Director, Alaska State Office  
Bureau of Land Management  
222 W. 7th Avenue, #13  
Anchorage, Alaska 99513-7599

Re: Recordable Disclaimer of Interest Application for Kulik Lake and an Unnamed Lake

Dear Mr. Bisson:

Pursuant to 43 CFR §1864, the State of Alaska files this application for a Recordable Disclaimer of Interest for the lands underlying Kulik Lake and an Unnamed Lake (hereinafter referred to as Unnamed Lake #2).

I. DESCRIPTION OF WATERWAY

This application is submitted for the submerged lands encompassed by the ordinary high water line of Kulik Lake within the following townships and ranges in the Seward Meridian: Township 18 North, Range 63 West; Township 19 North, Range 63 West.

This application is also submitted for the submerged lands encompassed by the ordinary high water line of Unnamed Lake #2 within Secs. 1-4, 9-12, 14-16 and 23-24, Township 18 North, Range 63 West, Seward Meridian. This application is also submitted for the submerged lands within the bed of the Unnamed Lake #2 Outlet between the ordinary high water lines of the left and right banks of the Outlet, beginning at its source, Unnamed Lake #2, in the SW¼ NW¼ Section 3, Township 18 North, Range 63 West, Seward Meridian; thence northerly approximately 250 feet to its confluence with Unnamed Lake #3 in the N½ of Section 3 in Township 18 North, Range 63 West, Seward Meridian.

A map highlighting the two lakes and a legal description of the townships and ranges underlying the waterbodies are enclosed.

II. WAIVER REQUEST

"Develop, Conserve, and Enhance Natural Resources for Present and Future Alaskans"
Re: Recordable Disclaimer of Interest Application for Kulik Lake and an Unnamed Lake
March 10, 2006
Page 2 of 6

As previously discussed with the BLM Alaska State Director, the State requests a waiver under §1864.1-2(d) of the requirement of 43 CFR §1864.1-2 (c)(1) for a description based on a public land survey or certified metes and bounds survey because the map and legal description included here clearly identify the land subject to this application.

III. Basis for the State's Request for a Recordable Disclaimer of Interest

Navigability of the waterbody - The State's application for a Recordable Disclaimer of Interest is based on the Equal Footing Doctrine; the Submerged Lands Act of 1953; the Submerged Lands Act of 1988; the Alaska Statehood Act; or any other legally cognizable reason. BLM may disclaim interest in the submerged lands on any of the grounds that apply.

Because Kulik Lake and Unnamed Lake #2 are navigable, Alaska owns the submerged lands underlying these waterbodies by virtue of the Equal Footing Doctrine and the Submerged Lands Acts. Under the Equal Footing Doctrine, new states created from federal territories are admitted to the Union with all the powers of sovereignty and jurisdiction that pertain to the original states. Upon admission of a state to the Union, the title to lands underlying navigable waters within its boundaries automatically passes to the state as a matter of constitutional grace.

The State as the upland owner - Generally, where the State is the owner of the uplands adjacent to Kulik Lake and Unnamed Lake #2, the State owns the bed of these waterbodies even in the absence of a navigability determination. In such circumstance, the State took title under the Equal Footing Doctrine if the water is navigable, or if it is non-navigable, the State gained title to the beds of waterways as a result of the intent of the grantor and state law governing riparian rights. In Alaska, where the land bordering a non-navigable body of water is ceded, title to the submerged lands passes to the shoreland owner unless the intent of the grantor is expressly stated to the contrary.

IV. Reason for the State's Request for Recordable Disclaimer of Interest

The lack of any title document or judgment creates a cloud on the State's title. A Recordable Disclaimer of Interest for this land will help lift the cloud on its title stemming from the lack of any permanent determination of ownership.

V. Evidence of the Navigability of Kulik Lake and its Outlet

In 1983 the Bureau compiled a regional report detailing historical information and documents related to the Kuskokwim Region (hereinafter referred
Re: Recordable Disclaimer of Interest Application for Kulik Lake and an Unnamed Lake
March 10, 2006
Page 3 of 6

to as the "Regional Report"). This 800 page report provides an extensive description and summary of historic use of the waterways in the region, including Kulik Lake and Unnamed Lake #2, providing information regarding the use of waterways in the region and details about the historic communities and activities such as exploration, mining, hunting, fishing, trapping, water transport and road and trail use.

