A variety of other authorized uses such as mining or timber sales, commercial or personal recreation, trapping, or resource harvest may occur on Municipal, State, Federal, and private lands near the parcels listed for sale. Such uses not only affect adjacent land, but also roads that are intended for access to those areas. Large truck and heavy equipment traffic may occur, and in some cases, noise, dust, or other activities may be perceived as a nuisance to neighboring users. Occasionally, small roads or trails are developed, improved, and maintained to accommodate increased traffic. It is strongly recommended that you take this into consideration when applying to purchase land through these offerings.

## Use of Adjacent State-Owned Land

Uses of unreserved State-owned land, other than those uses stated in 11 AAC 96.020 Generally Allowed Uses, may require a land use authorization from DNR. Certain activities, such as harvesting firewood or clearing viewsheds may require a permit in advance and there is no guarantee of approval.

## Sewer and Water

No individual water supply system or sewage disposal system shall be permitted on any parcel unless such system is located, constructed, and equipped in accordance with the requirements of the State of Alaska, Department of Environmental Conservation (DEC). Approval to construct, install, or operate such systems must be obtained from DEC. These land offerings may have some restrictions on the types of sewage disposal systems allowed. For more information on a particular parcel, please refer to the survey plat and contact the appropriate DEC regional office. If any such systems exist on parcels in these offerings, the State of Alaska makes no representations or warranties, expressed nor implied, concerning the existence or condition of such items. **It is your responsibility to personally and thoroughly inspect the parcels prior to submitting a bid or application and buyers assume all responsibility for such items.** Refer to the “Existing Improvements” and “Hazardous Materials and Potential Contaminants” sections of this brochure for additional information and disclaimers.

## Hazardous Materials and Potential Contaminants

You are responsible for personally and thoroughly inspecting the property and familiarizing yourself with the condition and quality of the land. Unless otherwise noted herein, there are no known environmental hazards present within the parcels listed herein. However, DNR has not necessarily inspected all the parcels in this brochure to determine if refuse or hazardous waste is present. The State of Alaska makes no representations or warranties, expressed nor implied, concerning the existence or absence of any hazardous substances, hazardous wastes, contaminants, or pollutants on the lands in this offering. The State of Alaska further assumes no liability for the removal of hazardous substances, hazardous wastes, contaminants, or pollutants, nor for the remediation of the site should such substances eventually be found. **The purchaser of the parcel is responsible for the disposal of any existing refuse or wastes and its related costs, regardless of date of existence.**

## Construction, Development, or Improvements

**Important:** The State of Alaska does not allow early entry for development activity until the sale contract or patent is issued. Please contact the Land Sales and Contract Administration Section at (907) 269-8594 for additional information.

It is your responsibility to properly locate all property boundary monuments on your parcel and to contain any improvements within the parcel (11 AAC 67.020 Proper Location). **No improvements, other than authorized access, may be placed or constructed within any easements or right-of-ways of record.** This includes, but is not limited to, section-line easements, public access easements, road right-of-ways, utility easements, and building setbacks. It is your responsibility to obtain all necessary authorizations from Federal, State, Borough, Municipal, City, or local agencies prior to placing or constructing any improvements.

## Existing Improvements

Some parcels in this brochure may have existing improvements, structures, and/or limited development on the land. Unless otherwise noted, the minimum bid price for these parcels includes the value of the improvements. If any such improvements exist on parcels in these offerings, the State of Alaska makes no representations or warranties, expressed nor implied, concerning the existence or condition of such items. You are responsible for personally and thoroughly inspecting the parcels prior to submitting a bid or application and buyers assume all responsibility for such items.

## Subdividing Agriculture Parcels

Agricultural parcels may not be subdivided until patented and must comply with state and/or local platting requirements. After a patent is received, the owner may subdivide under the authority of AS 38.05.321(a)(2), **after first** applying and paying the required fees to the state, including the right to construct housing on each subdivided parcel. The subdivision may not create more than 4 parcels. No parcel may be less than 40 acres.

There are exceptions:

- For each subdivided parcel of at least 640 acres, there is no payment to the State of Alaska for the right to construct housing;
- If a subdivided parcel is to be conveyed to a member of the owner's immediate family, the payment may be delayed until the parcel is conveyed outside of the immediate family. There will be a lien on the parcel until the payment is made. Your immediate family may include your spouse as well as your parent, child (including your stepchild or adoptive child), or sibling (your brother or sister), if your parent, child, or sibling lives with you, depends on you financially, or shares a substantial financial interest with you.

## Future Offerings

The State of Alaska reserves the right to offer additional parcels of land adjacent to or near previously sold parcels, thereby potentially increasing the population density or frequency of use in an area. Public notices about potential State disposals are available at [http://dnr.alaska.gov/mlw/landsale/public\\_notice](http://dnr.alaska.gov/mlw/landsale/public_notice)

## Nomination of Land for Future Offerings

The Department of Natural Resources seeks nominations from the public for sales of State-owned land and considers public interest when offering land for sale. You have an opportunity to make your interest known by participating in the land nomination process. The request must be in writing on a land sale nomination form, which is used to document public input in the land sale planning process. Land sale nomination forms are available at DNR Public Information Centers and online at

<http://landsales.alaska.gov/> and [http://dnr.alaska.gov/mlw/factsht/land\\_fs/land\\_nominating.pdf](http://dnr.alaska.gov/mlw/factsht/land_fs/land_nominating.pdf)

There is no fee for nominating land for a State land sale and you may submit nomination forms for more than one area. If you are interested in nominating State-owned land for sale through our disposal programs, fill out a nomination form and return it to a DNR Public Information Center. You must include basic information about the location of the nominated land, whether or not the land is owned by the State of Alaska, and whether or not it is designated or classified for agriculture under land use plans or designated for some other use. To view the land management plans for state lands please visit <http://dnr.alaska.gov/mlw/planning/index.cfm>. The nomination form lists additional resources you can use to check if land you nominate qualifies for the State's consideration to sell.

Land sale nomination forms do not confer rights or priority in the lands nominated to any member of the public. The nomination is not a claim, does not imply that you have the right to use or occupy the land nominated, nor is the State obligated to sell or otherwise dispose of the land. In addition, disposals must be conducted competitively so that nominating parties are not guaranteed any right to purchase.

After the land nominations are received, DNR researches the nominations and acceptable nominations may be incorporated into future land sale offerings depending on feasibility and other factors. Land sale offerings are subject to a formal decision-making process. DNR considers State laws, regulations, established policies, the character of the land, recommendations made by resource experts, and public input when issuing decisions. DNR also solicits public comment on proposals before the land can be offered for sale.

# CONSERVATION REQUIREMENTS

## State Farm Conservation Plan

The successful bidder will be required to submit a State Farm Conservation Plan (SFCP) that is first reviewed by the local Soil and Water Conservation District and then sent to the Division of Agriculture, 3700 Airport Way Fairbanks, Alaska 99709. The director of the Division of Agriculture is responsible for approval of farm plans. For parcels purchased during the sealed bid auction, the SFCP must be submitted to the Division of Agriculture for approval no later than 5:00 p.m., October 13, 2017.

The conservation plan follows a standard format as required by the Department of Natural Resources. The form may be picked up at the Division of Agriculture in Fairbanks or Palmer, and will be given to the successful bidder after the auction. The contract for sale will not be issued until an approved State Farm Conservation Plan is submitted.

A SFCP must be prepared by the successful bidder/purchaser. Information and assistance in the preparation of the SFCP is available from numerous sources including the Division of Agriculture, local Soil and Water Conservation Districts, the USDA Natural Resource Conservation Service, Department of Fish and Game, and the University of Alaska Extension Service. A SFCP must include:

1. A map of the farm showing:
  - the planned location of clearing and breaking of ground;
  - planned location of windbreaks, farm pond, and similar conservation measures and improvements; and
  - planned location of real property improvements (house, barn, fence, etc.)
2. Access roads, legal easements, and existing physical features such as water bodies;
3. Planned soil conservation measures;
4. A plan for burning any clearing debris, including any vegetation that has previously been chained-down.
5. A supplementary written narrative.

