To Whom It May Concern,

Due to the uncertainty generated by the potential government shutdown on July 1st the Alaska Department of Natural Resources, Division of Agriculture (DAG), will be exercising its right to postpone the Kobe North Agricultural Auction #481 and its associated bidding period. The right to postpone is promulgated on page 15 of the Auction #481 Agricultural Land Sale brochure in the section **Right to Adjourn/Postpone/Cancel**.

The original date scheduled to start accepting bids for this auction was June 22, 2017. DAG will set a new bidding period and auction date once state employees are recalled back to work in the event of a government shutdown, or in early July. The new bidding start and end dates, as well as the new auction date will be publicized via email, online notices, and postings at DNR Public Information Centers and the Denali Borough Office.

If you have any questions please contact Dan Proulx at the DAG's Fairbanks office (907) 374-3716 or dan.proulx@alaska.gov or, Erik Johnson in the Palmer office at (907) 761-3863 or erik.johnson@alaska.gov

Sincerely,

A handwritten signature in cursive script that reads "Dan E Proulx".
