

## KENSINGTON MINE INSPECTION REPORT

**Inspection Date:** July 17, 2019  
**Weather:** overcast, ~50-60 ° F  
**Time of Inspection:** 8:00am to 2:00pm  
**Operator Contact:** Kevin Eppers - CAK Sr. Environmental Engineer  
**Agency Personnel:** ADNR-Shannon Kelly; USFS-Richard Dudek; ADEC-David Khan  
**Inspection Objectives:** General Mine Site Inspection

Agency personnel met at Ward Air to take an 8am flight on a float plane to the Slate Cove Marine Terminal. The following observations were made, and photographs taken:

View of Comet Waste Rock Stockpile from the Comet Water Treatment Plant

Comet Water Treatment Plant, Pond 2

No white material present on test rock in Comet WTP.

Sherman Creek, slightly downstream from discharge area, white material present on the rocks in the stream.

Comet Beach

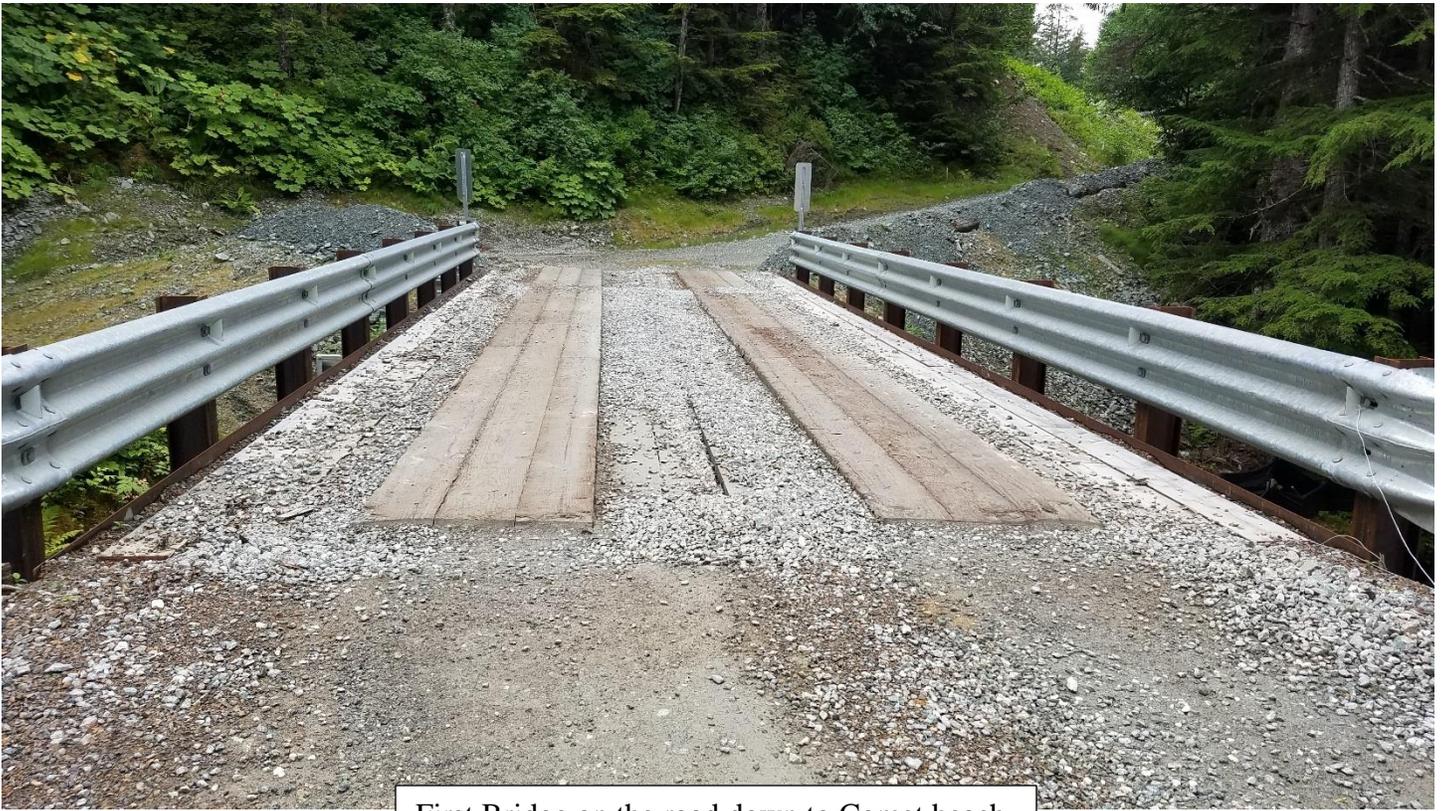

Core storage shed on Comet Beach side.