The successful bidder submits a SFCP to the appropriate Soil and Water Conservation District for review, comment and if signed by the board of supervisors, forward the plan to the Division of Agriculture for approval. The approved SFCP is included by reference as an attachment to the sale contract.

Consideration by the purchaser and the reviewers should be given to, among other things, the type of crops as they relate to the natural conditions including soils, slope, moisture, temperatures, and local wildlife.

If the successful bidder fails to provide an acceptable SFCP by the deadline, or within an extension of time granted in writing by the Director of the Division of Agriculture, the preparation of a sale contract will be terminated and the parcel forfeited. Any modification of the SFCP will require the same review process as the original plan. The new purchaser will, as a condition of the contract, be required to comply with the approved SFCP to the satisfaction of the Director of the Division of Agriculture. Development of a parcel in a manner not in the approved SFCP may constitute a breach of contract. If a purchaser is found to be in Breach, a default notification may be issued. If a default notice is issued and if the default is not cured, it may result in a decision by the state to terminate the sale agreement. (AS 38.05.065)

## Farm Clearing Requirement and Maintenance of Farmland

These parcels may be subject to clearing and tillage requirements. In general the requirement is 25% of the cropland soils as determined by the Division of Agriculture improved to a farmable condition within five years of issuance of the sale contract and maintained in that condition throughout the term of the sale contract. Patent will not be issued until the clearing requirement is met. In addition, patent will not be issued if the land has not been maintained in a farmable condition for the term of the contract.

“Improved to a farmable condition” is defined as:

- a) removal of essentially all woody material from the surface and subsurface; areas used for storage of such woody material shall have been surface-cleared prior to deposit of material;
- b) an initial tillage operation (“breaking”) sufficient to render the cleared land tillable by standard tillage implements such as tandem disc-harrow, fertilizer spreader, press drill.

## Agricultural Land Sales

The sale of the agricultural interest is the conveyance of the surface estate in fee simple subject to conditions and covenants relating to agricultural use and development. The required covenants are:

1. A perpetual covenant for the benefit of all Alaska residents and running with the land that restricts or limits the use of the land for agricultural purposes; and
2. A perpetual covenant that permits the owner of the land, obtained under this contract, to subdivide and convey not more than four parcels of the land of not less than 40 acres each, subject to the restriction that a subdivided parcel may not be further subdivided and further subject to the limitations established within AS 38.05.321(e).

Agricultural Purposes are defined in statute as:

1. The production, for commercial or personal use, of useful plants and animals;
2. The construction of:
  - housing for landowners and farm laborers,
  - improvements for animals,
  - improvements that are reasonably required for or related to agricultural uses;
3. The use of gravel reasonably required or related to agricultural production **on** the parcel conveyed; and
4. Removal of and disposition of timber in order to bring agricultural land into use.

## Special Information

These parcels are being sold under the state’s Agricultural land disposal program. Prospective buyers should, however, be aware that while these parcels do have soils suitable for growing crops, the elevation, aspect, presence of permafrost and other physical conditions may limit crop selection and/or require special management techniques in developing the agricultural potential.

## Noxious Weeds

Pursuant to State law AS 03.05.010 - .030, AS 44.37.030 and Regulations 11 AAC 34.020 -.045, Alaskan agricultural land owners are required to control and eradicate certain “pest” plants that may be found growing on or be introduced into Alaskan soils. These prohibited and restricted noxious weeds may be found within cropland areas of the parcel being sold. For additional information, please contact the Alaska Cooperative Extension office nearest the subject parcel.

### **STATE OF ALASKA PROHIBITED AND RESTRICTED NOXIOUS WEEDS**

(A) The following are prohibited noxious weeds:

- Bindweed, field (*Convolvulus arvensis*);
- Fieldcress, Austrian (*Rorippa austriaca*);
- Galensoga (*Galensoga parviflora*);
- Hempnettle (*Galeopsis tetrahit*);
- Horsenettle (*Solanum carolinense*);
- Knapweed, Russian (*Centaurea repens*);
- Lettuce, blue-flowering (*Lactuca pulchella*);
- Orange Hawkweed (*Hieracium Aurantiacum*);
- Purple Loosestrife (*Lythrum Salicaria*);
- Quackgrass (*Agropyron repens*);
- Sowthistle, perennial (*Sonchus arvensis*);
- Spurge, leafy (*Euphorbia esula*);
- Thistle, Canada (*Cirsium arvense*); and
- Whitetops and its varieties (*Cardaria draba*, *C. pubescens*, *Lapidium latifolium*).

## ONLINE RESOURCES

These websites are listed here as a reference to assist you when researching a parcel, a land region, or certain development restrictions or policies. They may also include links to appropriate regional offices and phone numbers. This is by no means a complete list of agencies that have authority over all aspects of land ownership and development, but it is a good place to start. Many of these websites are referenced throughout this brochure.

## AUCTION INFORMATION

**Important:** YOU DO NOT HAVE TO BE A RESIDENT OF ALASKA TO PARTICIPATE IN THIS STATE AGRICULTURAL LAND AUCTION. THIS IS ONLY TRUE FOR AGRICULTURE LAND AUCTIONS. STATE AUCTIONS OF RESIDENTIAL AND RECREATIONAL LAND DO HAVE A RESIDENCY REQUIREMENT.

### Privacy Notice

AS 38.05.035 (a) Powers and Duties of the Director authorizes the DMLW Director to decide what information is needed to process an application for the sale or use of State-owned land or resources. This information is made a part of the State public land records and becomes public information under AS 40.25.100 Disposition of Tax Information and AS 40.25.120 Public Records; Exceptions; Certified Copies. Public information is open to inspection by you or any member of the public unless the information qualifies for confidentiality under AS 38.05.035 (a) (8) and confidentiality is requested, or AS 45.48 Alaska Personal Information Protection Act. **Under AS 45.48, certain personal information (such as social security numbers, credit card numbers, bank information, etc.) is held confidential. However, all other information concerning bids or applications to purchase State-owned land is considered public and available upon request.** Such public information may include, but is not limited to bids, bidding parties, sale terms, and payment histories.

A person who is the subject of the information may challenge its accuracy or completeness under AS 40.25.310 Information Accuracy and Completeness by giving a written description of the challenged information, the changes needed to correct it, and a name and address where the person can be reached. **False statements made in an application for a benefit are punishable under AS 11.56.210 Unsworn Falsification in the Second Degree.**

### Brochure Amendments - Errata

At times, modifications in the terms of a land offering become necessary after the publication of the brochure. Changes are announced and published as soon as possible in supplemental information sheets called errata. **It is your responsibility to stay informed of any changes or corrections prior to submitting a bid or application and prior to the actual auction or offering.** You may obtain a copy of new or existing errata from the DNR Public Information Centers or online at <http://landsales.alaska.gov/>

For important updates, you may also subscribe to our email notification list at the link above.

**DNR reserves the right to make changes up to the time a contract or patent is issued. DNR also reserves the right to waive technical defects or errors in this publication.**

### Right to Adjourn/Postpone/Cancel

This brochure is intended for informational purposes only and does not constitute an offer to sell. DNR reserves the right to postpone or cancel an offering, in whole or in part, if necessary to protect the interest of the State. Such a postponement or cancellation may occur at any time prior to or during the offering, even after the apparent high bidder has been notified, but prior to DNR signing a final conveyance document. This policy applies to all land offerings. In the event that DNR cancels an offering, deposits will be returned.

