This Final Finding and Decision (FFD) complements and updates the Preliminary Decision (PD) dated January 4, 2019. The PD (attached) and related action have had the required public review.

I. Recommended Action(s)

The State of Alaska, Department of Natural Resources (DNR), Division of Mining, Land, and Water (DMLW), Land Sales Section (LSS) recommends offering for sale State-owned land for private ownership within the Chitanana Lake Subdivision project area (ADL 420359), as described in the PD. Surveyed parcels will be offered for future sale by a method under AS 38.05.045 Generally.

For the purposes of providing land for settlement in the Chitanana Lake Subdivision project area, DNR may develop a subdivision of no more than 20 parcels, varying in size no smaller than 5 acres. This project area is located within the Unorganized Borough and therefore survey, platting, and access to and within the project area will be subject to the relevant subdivision standards. The project may be subdivided and offered in multiple stages.

There is one related action with this proposal:

Mineral Order: DNR DMLW proposes to close the project area to new mineral entry through Mineral Order (MO) 1214.

Public notice for these related actions was conducted concurrently with the notice for the primary action’s PD.

II. Authority

DNR has the authority under AS 38.05.045 Generally to sell State-owned land if, on preparation and issuance of a written finding, it is determined to be in the best interest of the State, as required by AS 38.05.035(e) Powers and Duties of the Director. Article VIII, Section 1, of the Constitution of the State of Alaska provides: “It is the policy of the State to encourage the settlement of its land and development of its resources by making them available for maximum
use consistent with the public interest.” In addition, if it is deemed appropriate, DNR has the authority to develop and offer parcels larger than 5 acres under the allowances listed in AS 38.04.020 (h) Land Disposal Bank.

For related actions, AS 38.05.300 Classification of Land, and AS 38.05.185 Generally allow for mineral orders.

III. Public Participation and Input
All state requirements for public notice and public comment input have been met as covered in detail in Section V. Summary of Public Notice and Comments. Further information may lead to alterations of design of this project within the parameters set forth through this decision. Should this project be approved, final subdivision design and survey will be completed by an Alaska licensed surveyor.

Within an organized borough or local platting authority, platting ordinances typically provide for an additional opportunity for review and comment on proposed platting actions. The scope of such a review is limited and specific to review of the project’s adherence to the local platting ordinance, and is the sole prerogative of a political subdivision of the State which establishes platting authority and the applicable ordinances governing such actions.

The Chitanana Lake Subdivision project is within the Unorganized Borough and outside of any local platting authority. However, in an effort to provide additional opportunity for public participation and input, if it is determined to be feasible and practical, DMLW may hold courtesy meetings during the development of a project. Given the remote nature of the project, no meetings were held in the area.

IV. Traditional Use Findings
In accordance with AS 38.05.830 Land Disposal in the Unorganized Borough, a Traditional Use Finding is required for project areas within the Unorganized Borough. This project area is within the Unorganized Borough. As discussed in the PD, there would be an increase in the density of the population in the area. There are no anticipated significant changes to traditional uses of the land and resources of this area as a result of the proposed action, other than a possible increase in the various traditional activities which may be practiced by private-property owners. No conflicts with traditional uses of the land have been discovered. Public review brought forth no new information indicating traditional use conflicts that was not apparent at the PD stage.

V. Summary of Public Notice and Comments
Pursuant to AS 38.05.945 Notice, public notice inviting comment appeared on the State of Alaska Online Public Notices website at https://aws.state.ak.us/OnlinePublicNotices/ and was posted on the DNR DMLW LSS website at http://dnr.alaska.gov/mlw/landsale/public_notice/ for the entire public notice period.

Notification and decision copies were sent directly to area state legislators and to multiple state agencies. Public notice was sent to other interested entities including landowners in the vicinity of the offering; additionally, parties were notified via the DNR Land Sales subscribers lists by email. Information was also posted to Twitter and Facebook. Notices were mailed to the
Doyon, Limited regional corporation per AS 38.05.945(c)(2)-(3). Additionally, notices and a request to post were sent to postmasters and librarians in the vicinity of the offering.

The public notice stated that written comments were to be received by 5:00PM, February 13, 2019 in order to ensure consideration and eligibility to appeal. For more information, refer to the PD.

DNR DMLW LSS received a general comment of non-objection from the State of Alaska, Department of Transportation.

   **DNR DMLW LSS Response:** Thank you for review of the proposal.

No public comments were received.

**VI. Modifications to Decision and/or Additional Information**

The recommended action has not been modified from the original proposed action(s) described in the Preliminary Decision.

Recommendation and Approval of the Final Finding and Decision follow.
VII. Final Finding and Decision

The Department recommends proceeding with the action as described in the PD. This action is undertaken under relevant authorities. Offering these parcels for sale will help meet the State’s goal to provide land for settlement for sale to the public and raise revenue for the State.

The findings presented above have been reviewed and considered. Public Notice has been accomplished in accordance with AS 38.05.945 Notice and comments received were considered. The project file has been found to be complete and the requirements of all applicable statutes have been satisfied. The actions are consistent with constitutional and statutory intent for State-owned land and this action is undertaken under relevant authorities.

Under the authority of the applicable statutes, it is hereby found to be in the best interest of the State of Alaska to proceed with the recommended action(s) as described and referenced herein.

Reconsideration Provision
A person affected by this decision who provided timely written comment or public hearing testimony on the preliminary decision may request reconsideration, in accordance with 11 AAC 02. Any reconsideration request must be received within 20 calendar days after the date of "issuance" of this decision, as defined in 11 AAC 02.040(c) and (d) and may be mailed or delivered to the Commissioner, Department of Natural Resources, 550 W. 7th Ave., Ste. 1400, Anchorage, Alaska 99501; faxed to 1-907-269-8918; or sent by electronic mail to dnr.appeals@alaska.gov. Under 11 AAC 02.030, appeals and requests for reconsideration filed under 11 AAC 02 must be accompanied by the fee established in 11 AAC 05.160(d)(1)(F), which has been set at $200 under the provisions of 11 AAC 05.160 (a) and (b).

If reconsideration is not requested by that date or if the commissioner does not order reconsideration on her own motion, this decision goes into effect as a final order and decision on the 31st day after issuance. Failure of the commissioner to act on a request for reconsideration within 30 calendar days after issuance of this decision is a denial of reconsideration and is a final administrative order and decision for purposes of an appeal to Superior Court. The decision may then be appealed to Superior Court within a further 30 days in accordance with the rules of the court, and to the extent permitted by applicable law. An eligible person must first request reconsideration of this decision in accordance with 11 AAC 02 before appealing this decision to Superior Court. A copy of 11 AAC 02 may be obtained from any regional information office of the Department of Natural Resources.