Forest Service Cabin on Comet beach side, with containers of core stored in front.

Containers of core stored in front of the Forest Service Cabin.

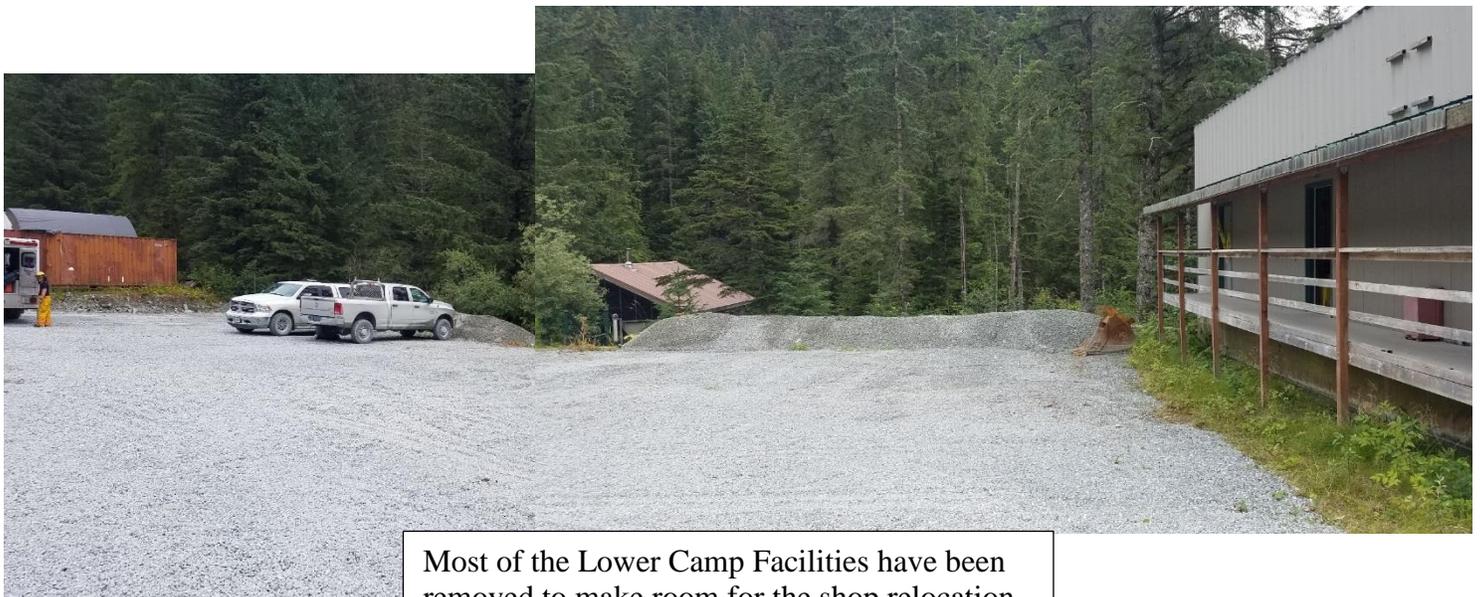

First Bridge on the road down to Comet beach.

Second Bridge on the road down to Comet beach.

Old generators being removed from the Mill bench.

Most of the Lower Camp Facilities have been removed to make room for the shop relocation.

Helicopter pad for surface exploration drilling program.

Black cover pulled back from Graphitic phyllite storage pile while being removed and processed for underground storage.

Upstream face of the Stage 3 dam at the Tailing Treatment Facility

Shotcreted area at the Tailing Treatment Facility (TTF), Lions head mountain in the background

Second Diversion pipeline being fused and installed alongside the original installation at the TTF.

Spillway on the downstream face of the Tailing Treatment Facility (TTF)

Water treatment plant at the Tailings Treatment Facility (TTF)

Microfiltration and Reverse Osmosis water treatment at the Tailings Treatment Facility

Thanks to Kevin Eppers for the tour.

Sincerely,

Shannon M. Kelly  
Mining Engineer