## **Bidder Responsibility to Keep Address Current with CIRR**

Any notice or other correspondence sent to you is sufficient if mailed to the last address of record, even if it does not reach you. **Throughout the bid/application, contract, and patent processes, in accordance with 11 AAC 67.005 (g) General Qualifications, an applicant or bidder is responsible for keeping DNR DMLW, Contract Initiation and Revenue Recovery (CIRR) at 550 W. 7th Ave., Ste. 640, Anchorage, Alaska 99501, (907) 269-8594, Fax (907) 269-8514, informed of their current address.** The application or bid is subject to rejection if CIRR is unable to contact the applicant or bidder at the current address of record. **Please note that notifications sent to other Sections, Divisions, or Departments may not reach CIRR and your records may not be updated. Failure to keep your address and contact information current with CIRR could result in closure of your application, loss of all opportunity, right, title, and interest in the land, or termination of your contract.**

## **Appeals**

An aggrieved bidder may appeal in writing to the Commissioner of DNR within 5 days after the Sealed-Bid Auction for a review of the Director's determination (AS 35.05.055 Auction Sale Procedures). Appeals may be sent by mail to Commissioner, Department of Natural Resources, 550 West 7th Avenue, Suite 1400, Anchorage, Alaska 99501, by fax to (907) 269-8918, or by electronic mail to [dnr.appeals@alaska.gov](mailto:dnr.appeals@alaska.gov).

## **Filing Policy for State of Alaska Employees**

State of Alaska employees, employees of State-funded agencies (such as the University of Alaska), or employees of a contractor employed by the State of Alaska or a State-funded agency, who gained knowledge of a land offering area at State of Alaska expense or were in a position to obtain inside information about the offering process, may not file a sealed bid during the last 15 days of the bidding period and may not acquire land within the first 30 days that it is available over the counter (11 AAC 67.005 General Qualifications).

## SEALED-BID AUCTION PARTICIPATION

**Important: As a bidder in the Sealed-Bid Auction, it is your responsibility to prove that you are eligible to participate in the program in accordance with 11 AAC 67.005-.010 Disposal of Land Administrative Provisions. Please read this brochure thoroughly before you submit a bid.**

### Sealed-Bid Auction Bidder Qualifications

**You do not have to be a resident of the State of Alaska to participate in this sealed-bid auction for agricultural land.**

**Corporations, businesses, and non-Alaska residents ARE eligible to bid for parcels of agricultural land in this Sealed-Bid Auction.**

Past participation in previous open-to-entry, agriculture parcel, remote parcel, homesite, homestead, subdivision lottery, auction, over-the-counter, or Remote Recreational Cabin Sites offerings does not prohibit you as an individual from participating in this offering. You may also participate in subsequent offerings under this program, if eligible at the time of bid or application.

To be a qualified bidder, an individual must be at least 18 years of age on or before the date of the auction or a business authorized to conduct business under the laws of the State of Alaska.

A business must present a copy of its current Alaska Business License to the Division of Agriculture Fairbanks office in an envelope separate from the one containing the bid. Corporations and partnerships must also submit a certificate of compliance issued by the Alaska Department of Commerce, Community and Economic Development, and a corporate resolution affixed with the appropriate corporate seal authorizing the individual to bid and sign sale documents on behalf of the corporation. This documentation should be sent to the Division of Agriculture Fairbanks office in an envelope separate from the one containing the bid(s), so the information can be verified prior to the opening of the bids. Additional documentation may be required by the state before a contract will be written for a business.

Two or more individuals may jointly submit a single bid. To do so, both must be eligible to bid. Successful bidders' names will carry forward to the contract (or patent if the purchase price is paid in full). No names will be added or removed before the contract is executed.

In addition, if you are the successful bidder for a parcel and wish to enter into a purchase contract with the state, you must also certify that you:

- 1) Have not had a Department of Natural Resources lease or purchase contract administratively foreclosed or terminated for cause within the past three years (contact the Contract Initiation and Revenue Recovery Unit at (907) 269-8594 if you have any questions about eligibility);
- 2) Are not currently in default for nonpayment on a purchase contract or lease issued by the department;
- 3) Are not currently in default for nonpayment of municipal taxes or assessments on property currently under a DNR lease or purchase contract;
- 4) Are not currently in default of the clearing and preparation for cultivation requirements of a previous Agricultural purchase contract;
- 5) Are not currently in default of any condition associated with a note, lease or other authorization issued by the Agricultural Revolving Loan Fund.

Purchase contracts will not be issued by the State of Alaska unless all five qualifications listed above are met. If you are the successful bidder for a parcel and do not meet the qualifications for a purchase contract listed above, you must pay the bid amount in full upon notification. Failure to submit payment in full upon notification will result in the forfeiture of bid deposit and loss of purchase rights to the parcel.

Anyone who misrepresents themselves as owners of any of these parcels of land or who wrongfully represents that they have any legal rights to these parcels may be engaged in a fraudulent practice and may be prosecuted to the full extent of the law. If you are approached by someone or become aware of someone who claims any ownership or other legal rights in these parcels, please contact the Department of Natural Resources Public Information Center, at [fbx-pic@DNR.alaska.gov](mailto:fbx-pic@DNR.alaska.gov) or phone (907) 451-2705, and provide any information that you may have.

### **Bidding on Multiple Parcels in the Sealed-Bid Auction**

You may submit bids for as many parcels as you like. However, you may win only one parcel in Sealed-Bid Auction #481.

You will be awarded the first parcel for which you made the qualifying high bid. **Since the order for opening sealed bids is determined by the total number of bids received per parcel, which cannot be determined until after the application period has ended, if you bid on multiple parcels, you may not end up with your first choice.** For example:

*Jane Doe bids on two fictitious Parcels A and B in Sealed-Bid Auction #481. Her favorite is Parcel A, but Parcel B received more bids and is opened first. If she is the highest bidder for Parcel B, she will win that parcel and will be **ineligible** to win Parcel A in Auction #481, even if she would have been the high bidder for that parcel as well.*

Each bid for each parcel must be sent in a separate envelope (or submitted separately online).

### **No Withdrawal of Bids from the Sealed-Bid Auction**

**Please give careful consideration to your bids. Once you have submitted a bid for the Sealed-Bid Auction, it cannot be withdrawn.** If your bid for a parcel submitted within the designated bidding period contains an error, you may lose eligibility to win the opportunity to purchase the parcel in the Sealed-Bid Auction. You may submit new bids on any available parcel during the designated bidding period to correct an error on your bid, change the amount of your bid (as long as it is equal to or greater than the parcel's minimum bid), add bidders to your party, or remove bidders from your party (see the "Multiple Bidders Bidding Together in the Sealed-Bid Auction" section of this brochure for more information). If you submit multiple bids for the same parcel, only the MOST RECENTLY RECEIVED, VALID bid will be considered, even if you submitted a higher or duplicate bid at an earlier time or a later bid with an error.

DNR will not refund the deposits (up to a maximum of 5% of the total bid) if a successful bidder chooses not to purchase the land for any reason. For those apparent high bidders who are not qualified to purchase, due to failure to meet or age requirements other disqualifying factors, the deposit (up to a maximum of \$500.00 plus fees) will be nonrefundable. For those apparent high bidders who are not qualified for a land sales contract (due to prior default, failure to pay taxes or assessments on a property under contract or lease from DNR, or other disqualifying factors) and cannot pay the lump sum due, the deposit (up to a maximum of \$500.00 plus fees) will be nonrefundable. See the "Sealed-Bid Auction Procedures" section of this brochure for more information.

## Multiple Bidders Bidding Together in the Sealed-Bid Auction

Two or more individuals may jointly submit a single bid in the Sealed-Bid Auction. **To do so, all bidders must be eligible to participate.** Names may not be added or deleted after the bid has been submitted. Successful bidders' names will carry forward to the purchase contract and patent when the contract is fulfilled.

