related to the

Proposed Lakes Subdivision - ADL 231196

Pursuant to AS 38.05.035, the State of Alaska, Department of Natural Resources, Division of Mining, Land, and Water proposes to issue a Final Finding and Decision to convey State-owned land into private ownership within the Lakes project area (ADL 231196). As noted in the Preliminary Decision – Proposed Land Offering Lakes Subdivision – ADL 231196, issued February 15, 2012, the project area is within Subunits 1b (Susitna Lake) and 1c (Lake Louise Settlement Lands) of the Susitna *Area Plan*. In accordance with the relevant area plan, DMLW proposes to close the entire project area to mineral entry. The attached mineral order identifies the area that must be closed to mineral entry and gives a legal description.

The Division of Mining, Land, and Water requests the subsurface estate of approximately 333 acres, identified in the attached mineral order, be closed to mineral entry and location, in accordance with AS 38.05.300 for a land disposal. Mining activity on the project area would be incompatible with the current and proposed surface uses. The land does not contain any known mineral deposits and was not selected for mineral values. There are no mining claims on the land.

Public notice of the comment period for the proposed mineral order was conducted in accordance with AS 38.05.945. The Department did not receive objections or comments regarding the proposed mineral order from the public or agencies during the response period.

In accordance with AS 38.05.185 (a) and AS 38.05.300, I find that the best interests of the State of Alaska and its residents are served by closure of the land to entry under the mineral location and mining laws of the State of Alaska as described by Mineral Order (Closing) No. 1127.