Subsequent to the Regional Report, on November 8, 1984, the Bureau published a report entitled Navigable Waters of the Kuskokwim Region, Alaska (hereinafter referred to as "1984 Report"). This report provided further information related to the region and made navigability determinations for a number of waterbodies previously identified in the Regional Report. The report specifically addressed what is known as the Kuskokwim-Yukon Portage, which includes Kulik Lake and Unnamed Lake #2 stating that:

The Portage was suitable for a wide range of crafts, including kayaks, canoes, rowboats, and poling boats, which ranged in length from eighteen to thirty-two feet. Prior to 1930 the mail carrier maintained five rowboats on the Portage. These made it possible for him to travel the distance from Bethel to Russian Mission and return in fifteen to twenty days, all the while carrying a minimum of 600 pounds of mail and oftentimes passengers.

The Report further discussed certain improvements made to the Portage over time, and stated that:

All these improvements were designed to accommodate boats as large as the mail carrier's - a thirty-foot boat with a four-foot beam and a payload capacity of 2,600 pounds. The project evidently was successful, for in 1938 a Bureau of Fisheries agent reported, "The largest boats now that go over the portage do not exceed 30 feet in length, 4 foot beam, and should not draw over a foot or fifteen inches of water at most." The improvements had no effect on the navigability status of the subject waterbodies, for it is clear that the streams and lakes were navigable for boats similar to those in commercial use in 1959 before the improvements were effected.

In this report, the Bureau deems this section of the portage, including Kulik Lake and Unnamed Lake #2, navigable.

Another report focusing on the portage area entitled "Reconnaissance Report: Yukon-Kuskokwim Portage, Yukon-Kuskokwim Rivers, Alaska" authored by the
Alaska District, Corps. of Engineers in January, 1971 discusses commerce on the Portage and states that:

The Yukon and Kuskokwim River area is connected to a major supply and market centers by water and air traffic only. The movement of freight by water, although seasonal, is vital to the sustained economic growth of the area. Large quantities of bulk materials and supplies are moved throughout the two river systems each summer by boat and barge.

The 1984 Report and the Army Corp. report are affixed hereto as support for the State's application. The Regional Report is not affixed to this application due to its voluminous size. It can, however be accessed through the Alaska Resources Library & Information Services (ARLIS).

VI. OTHER KNOWN INTERESTED PARTIES

The state is not aware of any adverse claimant or occupant of these lands.

VII. CONCLUSION

As evidenced by the Bureau’s 1984 Report, the Army Corp. report and the Regional Report and the available historic information included therein, the State of Alaska determines there is sufficient information to conclude that Kulik Lake and Unnamed Lake #2 are navigable and ownership of the underlying submerged lands should be disclaimed by the Department of Interior.

The state agency responsible for this application is the Alaska Department of Natural Resources, Division of Mining, Land, and Water, 550 W. 7th Avenue, Anchorage, Alaska 99501, Attention Richard Mylius, (907) 269-8600. The State hereby authorizes BLM to bill the State's account $100 for the application fee required by regulation.

Sincerely,

Michael L. Menge
Commissioner

Legal Description

Kulik Lake and Unnamed Lake #2 within the State of Alaska, more particularly described as follows:

Kulik Lake

All submerged lands encompassed by the ordinary high water line of Kulik Lake within the following townships and ranges in the Seward Meridian as determined from Alaska USGS 1:63,360 series topographic map Russian Mission C-5 (1952):

Township 18 North, Range 63 West;
Township 19 North, Range 63 West.

Unnamed Lake #2:

All submerged lands encompassed by the ordinary high water line of the Unnamed Lake #2 within Secs. 1-4, 9-12, 14-16 and 23-24, Township 18 North, Range 63 West, Seward Meridian as determined from Alaska USGS 1:63,360 series topographic map Russian Mission C-5 (1952).