**Since you may purchase only one parcel through Sealed-Bid Auction #481, successful joint bidders will be ineligible to individually win an opportunity to purchase an additional parcel in that Sealed-Bid Auction.** For example:

*If John and Jane Doe are the high bidders of fictitious Parcel C in Sealed-Bid Auction #481, both John Doe and Jane Doe are **ineligible** to win any additional parcels, **either as joint applicants or as individuals**, for the remainder of Auction #481.*

**If your previous bid for a parcel had multiple bidders and a subsequent bid for the same parcel is received for just one of the bidders, the subsequent single-party bid will stand and the previous multiple-party bid will NOT be considered.** This can have important implications for the joint bidders. For example:

*If a bid is received jointly from John and Jane Doe for fictitious Parcel D in the Sealed-Bid Auction, and a second bid is received more recently from John Doe individually for that same fictitious Parcel D in that same auction, the previous joint bid for fictitious Parcel D is cancelled. John Doe now has an active bid received for fictitious Parcel D in Sealed-Bid Auction #481, but the party of John and Jane Doe and the individual Jane Doe do not.*

**Likewise, if your previous bid for a parcel listed only you as a single bidder and a subsequent bid for the same parcel is received for multiple bidders including you, the subsequent multi-party bid will stand and the previous individual bid will NOT be considered.**

## Returned Deposits for Unsuccessful Bidders/Applicants

Unsuccessful bidders and applicants may pick up their deposits at the Fairbanks DNR Public Information Center, 3700 Airport Way, Fairbanks Alaska until 5:00 p.m. on the day of the Sealed-Bid Auction, upon proper presentation of identification (valid and current Alaska driver's license or other similar picture identification that matches the bidder's information received with the bid). If not picked up by this time, deposits for unsuccessful bids submitted with a self-addressed, stamped envelope (SASE) and deposit made by cashier's check, personal check, or money order will be returned in the SASE. Unsuccessful bidders' deposits made by credit card authorization or by check without a SASE will be destroyed after the auction. No interest will be paid on the deposit while it is in the possession of the State of Alaska.

## Price Fixing or Misrepresentation

You may not attempt to influence bidding by others, conspire with other purchasers to reduce the price of a parcel, or otherwise act to defeat or manipulate an open, fair-market bidding process. **If you provide false information on forms or other required documents, you may be prosecuted to the full extent of the law.** In addition to any other penalties prescribed by law, you will forfeit monies paid and may lose all opportunity, right, title, and interest in the land.

Anyone who misrepresents him/herself as owner of any of these parcels of land or who wrongfully represents that he or she has any legal rights to these parcels may be engaged in a fraudulent practice and may be prosecuted to the full extent of the law. If you are approached by someone or become aware of someone who claims any ownership or other legal rights in these parcels, immediately report the incident to a DNR Public Information Center and provide any information you have.

## SEALED-BID AUCTION PROCEDURES

**It is your responsibility to complete and submit your bid as instructed throughout this brochure.** All sealed bids must be properly addressed and marked as detailed in the "Instructions to Bidder/Applicant" section of this brochure. Improperly or incompletely addressed or marked bid submissions risk being opened as general correspondence and such bids may be unintentionally divulged. Additionally, improperly or incompletely addressed or marked submissions for the Sealed-Bid Auction risk being excluded from consideration.

### Minimum Bid

The minimum bid for each parcel is the current appraised market value as indicated in this brochure or subsequent errata. **DNR will not accept bids for less than the minimum bid price listed in this brochure or subsequent errata.** You may bid at the minimum bid, although there is no assurance a minimum bid will be a successful high bid.

### Sealed-Bid Auction Bidding Period

**All bids for the 2017 Alaska Agricultural Land Sealed-Bid Auction #481 must be RECEIVED online or at one of the designated DNR offices no sooner than 8:00 a.m., July 10, 2017 and no later than 5:00 p.m., August 18, 2017. DNR date stamps all sealed bids on the day they are received. In accordance with 11 AAC 67.007 Application, DNR will not accept and will reject bids received outside the designated bidding period.** If your bid is rejected for early receipt, you may resubmit your bid at any time during the designated bidding period. Bids will be kept confidential and stored in a safe until the auction.

### Sealed-Bid Opening

The Sealed-Bid Opening will begin at 1:00 p.m., August 23, 2017, in the large conference room in the Fairbanks DNR building located at 3700 Airport Way, Fairbanks, AK 99709. All bids received will be opened. Attendance at the auction is not required and will not affect the outcome. The names of the apparent high bidders will be posted online immediately after the auction at [dnr.alaska.gov/mwl/landsale](http://dnr.alaska.gov/mwl/landsale). **Attendees of the Sealed-Bid Opening will not be allowed to change or withdraw any bids.**

### Order of Bid Opening Determined by Number of Bids Received for Each Parcel

Sealed-Bid Auction bids will be opened in an order determined by the number of bids received for each parcel. The parcel with the most bids will be opened first, the next highest number of bids second, etc. Where an equal number of bids are received for more than one parcel, bids for the parcel with the lowest Parcel # (not ADL #) will be opened first.

### Apparent High Bidder

The eligible bidder from whom the State received a properly completed bid submission with the highest bid amount will be named the apparent high bidder. Bidders will be awarded their first successful bid and will not be eligible to acquire another auction parcel for the remainder of the Sealed-Bid Auction. In the case of multiple applicants on a winning bid, the winning applicants will not be eligible to individually win additional bids for other parcels in Auction #481.

**If there are two or more identical high bids for a parcel, the apparent high bidder will be determined by the earliest DNR date received stamp on the bid envelope (not the postmark). If the date stamps are also identical, then the name of the successful bidder will be determined by a drawing.**

After the auction, a list of results will be available online at <http://landsales.alaska.gov/>

You may need to 'refresh' your browser occasionally to view the updates. Following the auction, DNR Public Information Centers will display a final list.

During the week following the auction, apparent high bidders will be sent a certified Award Notification Letter. DNR must receive the following items from successful bidders within **30 days** of receipt of notification:

1. proof of eligibility;
  - You must certify and prove that you meet the eligibility requirements for the program (see Sealed-Bid Auction Bidder Qualifications section).
  - If there is more than one bidder, all bidders must provide proof of eligibility.
2. a completed Declaration of Intent Form;
3. a nonrefundable document handling fee (11 AAC 05.010 (a) (7) (F) Fees);
4. Any other documents or items requested in the Award Notification Letter.

In addition to the above requirements a state farm conservation plan must be submitted no later than 5:00 p.m., October 13, 2017. An extension of this deadline is possible with approval from the Division of Agriculture.

If an apparent high bidder fails to comply with the requirements stated in this brochure and the Award Notification Letter by the deadline, their bid will be considered void and the parcel may be offered to the second high bidder.

Parcels not sold at this auction may be made available in a future auction.

## SEALED BID INSTRUCTIONS

Bidding and application forms are available in this brochure, on the DNR website at <http://landsales.alaska.gov/> and at the DNR Public Information Centers. Bidding and application forms may be reproduced. Alternatively, bids may be submitted online using credit card or bank account information. **Fax, e-mail, and telephone applications will not be accepted because bids must be sealed until the scheduled opening and such submissions cannot be sealed.**

### Submitting a Sealed Bid Online

To bid on a parcel online, go to: <http://landsales.alaska.gov/> and use your bank or credit card information to complete the submission. The online application process will ask for a MasterCard, Visa, or Discover credit card authorization. Your credit card will only be charged on the day of the Sealed-Bid Auction, if you are the successful bidder for that parcel.

**NOTE: When using the credit card payment option, contact your financial institution to pre-authorize your bid deposit for the day of the auction. Some institutions have authorization limits of \$1,000 per day regardless of available credit.**

### Submitting a Sealed Bid by Mail or in Person

A complete Sealed-Bid Auction application package (for mailing or hand delivery) includes the following 3 items:

1. **a completed 2017 Alaska Agricultural Land Auction Bid Form;**
  - You must certify and prove that you meet the eligibility requirements for the program (see Sealed-Bid Auction Bidder Qualifications section).
  - A separate bid form must be included for each bid submitted for each parcel.
2. **a bid deposit;**
  - A separate bid deposit must be included for each bid submitted.
  - The bid deposit for each bid must be at least 5% of the total bid amount (**CHECK YOUR CALCULATIONS, DO NOT ROUND DOWN!**).
  - You must include payment information and authorization, payable to the State of Alaska, Department of Natural Resources. **DO NOT LEAVE YOUR CHECK OR PAYMENT BLANK! Two-party checks will not be accepted. Failure to address or submit your payment as directed may result in loss of all opportunity, right, title, and interest in the parcel. DO NOT SEND CASH!**
  - Payment must be made in the form of a cashier's check, personal check, money order, or credit card. (Visa, MasterCard, or Discover only).

