FISH HABITAT PERMIT FH26-I-0091

ISSUED: August 7, 2026
EXPIRES: December 31, 2030

Hecla Greens Creek Mining Company
ATTN: Paula Lillesve
P.O. Box 32199
Juneau, AK 99803-2199

RE: Water Withdrawal
Greens Creek (Stream No. 112-65-10232)
Section 8, T 44 S, R 66 E, CRM (Juneau A-2)
Location: 58.0784 N, 134.6471 W

Dear Paula Lillesve:

Pursuant to the Anadromous Fish Act at AS 16.05.871(b), the Alaska Department of Fish and Game (ADF&G) Habitat Section reviewed your proposal to withdraw water from Greens Creek for construction, dust control, and exploration as part of Greens Creek Mine operations.

Project Description

You will withdraw water at a maximum rate of 30 gpm using a 2 inch diameter pump or gravity fed intake hose screened with 1/8 inch mesh and placed in a bucket with 1/4 inch holes. You will ensure the screen and perforations are free of debris during use and repair the structure as needed to prevent fish impingement and entrainment.

Anadromous Fish Act

Stream Number 112-65-10232 has been specified as being important for the spawning, rearing, or migration of anadromous fishes pursuant to AS 16.05.871(a). Greens Creek provides habitat for coho salmon and Dolly Varden at this location.

In accordance with AS 16.05.871(d), your project is approved subject to the project description and permit terms.

Permit Terms

This letter constitutes a permit issued under the authority of AS 16.05.871 and must be retained on site during project activities. Please be advised that this determination applies only to Habitat Section regulated activities; other agencies also may have jurisdiction under their respective authorities. This determination does not relieve you of your responsibility to secure other state, federal, or local permits. You are still required to comply with all other applicable laws.

You are responsible for the actions of contractors, agents, or other persons who perform work to accomplish the approved project. Prior to engaging in any activity that significantly deviates from the approved plan, you shall notify the Habitat Section and obtain written approval in the form of a permit amendment. Any action that increases the project's overall scope or that negates, alters, or minimizes the intent or effectiveness of any provision contained in this permit will be deemed a significant deviation from the approved plan. The final determination as to the significance of any deviation and the need for a permit amendment is a Habitat Section responsibility. Therefore, it is recommended the Habitat Section be consulted immediately when a deviation from the approved plan is being considered.

You shall give an authorized representative of the state free and unobstructed access to the permit site, at safe and reasonable times, for the purpose of inspecting or monitoring compliance with any provision of this permit. You shall furnish whatever assistance and information the authorized representative reasonably requires for monitoring and inspection purposes.

In addition to the penalties provided by law, this permit may be terminated or revoked for failure to comply with its provisions or failure to comply with applicable statutes and regulations. You shall mitigate any adverse effect upon fish or wildlife, their habitats, or any restriction or interference with public use that the commissioner determines was a direct result of your failure to comply with this permit or any applicable law.

You shall indemnify, save harmless, and defend the department, its agents, and its employees from any and all claims, actions, or liabilities for injuries or damages sustained by any person or property arising directly or indirectly from permitted activities or your performance under this permit. However, this provision has no effect if, and only if, the sole proximate cause of the injury is the department's negligence.

You may appeal this permit decision relating to AS 16.05.871 in accordance with the provisions of AS 44.62.330–630.

Please direct questions about this permit to Habitat Biologist Greg Albrecht at (907) 465-6384 or greg.albrecht@alaska.gov.

Sincerely,
Doug Vincent-Lang
Commissioner
