INDEX SHEET 1

VICINITY MAP SOURCE: USGS QUAD, TYONEK (D-2), 1954, (1978); TYONEK (C-2), (1985)
SCALE: 1" = 1MILE

NOTES:

- This survey was accomplished in accordance with AS 38.05.600, GSC 685 and RRCS SI 2003-46.
- All bearings are true bearings as oriented to the Basis of Bearing and distances shown are reduced to horizontal field distances. Monuments were set with high precision differentially corrected Real Time Kinematic GPS methods using Tripod Data Systems GPS Survey Pro version 3.7 and confirmed with high precision differentially corrected static observations using Javad Legacy and Legacy-E receivers, with data processed by GeoGenius 2000 software.
- The accuracy of this survey is greater than 1:5000.
- All parcels of land owned by the State of Alaska, located within 50.00 feet of, or bisected by a surveyed or protracted section line, are subject to a 50 foot (50') easement, each side of the section line, which is reserved to the State of Alaska for public highways under AS 19.10.010.
- The existing lessees' claim corners were recovered and used to control the location of tract boundaries.
- The natural meanders of the line of ordinary high water form the true bounds of Tracts A, G, H and I. The approximate line of OHW, as shown, is for area computations only, with the true corners being on the extension of the sidelines and their intersection with the natural meanders.
- COORDINATES:** The Geographic Positions listed were based on a solution computed by the NGS OPUS program, using CORS stations TLKA, TSEA and ZAN1, which yielded a NAD 83 (CORS96) (epoch:2003.0000) position, extended to the corner locations by static survey methods, and converted to NAD 27 using the CORPSCON utility.
- A local coordinate system was adopted by taking State Plane Zone 4, NAD 83 (feet) coordinate of 2824800.07 N., 407125.76 E., translating to 50,000 N., 50,000 E., rotating counter clockwise 0°28'18", and scaling by 1.000097.
- The Matanuska-Susitna Borough is not responsible for road construction or road maintenance.
- WASTEWATER DISPOSAL:** No individual water supply system or sewage disposal system shall be permitted on any lot unless such system is located, constructed and equipped in accordance with the requirements, standards and recommendations of the State of Alaska, Department of Environmental Conservation, which governs those systems.
- There may be federal, state and local requirements governing land use. The individual parcel owners shall obtain a determination whether these requirements apply to the development of parcels shown on the plat to be recorded.

CERTIFICATE OF PAYMENT OF TAXES

I hereby certify that all current taxes and special assessments through Dec 2005 against the property included in the subdivision or resubdivision hereon have been paid.