**NOTE: When using the credit card payment option, contact your financial institution to pre-authorize your bid deposit for the day of the auction. Some institutions have authorization limits of \$1,000 per day regardless of available credit.**

  - For successful bidders, the deposit is nonrefundable and will be applied to the purchase price.
3. **a self-addressed, stamped envelope (SASE) to return the bid deposit for an unsuccessful bid submitted with a deposit made by cashier's check, personal check, or money order.** Unsuccessful bidders' deposits made by credit card authorization or by check without a SASE will be destroyed after the auction.

# 2017 Alaska State Land Offering

**If bidding on behalf of a business you must submit the required paperwork,(see page 17) in a separate envelope.**

## Clearly Mark Bids for Sealed-Bid Auction

It is your responsibility to properly complete, mark, and submit your bid as instructed throughout this brochure.

**Each bid submission must be received in a separate, sealed envelope. All bid materials are to be placed in a sealed, interior bid envelope marked as follows:**

2017 ALASKA AGRICULTURAL LAND AUCTION #481

Parcel # \_\_\_\_\_, ADL # \_\_\_\_\_

Names of All Bidders for this Submission: \_\_\_\_\_

Primary Bidder's Mailing Address: \_\_\_\_\_

Primary Bidder's Phone Number(s): \_\_\_\_\_

Primary Bidder's Email Address (Optional): \_\_\_\_\_

There should be no additional markings on the interior envelope.

Place the **sealed, interior** bid envelope inside a **sealed, exterior, delivery** envelope for mailing or hand delivery. You may include more than one sealed, interior bid envelope within a single sealed, external, delivery envelope, but each sealed, interior bid envelope must contain all of the required information for that bid submission as detailed in the "Submitting a Sealed Bid by Mail or in Person" section of this brochure. The **exterior delivery** envelope must be marked with the words "**2017 ALASKA AGRICULTURAL LAND AUCTION #481**" and addressed to the appropriate mailing address for DNR as described in the "Where to Submit Sealed Bids" section of this brochure.

Improperly or incompletely addressed or marked bid submissions risk being opened as general correspondence and such bids may be unintentionally divulged. Additionally, improperly or incompletely addressed or marked submissions for the Sealed-Bid Auction risk being excluded from consideration.

### **Where to Submit Sealed Bids**

As described in the preceding “Submitting a Sealed Bid by Mail or in Person” section of this brochure, sealed-bid envelope(s) must be enclosed in a separate exterior envelope for delivery.

**To submit a sealed bid by mail**, address the **exterior, delivery** envelope to:

**2017 ALASKA AGRICULTURAL LAND AUCTION #481**  
Division of Agriculture  
3700 Airport Way  
Fairbanks, Alaska 99709

Improperly or incompletely addressed or marked bid submissions risk being opened as general correspondence and such bids may be unintentionally divulged. Additionally, improperly or incompletely addressed or marked submissions for the Sealed-Bid Auction risk being excluded from consideration.

**To submit a sealed bid in person by hand delivery**, prepare a submission packet as described for mail submissions. Drop off your **sealed** packet at any DNR Public Information Center listed in the “DNR Public Information Centers” section of this brochure or at any Division of Agriculture office. Be sure to include **2017 ALASKA AGRICULTURAL LAND AUCTION #481** on the exterior, delivery envelope. Improperly or incompletely addressed or marked bid submissions risk being opened as general correspondence and such bids may be unintentionally divulged. Additionally, improperly or incompletely addressed or marked submissions for the Sealed-Bid Auction risk being excluded from consideration. In addition if submitting a bid on behalf of a business submit the required paperwork (see page 17 ) in a separate envelope labeled **Auction 481- Business documents**.

## PURCHASE INFORMATION

Parcels may be purchased either by paying the full purchase price for the parcel in a lump sum, or by entering into a sale contract with the State of Alaska or its authorized representative.

Any notice or other correspondence sent to you is sufficient if mailed to the last address of record, even if it does not reach you. It is your responsibility to maintain a current mailing address and contact information with DNR DMLW, Contract Initiation and Revenue Recovery (CIRR) during the life of the sale contract. **Please note that notifications sent to other Sections, Divisions, or Departments may not reach CIRR and your records may not be updated. Failure to keep your address and contact information current with CIRR could result in closure of your application, loss of all opportunity, right, title, and interest in the land, or termination of your contract.** See the “Bidder/Applicant Responsibility to Keep Address Current with CIRR” section of this brochure for more information.

### Land Sale Contracts

If you are the successful bidder or applicant for a parcel with a qualifying balance due, you may choose to pay for the entire parcel up front, or enter into a purchase contract with the State of Alaska.

### Land Sale Contract Applicant Qualifications

If you elect to enter into a purchase contract with the State of Alaska, in accordance with 11 AAC 67.008, you must also certify that you:

1. have not held a purchase contract or lease issued by DNR that has been administratively foreclosed or terminated for cause within the past 3 years (contact Contract Initiation and Revenue Recovery Section at (907) 269-8596 if you have questions about eligibility);
2. are not currently in default for nonpayment on a purchase contract or lease issued by DNR; and
3. are not currently in default for nonpayment of municipal taxes or assessments on property currently under a purchase contract or lease issued by DNR.

Purchase contracts will not be issued by the State of Alaska unless all 3 qualifications listed above are met. **If you are the successful bidder for a parcel and do not meet requirements listed in the “Land Sale Contract Applicant Qualifications” section of this brochure to qualify for a contract, a lump sum payment will be required. Failure to submit payment in full upon notification may result in the forfeiture of your deposit and loss of purchase rights to the parcel.**

### Lump Sum Payment

If the purchase price minus the minimum 5% down payment, per parcel, is \$2,000 or less, the balance due must be paid in full and a land sale contract will not be issued (11 AAC 67.875 Installment Payments). The balance after down payment plus a nonrefundable document handling fee (11 AAC 05.010 (a) (7) (F) Fees) will be due for these parcels within **30 days** after the Award Notification Letter is received by an apparent high bidder in the Sealed-Bid Auction. **If an apparent winner fails to comply with these requirements, it is the applicant’s decision not to move forward and thus the applicant will forfeit all or part of the deposit and lose all opportunity, right, title, and interest in the land.**

### Preference Rights

A Preference Right application period will be NOT be held because the parcels being offered do not meet the requirements under AS 38.05.069. To be eligible for a preference right the parcel has to be smaller than 320 acres.

## Land Sale Contract Terms

**There is no veteran's discount for agricultural land sales. Veteran's discount only apply to the sale of land classified settlement as per 11 AAC 67.891(a).**

The terms for purchasing State-owned land by sale contract are:

- minimum down payment of five percent (5%) of the purchase price;
- nonrefundable document handling fee (11 AAC 05.010 (a) (7) (F) Fees); and
- contract for payment of the balance, with interest, over a period of up to 20 years based on the following parameters:

DNR will provide for a monthly installment payment schedule unless DNR determines that a quarterly or annual installment payment schedule is more administratively efficient. Monthly principal and interest payments will be set on a level-payment basis according to the following financed principal amounts (11 AAC 67.875 Installment Payments):

- \$2,000.00 or less must be paid in full at time of purchase;
- \$2,000.01 to \$9,999.99, contract length will not be more than 5 years;
- \$10,000.00 to \$14,999.99, contract length will not be more than 10 years;
- \$15,000.00 to \$19,999.99, contract length will not be more than 15 years; and
- \$20,000.00 or more, contract length will not be more than 20 years.

The interest rate on all land sale contracts will be 3% plus the prime rate as reported in the Wall Street Journal on the first business day of the month in which the contract is sent to you for signature; not to exceed 9.5%. Interest begins to accrue on the effective date shown on the face of the contract.

You may, at any time, pay more than the required payment. DNR does not charge a prepayment penalty. You may make payments in person, by mail, or online. Checks returned for any reason may invalidate the transaction and terminate all rights of the purchaser.

**Important:** The State of Alaska does not allow early entry for development activity until the sale contract or patent is issued. Please contact the Contract Initiation and Revenue Recovery at (907) 269-8594 for additional information.

