What is the Kachemak Bay Water Trail?

The Kachemak Bay Water Trail is a boat route that provides scenic, fun, educational, and recreational experiences along the shores of Kachemak Bay. The water trail is connected through signs, maps, and an ever-growing number of sites, many of which offer amenities such as trailheads, picnic areas, and overnight facilities.

Kachemak Bay Water Trail 2017

Adventure Beyond the End of the Road

The 125-mile Kachemak Bay Water Trail inspires exploration, understanding, and stewardship of the natural treasure that is Kachemak Bay.

Photographs were generously donated by Christina Whiting, Alaska State Parks, Barbara Crews, Patty Dolese, NPS-LRHolzapfel, Claire Leclair, Bill Scott, Taz Tally, Matt Sansone, Justin Wholey.

- ### Legend

-
- The map displays Kachemak Bay with several labeled areas and features. A legend on the left identifies the symbols used: Trails (dotted brown line), Roads (solid black line), Unimproved Roads (dashed yellow line), Kachemak Bay Critical Habitat Area* (solid pink line), Fox River Flats Critical Habitat Area (dashed orange line), Kachemak Bay State Park (dashed black line), Mudflats** (yellow stippled area), and Kachemak Bay Water Trail Sites (yellow circle with a black hash symbol). The map shows the bay's coastline, with the city of Dungeness at the top. Key locations include the Kachemak Bay Critical Habitat Area (pink line), Fox River Flats Critical Habitat Area (dashed orange line), Kachemak Bay State Park (dashed black line), and Mudflats (yellow stippled area). The city of Dungeness is at the top, and the city of Kachemak is at the bottom. The map also shows the city of Dungeness, the city of Kachemak, and the city of Dungeness. The map is titled 'Kachemak Bay' and includes a scale bar.
- Trails**
- Roads**
- Unimproved Roads**
- Kachemak Bay Critical Habitat Area***
- Fox River Flats Critical Habitat Area**
- Kachemak Bay State Park**
- Mudflats****
- Kachemak Bay Water Trail Sites**

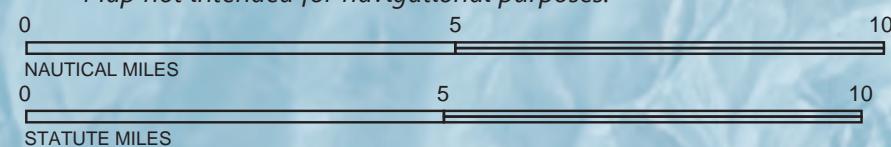

* Includes all state-owned waters and tidelands in the bay.
** The tidally influenced mudflats of Kachemak Bay are exposed twice daily.