## Service Charge

Once the contract for sale has been executed, you will owe a service fee for any late or returned payment as follows:

- Late Payment Penalty: A breach caused by the failure of the purchaser to make payments required by the contract may be cured by payment of the sum in default and a fee (AS 38.05.065 (d) Terms of Contract of Sale) of \$50.00 or five percent (5%) of the sum in default, whichever is larger. Contract payments received apply first toward any late fees, then toward interest owed, and any remainder reduces the principal balance.
- Returned Payment Penalty: A returned payment fee as provided in 11 AAC 05.010 Fees, will be assessed for any payment that the bank refuses. The default termination date (the date payment is due) will not be altered due to a delay caused by a bank refusing payment. Late penalties, as previously described in this section, shall continue to accumulate.

## Land Sale Contract as a Legal, Binding Contract

Once you have signed a State of Alaska land sale contract, you have entered into a legal, binding contract. Your money will not be refunded if the contract is in default, has been relinquished, or is otherwise terminated.

## PARCEL INFORMATION

Parcel # & ADL #	Minimum Bid	Total Acres	Cropland Acres	Clearing Requirement (Acres)	Easements & Reservations
Parcel # 1 ADL 418442	\$70,100	666.512	120	30	A, B, C, D, E, F
Parcel #2 ADL 418446	\$61,800	620.03	200	50	A, B, C, D, E, F
Parcel #3 ADL 418449	\$69,700	641.23	260	65	A, B, C, D, E, F

### Easement & Reservation Codes

- A. Subject to a 50-foot Section Line Easement per AS 19.10.010.
- B. Subject to a perpetual covenant under AS 38.05.321(a)(1) that restricts or limits the use of the land for agricultural purposes.
- C. Subject to a perpetual covenant under AS 38.05.321(a)(2) establishing restrictions on subdivision of parcel.
- D. Subject to all platted and other valid existing rights and reservations existing at the time of the sale.
- E. Subject to the requirements listed under the "General Information" section of this brochure.
- F. Subject to 100' Kobi-MaGrath trail easement, relocated to south 100' of sec. 7-8-9 per RM decision 419846

### Special nature of buying agricultural land from the state

As shown in the above table and mentioned throughout this brochure buying agriculture land from the state comes with a few unique conditions you should consider before submitting a bid.

1. As mentioned above the land is subject to a perpetual covenant restricting the use of the land for agricultural purposes. You cannot pay to have this covenant removed, it stays with the land forever.
2. After you receive patent to the land you can only subdivide the parcel one time into no more than 4 parcels, each being 40-acres or larger. You will have to purchase a housing right for each new parcel created by the subdivision (Contact DNR for current fee). You may have a lien for the housing rights put on the new parcels if you are not transferring them outside your immediate family. You will need new farm conservation plans for each parcel in the subdivision before you can receive the required letter of non-objection from the state to complete the subdivision process.
3. Each parcel comes with a clearing requirement and this can prove to be a significant investment. Call some contractors to get an idea of the cost and factor this into your decision whether to submit a bid. Generally you will have five years to do the clearing and the land must stay in that condition until you payoff the contract and receive patent.
4. You must have an approved state farm conservation plan in place before you can go to contract with the state. The plan can be modified but the farm must be operated according to the most current plan in place. The plans are developed with the help of the local Soil and Water Conservation District and submitted to the Division of Agriculture for final approval.
5. All activities on the land must be "incidental to and not inconsistent with the primary use of the land for agricultural purposes." AS 38.05.321(3)(A)

# AREA MAPS

Access to the Parcels

Access to the parcels is via Parks Highway to approximately Milepost 275, about 28 miles south of Nenana. Just south of the Coghill Bridge is a row of mailboxes on the west side of the highway and a road sign for Kobe road. Take Kobe Road west for 1.8 miles to a dirt road (Battle Axe Lane). Kobe Road turns into a trail at that point. Turn right for one mile and you will be at the southwest corner of parcel three and the southeast corner of parcel 2. From here you can use your four-wheel drive vehicle to explore the parcels. The northern edge of the parcels is not suited for highway vehicles as there are big dips that might bottom out all but the highest vehicles. These roads get very wet during certain period throughout the years, especially in the spring and fall.

Southern edge of parcel 2, on right.

## SOILS INFORMATION

The soils information contained in this brochure was derived from the Natural Resources Conservation Services' web soil survey site (<http://websoilsurvey.nrcs.usda.gov/app/WebSoilSurvey.aspx>). The relevant spatial soil data was brought into a GIS program and combined with parcel data. Once the soil composition of the parcel was determined using the web soil survey data the map unit information (soil descriptions) were taken directly from the map unit report.

All the soil descriptions contain a nonirrigated land capability classification rating that consists of a numerical class and letter subclass, e.g. 3w. Land capability classification shows, in a general way, the suitability of soils for most kinds of field crops. Crops that require special management are excluded. The soils are grouped according to their limitations for field crops, the risk of damage if they are used for crops, and the way they respond to management. The criteria used in grouping the soils do not include major and generally expensive landforming that would change slope, depth, or other characteristics of the soils, nor do they include possible but unlikely major reclamation projects. Capability classification is not a substitute for interpretations that show suitability and limitations of groups of soils for rangeland, for woodland, or for engineering purposes.

These classifications are given as very general guidelines of the potential limiting factors relating to a parcels cropland potential. They are not definitive and potential bidders should inspect any parcel for its suitability for their planned agricultural use.

Capability classes, the broadest groups, are designated by the numbers 1 through 8. The numbers indicate progressively greater limitations and narrower choices for practical use. The classes are defined as follows:

- Class 1 soils have few limitations that restrict their use.
- Class 2 soils have moderate limitations that reduce the choice of plants or that require moderate conservation practices.
- Class 3 soils have severe limitations that reduce the choice of plants or that require special conservation practices.
- Class 4 soils have very severe limitations that reduce the choice of plants or that require very careful management.
- Class 5 soils are subject to little or no erosion but have other limitations, impractical to remove, that restrict their use mainly to pasture, rangeland, forestland, or wildlife habitat.
- Class 6 soils have severe limitations that make them generally unsuitable for cultivation and that restrict their use mainly to pasture, rangeland, forestland, or wildlife habitat.

Capability subclasses are soil groups within one capability class. They are designated by adding a small letter, "e," "w," "s," or "c," to the class numeral, for example, 2e. The letter "e" shows that the main hazard is the risk of erosion unless close-growing plant cover is maintained; "w" shows that water in or on the soil interferes with plant growth or cultivation (in some soils the wetness can be partly corrected by artificial drainage); "s" shows that the soil is limited mainly because it is shallow, droughty, or stony; and "c," used in only some parts of the United States, shows that the chief limitation is climate that is very cold or very dry.

Contact NRCS or the local Soil and Water Conservation District for more information about the soils for a particular area or parcel.

**Donnelly silt loam** - Slopes are 0 to 3 percent. This component is on fans. The parent material consists of loess over sandy and gravelly alluvium and/or sandy and gravelly outwash. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is somewhat excessively drained. Water movement in the

most restrictive layer is moderately high. Available water to a depth of 60 inches is low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 90 percent. Nonirrigated land capability classification is 6s. This soil does not meet hydric criteria.

**Nenana-Sawmill Creek complex.**

**Nenana** - Slopes are 0 to 3 percent. This component is on alluvial fans. The parent material consists of loess over alluvium. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches is moderate. Shrink-swell potential is low. This soil is not flooded. It is occasionally ponded. A seasonal zone of water saturation is at 0 inches during April. Organic matter content in the surface horizon is about 82 percent. Nonirrigated land capability classification is 3s. This soil does not meet hydric criteria.

**Sawmill Creek** - Slopes are 0 to 2 percent. This component is on alluvial fans. The parent material consists of loess over outwash. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is low. Available water to a depth of 60 inches is low. Shrink-swell potential is low. This soil is not flooded. It is frequently ponded. A seasonal zone of water saturation is at 0 inches during April. Organic matter content in the surface horizon is about 85 percent. Nonirrigated land capability classification is 3s. This soil does not meet hydric criteria. The calcium carbonate equivalent within 40 inches, typically, does not exceed 5%.

**Donnelly - Lupine complex.**

**Donnelly** - Slopes are 0 to 2 percent. This component is on fans. The parent material consists of loess over sandy and gravelly alluvium and/or sandy and gravelly outwash. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is somewhat excessively drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches is low. Shrink-swell potential is low. This soil is not flooded. It is not ponded. There is no zone of water saturation within a depth of 72 inches. Organic matter content in the surface horizon is about 90 percent. Nonirrigated land capability classification is 6s. This soil does not meet hydric criteria.

**Lupine** - Slopes are 0 to 2 percent. This component is on terraces. The parent material consists of alluvium. Depth to a root restrictive layer is greater than 60 inches. The natural drainage class is well drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches is moderate. Shrink-swell potential is low. This soil is not flooded. It is frequently ponded. A seasonal zone of water saturation is at 0 inches during March, April. Organic matter content in the surface horizon is about 80 percent. Nonirrigated land capability classification is 4s. This soil does not meet hydric criteria.

**Windy Creek-Browne complex**

**Windy Creek** - Slopes are 0 to 2 percent. This component is on alluvial fans. The parent material consists of loess over alluvium. Depth to a root restrictive layer, permafrost, is 12 to 35 inches. The natural drainage class is poorly drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches is low. Shrink-swell potential is low. This soil is not flooded. It is frequently ponded. A seasonal zone of water saturation is at 0 inches during January, February, March, April, May, June, July, August, September, October, November, December. Organic matter content in the surface horizon is about 90 percent. Nonirrigated land capability classification is 6w. This soil meets hydric criteria.

**Browne** - Slopes are 0 to 2 percent. This component is on alluvial fans. The parent material consists of loess over alluvium. Depth to a root restrictive layer, permafrost, is 14 to 30 inches. The natural drainage class is poorly drained. Water movement in the most restrictive layer is moderately high. Available water to a depth of 60 inches is low. Shrink-swell potential is low. This soil is not flooded. It is frequently ponded. A seasonal zone of water saturation is at 0 inches during January, February, March, April, May, June, July, August, September, October, November, December. Organic matter content in the surface horizon is about 90 percent. Nonirrigated land capability classification is 6w. This soil meets hydric criteria.

Parcel Location Approximate. For representative purposes only.

**Legal Description:**

Section 7, Township 8 South, Range 9 West; Fairbanks Meridian, containing 666.512 acres, more or less, according to the Alaska State Cadastral Survey of Sections 4-9, 16-21, & 27-30, A Portion of Tract "A", T. 8 S., R. 9 W., F.M., Alaska, Nenana Recording District, Plat 85-24, filed on December 17, 1985.

**Title Quality:** State Patent (Fee Title subject to Agricultural Covenants per AS 38.05.321)

Acquired under Statehood entitlement: General Purpose Grant - Statehood entitlement under Sec.6(b) of the Act of July , 1958, 72 Stat. 339 as amended. The State received Tentative Approval (see page 6) for the land and mineral estate under this entitlement on 4/1/80. The State case file is GS-690.

**Clearing Requirement:** 30 Acres

To be completed within five years from the date the purchase contract is signed. Please see page 12 for a description of the clearing and maintenance of farmland requirement.

**Improvements Currently on Parcel:** None

**Access:** See page 29 for a discussion of access to the parcel

**Municipality:** The parcel is within the Denali Borough and subject to local ordinances. The Borough is also the local taxing and platting authority.

**Present Use:** Public recreation and wildlife habitat

**Notes:** Please note that this parcel was affected by wildfire in 2015 (See map on p.35. The burn affected the northern portion of the parcel burning approximately 67 acres. Once cleaned to tillable condition this land can be used as part of the clearing requirement but does not have to be used as such.

**Parcel #1**  
**ADL 418442**  
**666.51 Acres**  
**Minimum Bid: \$70,100**  
**Clearing Requirement: 30 Acres**  
**T08S, R09W, Sec. 7, F.M.**

Parcel Location Approximate. For representative purposes only.

**Legal Description:**

Tract A of Alaska State Land Survey No. 2011-39, containing 620.03 acres, more or less, according to the survey plat recorded in the Nenana Recording District on November 11, 2015 as plat 2015-3. This parcel is located within Section 8, Township 8 South, Range 9 West, Fairbanks Meridian.

**Title Quality:** State Patent (Fee Title subject to Agricultural Covenants per AS 38.05.321)

Acquired under Statehood entitlement: General Purpose Grant - Statehood entitlement under Sec.6(b) of the Act of July , 1958, 72 Stat. 339 as amended. The State received Tentative Approval (see page 6) for the land and mineral estate under this entitlement on 4/1/80. The State case file is GS-690.

**Parcel #2**  
**ADL 418446**  
**620.03 Acres**  
**Minimum Bid: \$61,800**  
**Clearing Requirement: 50 Acres**  
**T08S, R09W, Sec. 8, F.M.**

**Clearing Requirement:** 50 Acres

To be completed within five years from the date the purchase contract is signed. Please see page 12 for a description of the clearing and maintenance of farmland requirement.

**Improvements Currently on Parcel:** None

**Access:** See page 29 for a discussion of access to the parcel

**Municipality:** The parcel is within the Denali Borough and subject to local ordinances. The Borough is also the local taxing and platting authority.

**Present Use:** Public recreation and wildlife habitat

**Notes:** Please note that this parcel is not a complete section. Tract B of ASLS 2011-39, containing 20 acres near the southeast corner of the section, will be retained by the state as a parking area for people heading out to the Clear Sky Staking area.

**Parcel #3**  
 ADL 418449  
 641.23 Acres  
 Minimum Bid: \$69,700  
 Clearing Requirement: 65 Acres  
 T08S, R09W, Sec. 9, F.M.

Parcel Location Approximate. For representative purposes only.

**Legal Description:**

Section 9, Township 8 South, Range 9 West; Fairbanks Meridian, containing 641.230 acres, more or less, according to the Alaska State Cadastral Survey of Sections 4-9, 16-21, & 27-30, A Portion of Tract "A", T. 8 S., R. 9 W., F.M., Alaska, Nenana Recording District, Plat 85-24, filed on December 17, 1985.

**Title Quality:** State Patent (Fee Title subject to Agricultural Covenants per AS 38.05.321)

Acquired under Statehood entitlement: General Purpose Grant - Statehood entitlement under Sec.6(b) of the Act of July , 1958, 72 Stat. 339 as amended. The State received Tentative Approval (see page 6) for the land and mineral estate under this entitlement on 4/1/80. The State case file is GS-690.

**Clearing Requirement:** 65 Acres

To be completed within five years from the date the purchase contract is signed. Please see page 12 for a description of the clearing and maintenance of farmland requirement.

**Improvements Currently on Parcel:** None

**Access:** See page 29 for a discussion of access to the parcel

**Municipality:** The parcel is within the Denali Borough and subject to local ordinances. The Borough is also the local taxing and platting authority.

**Present Use:** Public recreation and wildlife habitat

# 2015 FIRE INFORMATION

In 2015 the Rex Fire swept through this area. Only parcel #1 was actually burned but parcel #2 was subjected to a mile and a half fire break. The affect of the fire will impact how and where clearing will be done. Bidders should keep this in mind when bidding.

This picture was taken in 2016 and shows the damage done to Parcel #1. This burned area is over twice the size of the clearing requirement.

This picture, also taken in 2016, shows the “fire break” put in by the firefighters. The break stretches diagonally through Parcel #2 for approximately 1.5 miles.

The appraisal of these parcels has taken into account the affect the 2015 fire had on these parcels.

# 2017 Alaska State Land Auction #481- AUCTION BID FORM

Please read all the information in this Brochure and any errata before completing this form.

Please PRINT LEGIBLY when filling out this form and sign the certification below.

Name(s): \_\_\_\_\_

Authorized Agent (if any): \_\_\_\_\_

Mailing Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ Zip Code \_\_\_\_\_

Daytime Telephone Number: \_\_\_\_\_ Alternate number \_\_\_\_\_

I hereby submit a bid to purchase Parcel # \_\_\_\_\_

The amount of my bid is (please write out the amount in words and numbers): \$ \_\_\_\_\_

\_\_\_\_\_ Dollars\*\*\*\*\*

### BIDS LOWER THAN THE MINIMUM BID AMOUNT WILL BE REJECTED

The amount of my bid deposit is \$ \_\_\_\_\_ (minimum 5% of the bid amount –ROUND UP!)

I have enclosed a personal check, money order, cashier's check, or a certified check, payable to the Department of Natural Resources, or have provided Visa, MasterCard, or Discover information and authorization for payment, in an amount not less than five percent of the bid amount as a bid deposit to purchase the above described parcel. I agree that the bid amount represents the purchase price that I shall pay for the parcel if my offer is accepted. I further agree that the bid deposit also constitutes a deposit required under AS 38.05.860(a) to reimburse the department for costs incurred in the disposal, and an earnest money deposit required under AS 38.05.860(b). If my offer is accepted, and for whatever reason I decide not to purchase the parcel, I understand that this bid deposit shall be forfeited as earnest money to the State of Alaska.

**By my signature below, I hereby certify that:**

- I am 18 years of age or older;
- I have checked for any erratas or supplemental information and accept the terms and conditions therein, and;
- I am making an unconditional promise to pay, on demand or on the date of acceptance of this bid, a bid deposit of at least 5% of the bid amount, to the order of the Department of Natural Resources.

**By signing below, I also acknowledge that if I am the successful bidder and do not meet the qualifications for a purchase contract listed below, I must pay the bid amount in full.**

- I have not held a purchase contract or lease issued by the department that has been administratively foreclosed or terminated for cause within the past three years;
- I am not currently in default for nonpayment on a purchase contract or lease issued by the department;
- I have not been notified that I am in default for nonpayment of municipal taxes or assessments on a purchase contract or lease issued by the department;
- I am not currently in default of the clearing and preparation for cultivation requirements of a previous Agricultural purchase contract, and;
- I am not currently in default of any condition associated with a note, lease or other authorization issued by the Agricultural Revolving Loan Fund.

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

Signature: \_\_\_\_\_ Date: \_\_\_\_\_

NOTE: This bid form must be filled out completely and submitted with all of the appropriate attachments and fees. Failure to do so may result in the rejection of your bid. AS 38.05.035(a) authorizes the director to decide what information is needed to process an application for the sale or use of state land and resources. This information is made a part of the state public land records and becomes public information at the time the bid is opened under AS 40.25.110 and 40.25.120 (unless the information qualifies for confidentiality under AS 38.05.035(a) (9) and confidentiality is requested). Public information is open to inspection by you or any member of the public. A person who is the subject of the information may challenge its accuracy or completeness under AS 44.99.310, by giving a written description of the challenged information, the changes needed to correct it, and a name and address where the person can be reached. False statements made in an application for a benefit are punishable under AS 11.56.210.

Please read the back of this form for more information and to pay by Credit Card

CREDIT CARD USERS: This authorization constitutes an unconditional promise to pay the bid deposit amount, if you are the successful bidder. This authorization includes consent to adjust the amount charged if the amount you specify is less than the required 5% of the bid amount. Your credit card will not be charged unless you are the successful bidder when all bids are opened. All credit card information will be destroyed immediately following the auction and will not become public information. Please print information clearly.

Check one: VISA \_\_\_\_\_ Mastercard \_\_\_\_\_ Discover \_\_\_\_\_

Credit Card Number: \_\_\_\_\_ - \_\_\_\_\_ - \_\_\_\_\_

Expiration Date: \_\_\_\_\_ Amount of Charge: \$ \_\_\_\_\_

Name on Card: \_\_\_\_\_

Billing Address (optional): \_\_\_\_\_

Customer Signature: \_\_\_\_\_

Phone Number: \_\_\_\_\_  
*Please provide a phone number where you can be reached the day of the auction*

Note: All hand delivered bids must be received at one of the Department of Natural Resources' Public Information Centers or a Division of Agriculture office no later than 5:00 p.m., August 18, 2017. All hand delivered bids will be time-stamped when received. Mailed bids should be sent to:

2017 Alaska Agricultural Land Auction #481  
Division of Agriculture  
3700 Airport Way  
Fairbanks, Alaska 99709

Please submit this bid form inside an envelope and place that envelope inside an other envelope. The outside of the interior envelope should be labeled:

2017 ALASKA AGRICULTURAL LAND AUCTION #481  
Parcel # \_\_\_\_\_, ADL # \_\_\_\_\_  
Names of All Bidders for this Submission: \_\_\_\_\_  
Primary Bidder's Mailing Address: \_\_\_\_\_  
Primary Bidder's Phone Number(s): \_\_\_\_\_  
Primary Bidder's Email Address (Optional): \_\_\_\_\_

This interior envelope should be placed in another envelope which should read 2017 Alaska Agricultural Land Auction #481 if being hand delivered or addressed as shown above.

Bids received after the designated time will not be considered.

**CHECK LIST** Make sure you have included:

Completed bid form \_\_\_\_\_ 5% down payment \_\_\_\_\_ SASE for return of Down Payment \_\_\_\_\_

A separate envelope to put the sealed bid envelope in and addressed appropriately \_\_\_\_\_

If bidding on behalf of a business, mailed all required documents to Dan Proulx at the Division of Agriculture Fairbanks office at the address above separate from the bid submission \_\_\_\_\_

## Where to Submit Sealed Bids

As described in the “Submitting a Sealed Bid by Mail or in Person” section of this brochure, sealed-bid envelope(s) must be enclosed in a separate exterior envelope for delivery.

**To submit a sealed bid by mail**, address the **exterior, delivery** envelope to:

### **2017 ALASKA AGRICULTURAL LAND AUCTION #481**

Division of Agriculture  
3700 Airport Way  
Fairbanks, Alaska 99709

Improperly or incompletely addressed or marked bid submissions risk being opened as general correspondence and such bids may be unintentionally divulged. Additionally, improperly or incompletely addressed or marked submissions for the Sealed-Bid Auction risk being excluded from consideration.

**To submit a sealed bid in person by hand delivery**, prepare a submission packet as described for mail submissions. Drop off your **sealed** packet at any DNR Public Information Center listed in the “DNR Public Information Centers” section of this brochure or at any Division of Agriculture office. Be sure to include “**2017 ALASKA AGRICULTURAL LAND AUCTION #481**” on the exterior, delivery envelope. Improperly or incompletely addressed or marked bid submissions risk being opened as general correspondence and such bids may be unintentionally divulged. Additionally, improperly or incompletely addressed or marked submissions for the Sealed-Bid Auction risk being excluded from consideration. In addition if submitting a bid on behalf of a business submit the required paperwork (see page 17) in a separate envelope labeled **Auction 481- Business documents**.

## Submitting a Bid Online

To bid on a parcel online, go to: <http://landsales.alaska.gov/> and use your bank or credit card information to complete the submission. Business’ must also submit the required paperwork, see page 17.

The online bid process will ask for a MasterCard, Visa, or Discover credit card authorization.

**NOTE: When using the credit card payment option, contact your financial institution to pre-authorize your bid deposit for the day of the auction. Some institutions have authorization limits of \$1,000 per day regardless of available credit.**

## Submitting a Bid by Mail or in Person

Bidding forms are available in this brochure, at the DNR Public Information Centers, and online at: <http://landsales.alaska.gov/>. Bidding forms may be reproduced. Alternatively, applications may be submitted online using credit card or bank account information.

A complete Bid package (for mailing or hand delivery) includes the following 3 items (plus additional paperwork in a separate envelope if submitting on behalf of a business, see page 17 for more details):

1. a completed Bid form available above, online, or at DNR PIC offices;
2. a down payment equal to 5% of the purchase price, (rounded UP)
3. a self-addressed, stamped envelope (SASE) to return the down payment.
